<p><b>4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)</b></p> <p>The Personnel Advisory Board recommended a one-range repositioning for the following classifications: HEALTH FACILITIES CONSULTANT, FACILITY SURVEYOR I; FACILITY SURVEYOR II; and FACILITY SURVEYOR III. The request was determined using 4 percent of budgeted personal service within these job classes, affecting 108.05 FTE. Due to a lack of federal funds, General Revenue is necessary to pick up the repositioning cost for the non-Medicaid federally funded FTE (42.09). Federal funds are available to cover the repositioning cost for the Medicaid federally funded FTE (19.17).</p>

### FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 5802000	<b>DEPARTMENT:</b> Department of Health & Senior Services
<b>BUDGET UNIT NAME:</b> Office of the Director	<b>DIVISION:</b> Director's Office

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

For FY 2007, the Director's Office was granted 20 percent flexibility between general revenue fund personal services and expense and equipment appropriations. The Director's Office requests that this level of flexibility be continued for FY 2008, as well as extend 20% flexibility between personal services and expense and equipment for federal funds. This flexibility will help ensure the Director's Office can deal with situations involving leave payouts, overtime, statutory changes, or other unforeseen circumstances.

#### DEPARTMENT REQUEST

DHSS requests 20% flexibility between PS and E&E for General Revenue and federal funds.

- 1. What does this program do?**

The Director's Office includes the department director, deputy department director, and other senior management staff that provide administrative leadership, support, coordination, and oversight for the entire Department of Health and Senior Services (DHSS). In addition, our department has centralized personnel, government policy, legislation, legal affairs, public information, professional development, and strategic planning services in the Director's Office. These support services are provided without duplication to the entire department. As a result of this centralized approach, DHSS is able to eliminate the need for the divisions/centers to duplicate these services and processes. This centralized approach has allowed DHSS to deliver services in a more efficient and consistent manner to both departmental employees and Missouri citizens.

The Department of Health was established in 1985 under Senate Bill 25. On August 28, 2001, the Division of Aging, formerly under the Department of Social Services, was consolidated with the Department of Health as a result of an executive order to form the newly named Department of Health and Senior Services. The reorganization united aging and public health programs for the state and allowed both agencies to better integrate their services and resources.

The Office of the Director, which includes the Boards of Health and Senior Services, serves as the focal point for leadership and coordination across the department. The director articulates and reinforces the department's vision and goals to the programs within the department and provides advice and counsel on public health and senior services issues to the Governor and the Legislature. The director of the Department of Health and Senior Services facilitates the department's partnership with local public health agencies, Area Agencies on Aging, and other organizations addressing public health and senior issues.
- 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Chapter 192, RSMo. (Department); Section 191.400, RSMo. (State Board of Health); and Section 660.062, RSMo. (State Board of Senior Services).
- 3. Are there federal matching requirements? If yes, please explain.**

No

<b>FEDERAL</b>	7,012								7,012
<b>OTHER</b>	0								0
<b>TOTAL</b>	150,146								150,146

### 1. What does this program do?

The Employee Disqualification List (EDL) Program manages all aspects of the statutorily mandated EDL process including complaint investigations indicating possible abuse, neglect, misappropriation of funds or property, or falsification of service delivery documents by employees of all entities licensed under Chapter 197 (hospitals, hospice, home health agencies, ambulatory surgical units), long term care facilities, in-home service providers, consumers, or vendors (208.912 and 208.915). Complaints are received and reviewed, and appropriate individuals are referred to the EDL. In addition, requests for hearings prior to placement on the EDL are received and processed by the EDL Unit. The EDL mainframe database is managed by the unit including all additions or corrections. Requests for provider access to the automated EDL checking systems are reviewed by the EDL Unit personnel for approval. EDL Unit personnel also handle any questions about or problems with the automated systems. The full EDL is prepared once annually in January, with quarterly updates in April, July, October, and December and is available on the DHSS' website for providers with access to the automated EDL systems.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Sections 197.500, 198.070, 198.090, 660.315, 660.300, 660.305, 208.912, and 208.915 RSMo.

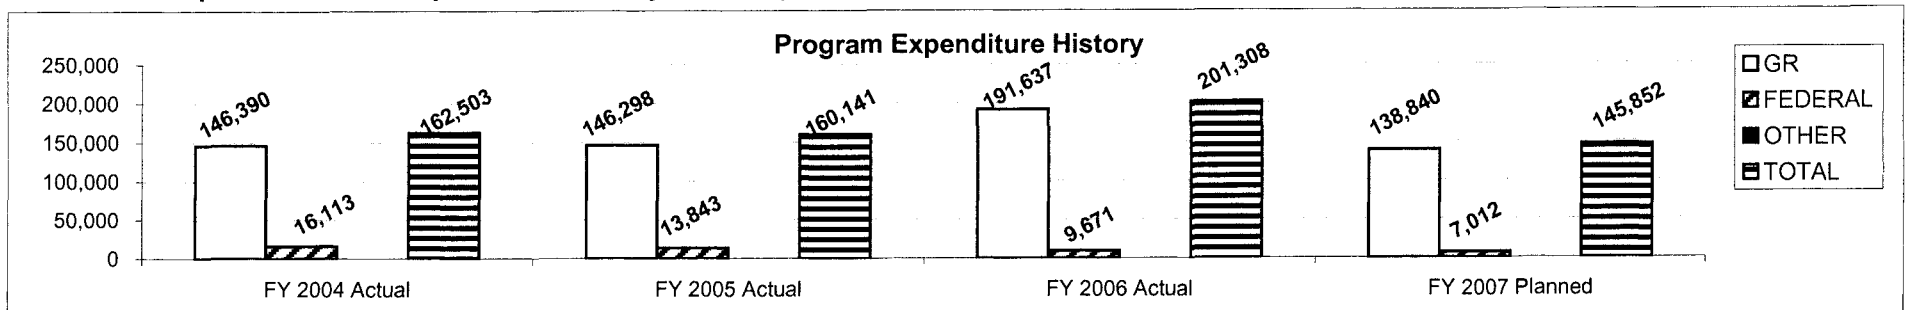

### 3. Are there federal matching requirements? If yes, please explain.

No

### 4. Is this a federally mandated program? If yes, please explain.

Yes, the EDL Program fulfills the requirements of 42CFR483.13, 42CFR483.156, and 42CFR488.335 requiring a state procedure for reporting findings to licensing boards and adding indicators to the Nurse Aid Registry for certified nurses aids who have abused or neglected residents or misappropriated funds or property.

### 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

#### 1. What does this program do?

The Office of Special Investigations (OSI) is a statewide special investigative unit organized within the Director's Office of the Department of Health and Senior Services. OSI is responsible for investigating allegations of abuse, neglect, or financial exploitation for senior and eligible adults, allowing them to have the resources needed to empower them to attain or maintain optimal self-determination and independence. OSI investigators work closely with law enforcement agencies and prosecutors across the state to provide thorough and comprehensive investigations. OSI also investigates internal and external personnel issues and provides training at law enforcement academies and public educational outreach programs throughout the state.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Sections 565.186, 660.260 and 660.305, RSMo.

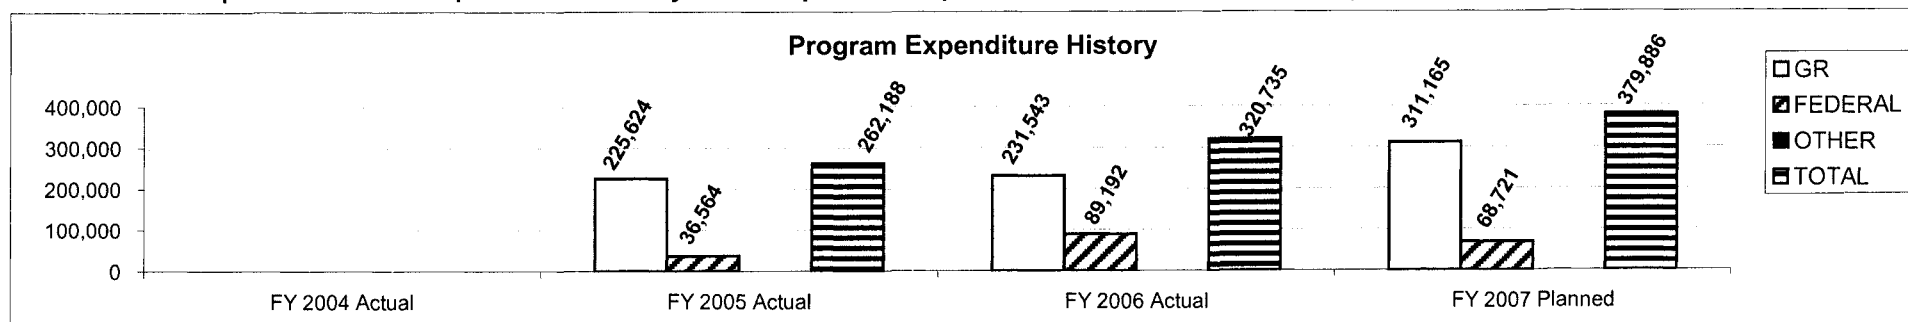

#### 3. Are there federal matching requirements? If yes, please explain.

Yes, Title XIX Medicaid requires a 50 percent match.

#### 4. Is this a federally mandated program? If yes, please explain.

2. CORE DESCRIPTION									
<p>The Department of Health and Senior Services (DHSS) has begun implementing technological innovations to improve the delivery of services it provides to Missourians. There are two projects currently underway. The first project is the Enhanced Case Management System. It would replace current legacy systems for the Central Registry for Abuse, Neglect, and Exploitation; the Long Term Care Subsystem (LTACS); and the Automated Payment System with a flexible, efficient, and integrated system. Implementation of the new system will allow better caseload management, easier program change, implementation, and electronic input and collection of data from a central system. The new system will also allow better Medicaid expenditure tracking, enhanced reporting capabilities, and improved provider and staff performance monitoring.</p> <p>The second project is a statewide Immunization Registry and Data System. Implementation of this system will provide a central repository for accurate, complete, and current immunization records that can be accessed by local health agencies, physicians, schools, and licensed child care facilities, instead of the often scattered immunization records most individuals currently have. Having access to current immunization data will allow physicians, clinics, and local health agencies to better advise patients when immunizations are due, reducing the chance that an immunization will be missed, and possibly a communicable disease contracted. It is expected the system will improve immunization rates for all ages across the state, and, thus, reduce the incidence of communicable diseases in Missouri.</p> <p>This authority will need to be adjusted downward in the final FY 2008 budget, as only the unused appropriation authority authorized in FY 2007 will be carried forward to FY 2008.</p>

2. CORE DESCRIPTION

The State Public Health Laboratory (SPHL) is vitally important to community health, providing a broad range of disease control and surveillance; preventive healthcare, terrorism, and all-hazards laboratory response; environmental monitoring; and laboratory improvement services. The SPHL operates specialty units in Jefferson City, Mount Vernon, and Poplar Bluff providing services to physicians, veterinarians, law enforcement, local and district public health personnel, hospitals, and private labs. SPHL conducts testing in the fields of serology, virology, bacteriology, mycobacteriology, parasitology, chemistry, and newborn screening, allowing medical practitioners to identify harmful conditions and provide appropriate treatment; conducts analyses of water and food to assure its safe use; and serves as the reference laboratory for the department and other medical professionals and institutions in the state. The SPHL is the leader in the state for acquiring and implementing technologies and methodologies to detect newly emerging or re-emerging diseases of public health consequence. Examples include West Nile Virus, antibiotic-resistant bacteria, avian influenza, and pandemic influenza.

Serving as the primary state response laboratory for biological and chemical terrorism events, the SPHL also conducts program evaluations for municipal, hospital, and private laboratories; provides support to public safety programs (implied consent/breath alcohol); and supervises certifications and operations of breath alcohol analyzers. Without public health laboratories, communities would not be protected against diseases, food supplies would be unsafe, babies born with rare genetic diseases would go undetected and untreated, and surveillance of environmental dangers to the public would not occur. Disease outbreaks and exposures to toxic substances are major public health problems. Many programs within state government require routine and specialized public health laboratory services to support their objectives in protecting the health of the public and in supporting programs that assure the health of the communities.

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 5802015	<b>DEPARTMENT:</b> Department of Health & Senior Services
<b>BUDGET UNIT NAME:</b> State Public Health Lab (SPHL)	<b>DIVISION:</b> State Public Health Lab

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

For FY 2007, the State Public Health Lab (SPHL) was granted 20 percent flexibility between personal services and expense and equipment appropriations for General Revenue, federal funds, Missouri Public Health Service Fund, and Childhood Lead Testing Fund; also, 100 percent flexibility was granted between Medicaid and non-Medicaid appropriations. SPHL requests that this level of flexibility be continued for FY 2008. This flexibility will help ensure the SPHL can deal with situations involving leave payouts, overtime, statutory changes, or other unforeseen circumstances. Since the Medicaid and non-Medicaid appropriations are estimates and are impacted by a number of factors (how to appropriately split out Medicaid funding from other funding streams for staff that work on multiple-funded programs, uncertainty on Medicaid eligibility of clients served by programs, etc...), 100% flexibility would allow the department to move these funds to either Medicaid or regular appropriations if the estimates proved to be too low or too high, thereby helping to avoid the need for a supplemental appropriation.

### DEPARTMENT REQUEST

DHSS requests 20% flexibility between PS and E&E for General Revenue, federal, and other funds and 100% flexibility between Medicaid and Non-Medicaid appropriations.

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
In FY 2006, the SPHL flexed \$78,000 from E&E to PS to cover payout for retiring staff or otherwise leaving employment.	In FY 2007, 20 percent flexibility was appropriated between PS and E&E appropriations and 100 percent flexibility was appropriated between Medicaid and non-Medicaid appropriations. This will allow the program to respond to changing situations to continue to provide the best possible, quality services to DHSS.

OTHER	421,922								421,922
TOTAL	632,605								632,605

#### 1. What does this program do?

Laboratory Administration manages the business functions of and provides administrative support to the State Public Health Laboratory (SPHL). Daily functions include procurement; accounts receivable and payable; review of federal aid applications and memorandums of understanding; expenditure tracking; preparation of operating budget requests; cost accounting analyses; grants management; fiscal note preparation; tracking, reporting, and analyses of specimen/sample counts; personnel management; Medicaid billing; and order-processing of newborn screening test forms.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 192.050 RSMo; Code of State Regulation: 10 CSR 60-1.010; Clinical Laboratory Improvement Amendment (CLIA)-Federal: 42 USC 263a.

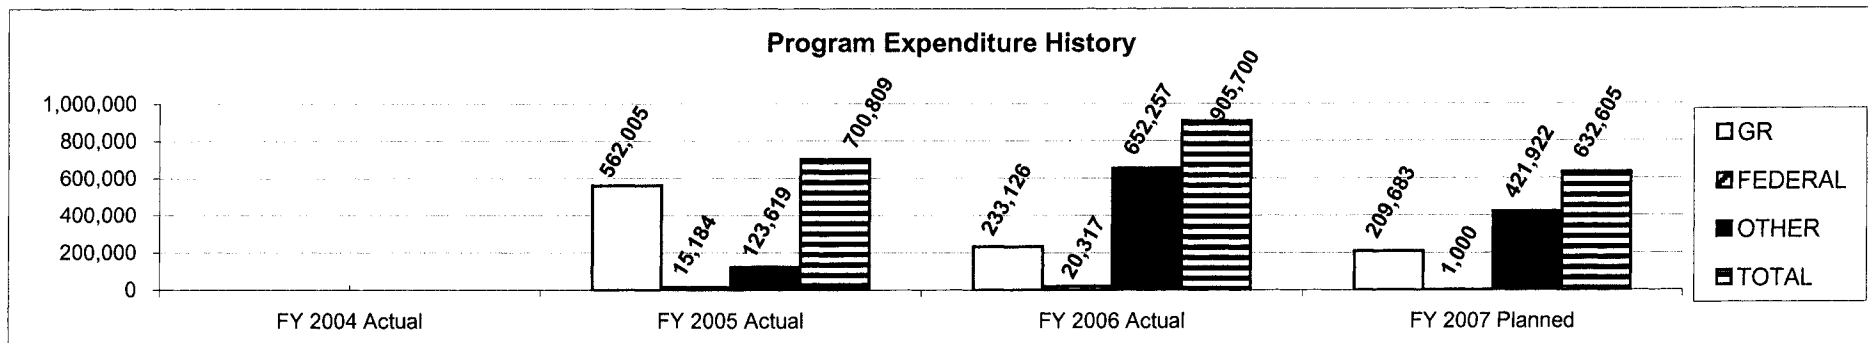

#### 3. Are there federal matching requirements? If yes, please explain.

No

#### 4. Is this a federally mandated program? If yes, please explain.

Yes, under CLIA - Federal - 42 USC 263a.

#### 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Note: See Central Services sheet for FY 2004: Actual data will include Administrative Support and Central Services combined for these years.

FY 2005 and FY 2006 actual data include Administrative Support only.

### Administrative Support

Program is found in the following core budget(s): State Public Health Laboratory

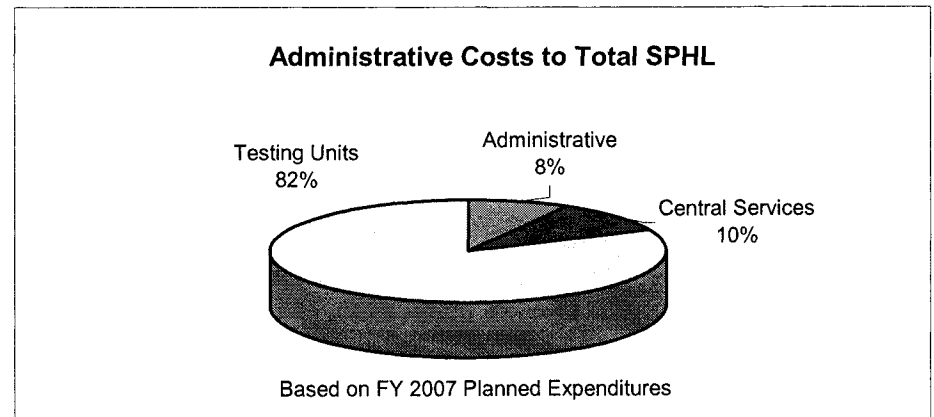

#### 6. What are the sources of the "Other" funds?

Missouri Public Health Services Fund (0298); and Childhood Lead Testing Fund (0899).

#### 7a. Provide an effectiveness measure.

#### 7b. Provide an efficiency measure.

#### 7c. Provide the number of clients/individuals served, if applicable.

Customers served by the Administrative Support Unit of the SPHL include numerous vendors, various staff throughout the department, and state agencies.

#### 7d. Provide a customer satisfaction measure, if available.

The laboratory will be conducting an assessment during FY 2007 in which numerous stakeholders will participate and offer insight into services, strengths and weaknesses of the public laboratory system in place.

**PLEASE NOTE: UNLESS OTHERWISE INDICATED, FY 2008 AND FY 2009 PERFORMANCE MEASURES ARE BASED ON FY 2007 CORE FUNDING LEVELS.**

TOTAL	812,576								812,576

#### 1. What does this program do?

The Central Services Unit of the State Public Health Lab (SPHL) manages the basic support functions of the laboratory. This unit assembles, prepares, and ships test kits to hospitals, laboratories, and public health offices; receives and distributes mail, supplies, equipment, and furniture; orders, stores, and delivers supplies used in kit preparation, shipping, and testing; arranges for maintenance and certification contracts for general lab equipment, schedules maintenance, and keeps a file of maintenance records; performs small maintenance such as changing light bulbs, hanging bulletin boards, changing filters on equipment, and moving equipment and furniture within the SPHL; monitors and maintains the fixed asset inventory; monitors, manages, and maintains the statewide courier contract for specimen transportation to Jefferson City; sterilizes biological waste, glassware, and instruments; and arranges for pick up and disposal of chemical waste generated on-site, keeps hazardous waste documentation, and files required forms with regulatory agencies.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 192.050, RSMo; Code of State Regulation: 10 CSR 60-1.010.

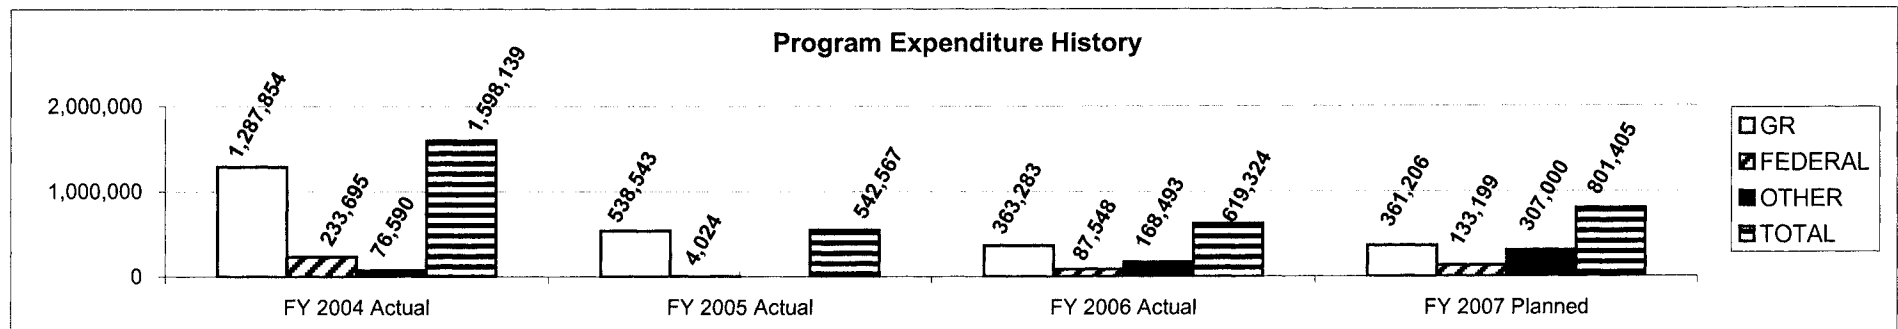

#### 3. Are there federal matching requirements? If yes, please explain.

No

#### 4. Is this a federally mandated program? If yes, please explain.

No

#### 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Note: Actual data includes Administrative Support and Central Services combined for FY 2004. FY 2005 - FY 2006 actual data includes Central Services only.

Number of Courier Stops	45,751	45,800	45,884
Number of Performance Incidents	35	50	35
Incidents Versus Courier Stops	1:1307	1:916	1:1311

A performance incident is any event reported to the Central Services Unit which indicates that a specimen was handled incorrectly by the courier service. The Central Services Unit works with the courier service to ensure that corrective action is taken to address each performance issue.

#### 7b. Provide an efficiency measure.

The State Public Health Laboratory provides a statewide courier system to ensure specimens arrive within 24 hours for appropriate diagnostic testing. By meeting with partners, assessing pickup locations, dates, times and testing requirements, the SPHL has reduced the cost of providing this critical service even as the number of specimens tested increases.

#### 1. What does this program do?

The Newborn Screening Unit of the State Public Health Laboratory screens all infants born in Missouri during the first week of life for the presence of certain genetic and metabolic disorders. Missouri law mandates infants be screened at the State Public Health Laboratory for the following disorders: primary congenital hypothyroidism; classical galactosemia; hemoglobinopathies; congenital adrenal hyperplasia; and amino acid disorders, including phenylketonuria, fatty acid disorders, and organic acid disorders. Currently, testing for 27 disorders is performed. The results of these laboratory tests provide early detection of these serious conditions that, otherwise, may not be detected for weeks, months, or years, and lead to interventions that assure healthier outcomes for infants with these conditions. In addition to newborn specimens, adult blood from parents of infants with abnormal hemoglobin results is tested in the Unit's hemoglobinopathy laboratory when referred as part of genetic counseling by healthcare providers.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Sections 191.331 and 191.332, RSMo.

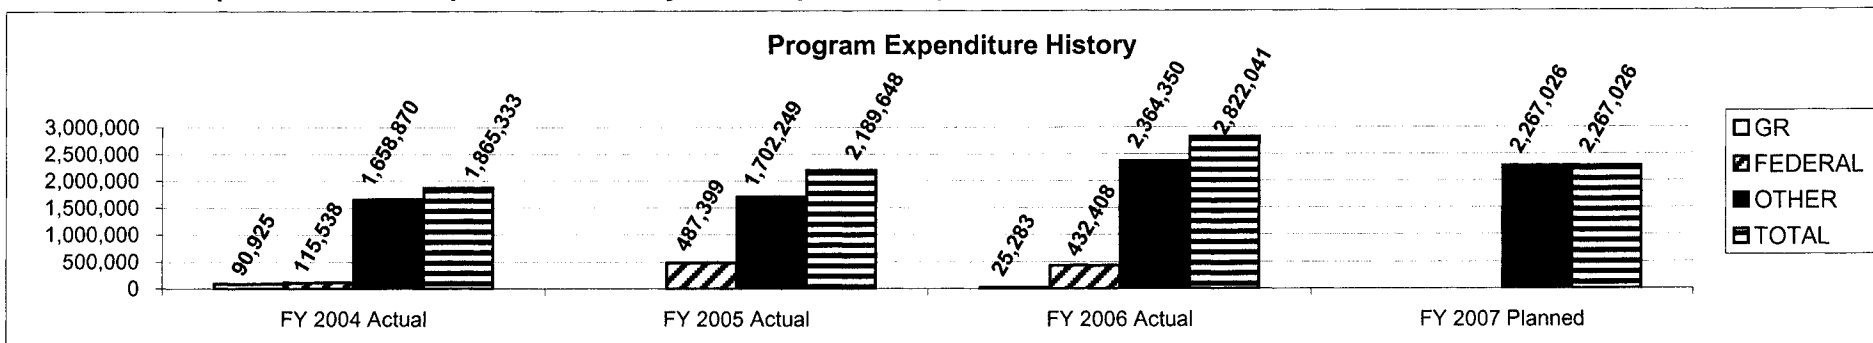

#### 3. Are there federal matching requirements? If yes, please explain.

Yes, in FY 2007, \$1,600,000 of the Missouri Public Health Services Fund money spent on Newborn Screening will be used as a \$3 non-federal / \$4 federal match for the Maternal and Child Health (MCH) Block Grant.

#### 4. Is this a federally mandated program? If yes, please explain.

#### 1. What does this program do?

The Environmental Bacteriology Unit of the State Public Health Laboratory helps to assure the public health of Missourians by ensuring state and federal regulatory requirements for safe water are met. Annually, this unit, along with the branch laboratory located in Poplar Bluff, tests nearly 65,000 samples from more than 2,000 public water supplies in Missouri. These supplies serve more than 50 percent of the state's population. The bacterial testing performed on all water samples helps to assure the water quality.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Sections 196, 640.100-640.140, RSMo; Code of State Regulations 10 CSR 60-1.010, 19 CSR 25-32.010.

Public Water samples must be in the incubator and ready for testing within 30 hours of the sample being collected, or the sample is rendered unsatisfactory for testing. The courier service provided by SPHL reduces the time accrued from time of sample collection to testing over all other sources except those received by walk-ins to the laboratory. This reduces the chance of false positives, and costs of re-collection, re-testing and monitoring which would be incurred at the local level as well as state level.

**1. What does this program do?**

For 100 years, the Missouri State Public Health Laboratory has provided laboratory support in the diagnosis and investigation of health problems and health hazards that threaten public safety. Responsibilities now include specimen analysis and isolation identification, disease control and surveillance, reference and specialized testing, food safety, and emergency terrorism response. The Missouri State Public Health Laboratory possesses the required capabilities to provide specialized testing for tuberculosis, rabies, botulism, various chemical contaminants, and plague; and to identify newly emerging threats such as West Nile Virus and Pandemic Influenza.

The Missouri State Public Health Laboratory (SPHL), authorized under Section 192.050 RSMo, provides a wide range of diagnostic and analytical services to promote, protect, and assure the health of Missouri's citizens. These services include, pursuant to Sections 701.322, 191.331, and 191.322 RSMo, laboratory testing for infectious diseases, genetic disorders, and environmental concerns. The SPHL also serves as a reference laboratory performing confirmatory or specialized procedures. Additional spending authority is being requested in FY 2008 to cover appropriation shortfalls due to inflationary costs of sexually transmitted diseases (STD) and newborn screening reagents, as well as recent reductions to federal grants. Additional authority is also needed to begin screening for Biotinidase Deficiency, fully implement Cystic Fibrosis screening, and continue expanded newborn screening testing. A supplemental request for FY 2007 accompanies this request.

If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

***Inflation - \$177,623***

Costs for reagents used to perform laboratory tests increase annually, yet the SPHL has not received an inflationary increase to cover these costs for several years. Both the STD testing and Newborn Screening programs use significant amounts of reagents to perform laboratory tests. The inflation rate for reagents used for these two programs is approximately 3 percent per year. This request will provide **\$177,623** (\$56,966 for STD Reagents + \$120,657 for Newborn Screening) of additional authority to cover these increased costs. The increase for FY 2007 is a cost to continue figure from the FY 2007 Supplemental request.

***Newborn Screening - \$620,214 and 2 FTE***

Section 191.332, RSMo, expands the newborn screening requirements in section 191.331. In Fiscal Years 2005 and 2006, the SPHL received funding from the Maternal and Child Health (MCH) Block Grant to provide start-up funding to implement the expanded newborn screening program. This funding is no longer available. Effective July 1, 2006, the newborn screening test fee was increased to \$50 for each test performed (approximately 100,000 tests/year) in order to cover the additional costs associated with expanded newborn screening. All test fee revenue is deposited in the Missouri Public Health Services Fund (MoPHS) and is used to cover the costs of expanded newborn screening. While the program was implemented statewide in August 2005, MoPHS appropriation authority was not increased to cover the increased testing costs. With no federal funding left to operate the expanded newborn screening program, the SPHL needs additional MoPHS appropriation authority to allow it to spend the fee revenue generated by the expanded newborn screening program. This request would provide **\$67,776 PS and 2 FTE and \$432,438 EE** in appropriation authority from MoPHS to maintain the level of testing initially provided by the MCH Block Grant. Appropriation authority for these two laboratory scientists is being core cut in FY 2008 from federal funds. The \$432,438 for E&E is a cost to continue figure from the FY 2007 Supplemental Request.

In addition, the SPHL requests \$120,000 to allow the SPHL to take advantage of an improved expanded screening process that utilizes the Perkin Elmer Specimen Gate component to the Tandem Mass Spectrometry System (Tandem MS). The Tandem MS produces 27 values from one newborn specimen, all of which must have a series of internal and external quality controls to validate the accuracy of the measurement. Specimen Gate provides these controls in an automated format that enables the scientist operating the system to eliminate the manual control procedure, and thereby, enhance the speed of reporting. Specimen Gate may conceivably reduce the delay in interpreting results from up to three days (date of testing plus two) to same day (testing-interpreting-reporting) for any abnormal screens. Using Specimen Gate will add \$1.20/test kit in reagent costs (100,000 kits x \$1.20 increased cost per kit = \$120,000).

Cystic Fibrosis and Biotinidase Screening - \$649,916 and 1 FTE

The department requests spending authority to enable the State Public Health Laboratory to fully implement Cystic Fibrosis (CF) testing and begin implementation of Biotinidase screening. Cystic Fibrosis is a fatal genetic disorder with an incidence of disease at 1:2,500-3,000 births. Recent advances in early detection as well as improved therapy and disease management have helped to increase the life expectancy of persons with CF from 14 years in 1969 to 30 years currently. Both Cystic Fibrosis and Biotinidase Deficiency are part of the panel of expanded newborn screening mandated in Section 191.332, RSMo. Working closely with partners within the department and at the request of the Missouri Genetic Advisory Committee, the SPHL did not proceed with testing for these conditions until a service network was in place to assist the families of those children whose screening indicated a high risk for these conditions. Early in CY 2007, the SPHL will pilot CF testing and move into full implementation prior to July 1; Biotinidase screening will begin in FY 2008. In November 2006, the State Public Health Laboratory will begin the rule change process to increase the newborn screening fee effective July 1, 2007, to support this testing. CF and Biotinidase screening are very complex procedures.

Increased appropriation authority will be needed to provide staffing and supplies necessary to begin CF testing. One Public Health Laboratory Scientist (\$33,888) is requested for specialized testing in these new areas (**\$33,888 PS and 1.0 FTE**). A total of **\$616,028 EE** will also be needed for testing costs, related supplies, and standard FTE costs: Reagents – (180 IRT kits x \$1,579.65 = \$284,337); (180 Biotinidase kits x \$572.22 = \$103,000); Laboratory Supplies (\$127,515); Professional Services – printing updated newborn screening specimen collection forms to accommodate changes related to CF and Biotinidase screening (\$90,000, all one-time); and standard FTE costs (\$11,176; \$2,232 is one-time).

Federal Funding Reductions \$208,807

Over the past two years, federal funding used to support STD and Tuberculosis surveillance has been reduced. Increased MoPHS authority is requested to maintain the level of service previously supported by these federal dollars. Comprehensive STD: St. Louis City has been selected as a National Syphilis Elimination site due to an extremely high rate of syphilis in the city. It is critical to continue syphilis testing in order to bring this epidemic under control. Additionally, St. Louis City ranks number one in the nation for rate of gonorrhea cases for cities >200,000 population; and chlamydia morbidity has steadily increased since 1999. SPHL estimates that failure to receive appropriation authority would result in the reduction of 15,914 tests, further acerbating a critical public health problem (**\$183,804**). Tuberculosis (TB): TB surveillance is well below adequate levels to detect and control outbreaks in time to prevent additional exposure and cases. An outbreak of drug resistant TB in a homeless shelter in St. Louis started in 2005 but was not recognized until early 2006. A costly multi-state investigation by federal and state officials was needed for contact tracking and treatment monitoring. Secondary spread to other homeless shelters was also documented. This authority is needed to maintain the essential laboratory-based surveillance (**\$25,003**).

**Laboratory Information Management Systems (LIMS) Coordinator - \$33,539 and 0.5 FTE**

In a companion decision item requested through OA - ITSD, the department is requesting funding through the Healthcare Technology Fund for one-time purchase of a Laboratory Information Management System, or LIMS. LIMS is an electronic means of collecting and tracking specimen information and, eventually, test results within the laboratory. Having the information and data in this form provides for simultaneous use of the information and data for different needs within the laboratory. Results can be made available and accessed safely and securely by submitters once testing is completed. Having all the information in this format will enable the SPHL and the department to analyze laboratory data that is collected and use it to develop and evaluate disease prevention programs. The potential for increased revenue exists since the level of detail produced for each specimen will allow for identification of additional tests performed on that specimen. By capturing this data, the SPHL can review for Medicaid eligibility and bill under the additional procedures (CPT) codes. Six months spending authority is requested for a Laboratory Manager, Broadband 1, who will be responsible for oversight of this critical reporting system (**\$25,584 PS and 0.5 FTE**). **\$7,955 EE** (\$2,232 is one-time) will also be needed for six month's worth of standard FTE costs.

NOTE: If funding for LIMS is approved in the Fiscal Year 2008 DHSS and OA-ITSD budgets, the SPHL will require additional funding in Fiscal Year 2009 to cover the remaining six months funding for the Laboratory Manager, ongoing system maintenance, and training costs (approximately \$172,000).

**6. PERFORMANCE MEASURES** (If new decision item has an associated core, separately identify projected performance with and without additional funding.)

**6a. Provide an effectiveness measure.**

Newer technologies have been very effective in identifying more persons infected with chlamydia, who will now be treated earlier with reduced risk to others.

**6b. Provide an efficiency measure.**

One hundred percent of high risk (abnormal) newborn screening laboratory results are reported to healthcare providers within 12 hours of laboratory detection.

**7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:**

1. Continue providing critical laboratory services to promote, protect, and assure the health of Missouri's citizens and act as a reference laboratory performing confirmatory or specialized procedures.
2. In early FY 2008, add Biotinidase Deficiency screening to the panel of genetic conditions tested on newborns in Missouri. Report abnormal results when indicated and work with program staff as they follow up with physicians and families on care of the child and education regarding the condition.
3. Recruit and hire a laboratory manager to coordinate and oversee training, installation, and implementation of the laboratory information management system; establish relationships with stakeholders and laboratory staff.

2. CORE DESCRIPTION									
<p>The Center for Emergency Response and Terrorism (CERT) receives funding from the Centers for Disease Control and Prevention (CDC) Public Health Preparedness and Response Grant and the Health Resources and Services Administration (HRSA) Hospital Preparedness Grant to protect Missouri citizens during a public health emergency including pandemic influenza or terrorist attack. The Department of Health and Senior Services (DHSS), working with federal and local partners, is building a stronger public health system to respond to potential biological, chemical, or nuclear emergencies as well as emerging infectious diseases and pandemic influenza. The department works closely with local public health agencies, schools, hospitals, universities, communities, special needs populations, healthcare associations, local government agencies, law enforcement, and other partners to build a comprehensive system that can respond quickly at the local, regional, and state levels. The CERT staff is also working to ensure that the Strategic National Stockpile, a supply of medications, antidotes, and medical supplies, can be disseminated in a quick and efficient manner to every resident throughout the state. Through the CDC, there is a concentrated effort in the Kansas City and St. Louis regions through the City Readiness Initiative. The program is responsible for the 24/7 access for the public, local public health agencies, hospitals, physicians, and others to report diseases and emergencies.</p>									
<p>The HRSA Grant funding is used to upgrade the state's healthcare system through enhanced disease reporting systems, decontamination equipment, and communication systems. This funding also enables hospitals throughout the state to be better prepared to handle epidemics of rare diseases, exposures to chemical toxins, and mass casualties. In the next grant year, HRSA is requesting that CERT concentrate on ensuring secondary sites for health care during a pandemic influenza or other public health emergency.</p>

## PROGRAM DESCRIPTION

Health and Senior Services									
Center for Emergency Response and Terrorism (CERT)									
Program is found in the following core budget(s):									
	CERT								TOTAL
GR	0								0
FEDERAL	23,675,343								23,675,343
OTHER	0								0
TOTAL	23,675,343								23,675,343

Note: Of CERT's core funding, \$1,279,440 directly supports the State Public Health Lab and \$1,019,842 directly supports the Division of Community and Public Health's program activities.

### 1. What does this program do?

The Center for Emergency Response and Terrorism (CERT) receives funding from the Centers for Disease Control and Prevention (CDC) Public Health Preparedness and Response Grant and the Health Resources and Services Administration (HRSA) Hospital Preparedness Grant to protect Missouri's citizens during a public health emergency, including pandemic influenza or terrorist attack. The Department of Health and Senior Services (DHSS), working with federal and local partners, is building a stronger public health system to respond to potential biological, chemical, or nuclear emergencies as well as emerging infectious diseases and pandemic influenza. The department works closely with local public health agencies, schools, hospitals, universities, communities, special needs populations, health care associations, local government agencies, law enforcement, and other partners to build a comprehensive system that can respond quickly at the local, regional, and state levels. The CERT staff is also working to ensure the Strategic National Stockpile (SNS), a supply of medications, antidotes, and medical supplies, can be disseminated in a timely and efficient manner. Through the CDC, there is a concentrated effort on Kansas City and St. Louis regions through the City Readiness Initiative (CRI). The CERT program is responsible for the 24/7 access for the public, local public health agencies, hospitals, physicians, and others to report diseases and emergencies.

In addition, the CDC funding has allowed the State Public Health Laboratory (SPHL) to add "rapid testing" capability, shortening the average turnaround time for a presumptive result to four hours. In an emergency, we can utilize this technology to test upwards of 700 specimens in a 24-hour period. This approximates 100 percent of expected samples to be received within a 24-hour period. Not only does this funding allow the SPHL to test for most of the CDC's Category A and B agents of terrorism, but the new instrumentation and additional personnel can be used for our day-to-day business of testing for non-bioterrorism related diseases such as whooping cough (pertussis), tularemia, norovirus, brucellosis, influenza, and emerging pathogens not yet seen in Missouri.

Also, the CDC funding has allowed the development of the Chemical Terrorism Response Program at the SPHL. As a part of their responsibilities, the SPHL has successfully implemented methods for the analysis of cyanide in blood and toxic elements in urine. The SPHL plans to expand testing this year to include methods for the analysis of nerve agents, nitrogen mustards, ricin, and additional toxic elements. The laboratory now has the capability to conduct biomonitoring studies when instruments are not being utilized for a chemical event. This program will provide the critical information necessary to help link exposure to a toxic substance and the development of disease in communities across the state.

The HRSA Grant funding is used to upgrade the state's health care system through enhanced disease reporting systems, decontamination equipment, and communication systems. This funding also enables hospitals throughout the state to be better prepared to handle epidemics of rare diseases, exposures to chemical toxins, and mass casualties. In the next grant year, HRSA is requesting that CERT concentrate on ensuring secondary sites for health care during a pandemic influenza or other public health emergency.

## PROGRAM DESCRIPTION

### Health and Senior Services

#### Center for Emergency Response and Terrorism (CERT)

Program is found in the following core budget(s):

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

National Security Act

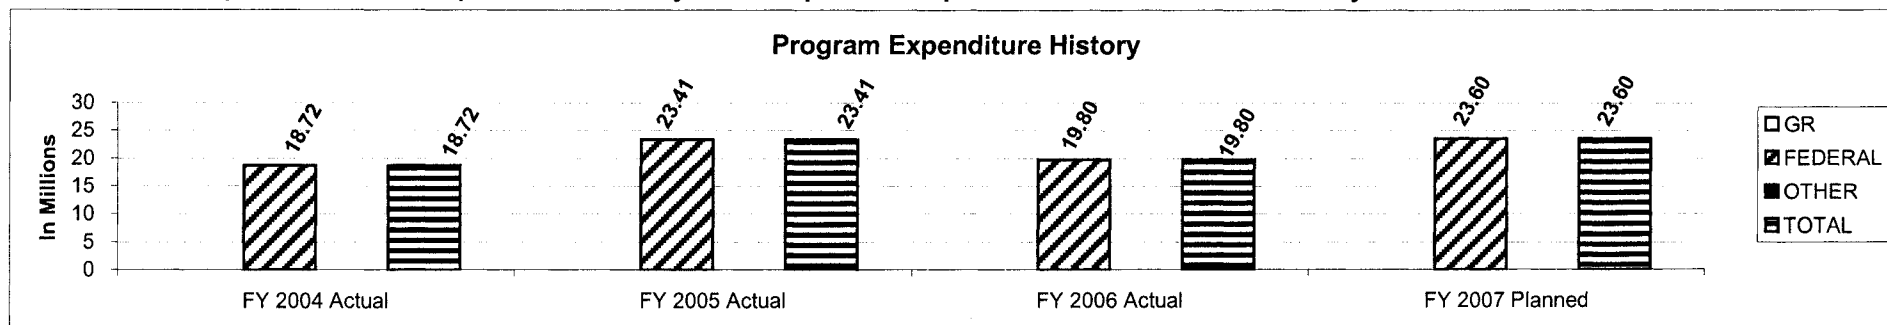

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

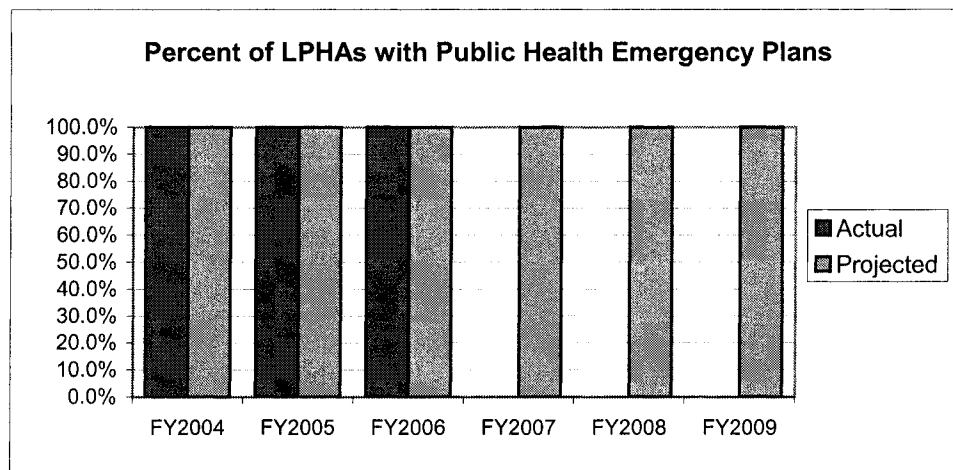

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

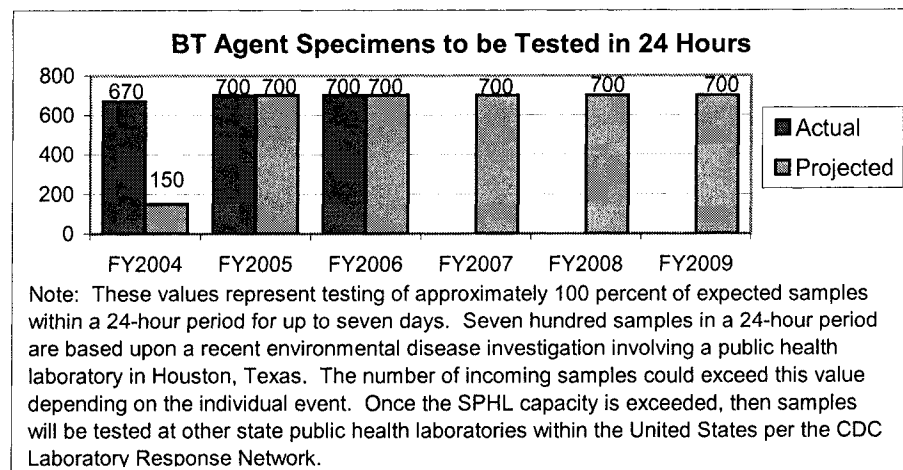

6. What are the sources of the "Other" funds?

N/A

7a. Provide an effectiveness measure.

7b. Provide an efficiency measure.

## PROGRAM DESCRIPTION

### Health and Senior Services

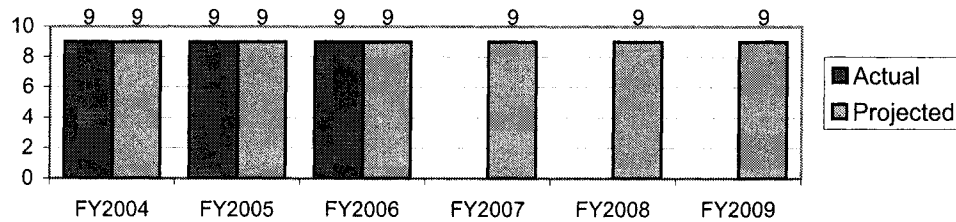

#### Center for Emergency Response and Terrorism (CERT)

Program is found in the following core budget(s):

7c. Provide the number of clients/individuals served, if applicable.

7d. Provide a customer satisfaction measure, if available.

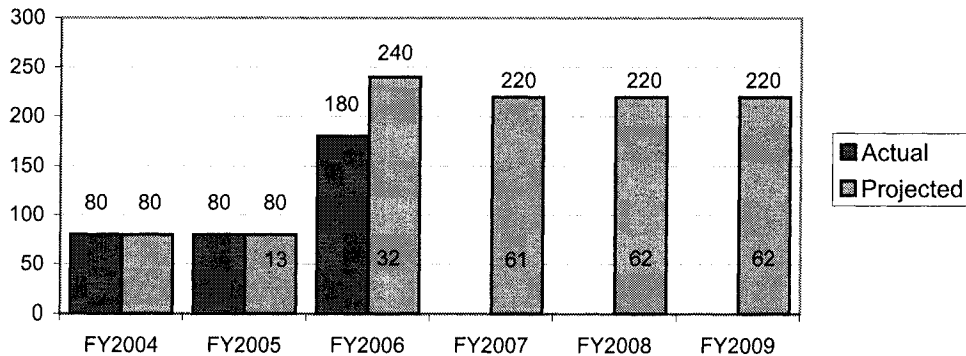

#### Regional BT Plans Maintained and Exercised

The Center for Emergency Response and Terrorism recently received a "Green" on its Strategic National Stockpile (SNS) plan; plan activities range from a possible "Red," "Yellow," and "Green," with Green being the highest rating achievable.

The "Green" indicates Missouri's readiness in providing prophylaxis to its citizens during a biological event.

#### Chemical Agents Specimens to be Tested Within 24 Hours

Note: Number noted in projected bar is the number of different chemical agents that a specimen can be tested for. The number of samples that might occur as a result of a chemical terrorism event can only be based on the magnitude of the event. After the Tokyo, Japan, sarin attacks of 1995, approximately 20,000 people sought medical treatment. If demand for sample analysis exceeds MSPHL Chemical Terrorism Response Program capabilities, the CDC Laboratory Response Network will be utilized.

**PLEASE NOTE: UNLESS OTHERWISE INDICATED, FY 2008 AND FY 2009 PERFORMANCE MEASURES ARE BASED ON FY 2007 CORE FUNDING.**

2. CORE DESCRIPTION									
<p>The Division of Administration provides administrative and financial support services for the Director's Office and the programmatic divisions of the Department of Health and Senior Services (DHSS). The goal is to assist the efforts of the programmatic divisions to provide services to Missourians in a cost-effective manner that assures fiscal accountability for taxpayer dollars. The division provides training, consultation, and oversight for program managers throughout the department to help them efficiently manage an annual departmental budget of over \$827 million. Division of Administration staff are the backbone needed to support DHSS delivery of program services. The division processes all grant applications, initiates federal draws related to grants, and prepares required federal and state financial reports. These tasks are important pieces in managing the grant responsibilities, thereby enabling programs to meet goals and objectives in relation to the department's strategic plan of increasing awareness and commitment to the health of Missourians. In addition, the division reviews and processes all contracts and procurements to ensure that services and commodities are economically obtained; maintains an inventory of physical assets to ensure the fiscal integrity of state property; operates warehouse, delivery, and mailroom services for the department; and works with the Office of Administration to manage building leases and related issues that arise with a workforce that operates out of state office buildings and leased facilities spread across the state. The division also prepares the departmental budget submission and responds to budget-related inquiries and fiscal note requests from the Office of Administration and the General Assembly.</p>

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 5802100	<b>DEPARTMENT:</b> Department of Health & Senior Services
<b>BUDGET UNIT NAME:</b> Administration	<b>DIVISION:</b> Division of Administration

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

For FY 2007, the DHSS Division of Administration was granted 20 percent flexibility between general revenue fund personal services and expense and equipment appropriations and 100% between federal and other funds expense and equipment. The Division of Administration requests that this level of flexibility be continued for FY 2008. This flexibility will help ensure the division can deal with situations involving leave payouts, overtime, statutory changes, or other unforeseen circumstances.

### DEPARTMENT REQUEST

DHSS requests 20% flexibility between PS and E&E for General Revenue funds and 100% flexibility in E&E between federal and other funds.

#### 1. What does this program do?

The Division of Administration provides administrative and financial support services for the Director's Office and the programmatic divisions of the department. The goal is to assist the efforts of the programmatic divisions to provide services to Missourians in a cost-effective manner that assures fiscal accountability for taxpayer dollars. The division provides training, consultation, and oversight for program managers throughout the department to help them efficiently manage an annual departmental budget of over \$827 million. Division of Administration staff are the backbone needed to support DHSS programs' delivery of services. The division processes all grant applications, initiates federal draws related to grants, and prepares required federal and state financial reports. These tasks are important pieces in managing the grant responsibilities, thereby enabling programs to meet goals and objectives in relation to the department's strategic plan of increasing awareness and commitment to the health of Missourians. In addition, the division reviews and processes all contracts and procurements to ensure that services and commodities are economically obtained; maintains an inventory of physical assets to ensure the fiscal integrity of state property; operates warehouse, delivery, and mailroom services for the department; and works with the Office of Administration to manage building leases and related issues that arise with a workforce that operates out of state office buildings and leased facilities spread across the state. The division also prepares the departmental budget submission and responds to budget-related inquiries and fiscal note requests from the Office of Administration and the General Assembly. Budget staff work closely with divisions to ensure the budget request defines and supports the department's mission.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Sections 34.030, 34.100, RSMo. and 1 CSR 40-1.040 (Procurement); Chapter 37, RSMo (Forms Management); Section 33.080, RSMo (Fee Receipts); Sections 33.320, 33.085, 33.805, 33.812, RSMo (Budget Services), 1 CSR 30-6.0101 through 1 CSR 30-6.50 (General Services); 1 CSR 35-2.030.2 (Leasing); OMB A-102.20 and .21, OMB A-87, IRS Tax Code, Cooperative Agreement with OA for payment processing, Internal Control Plan (Accounts Payable); Cash Management Improvement Act of 1990 and 1992 (Funds Accounting); Section 37.450, RSMo and MO Admin Policy SP-4 State Vehicles (Fleet Management).

#### 3. Are there federal matching requirements? If yes, please explain.

No

#### 4. Is this a federally mandated program? If yes, please explain.

No

<b>2. CORE DESCRIPTION</b>																																																																																																																																	
<p>Pursuant to Section 192.025, RSMo, the Department of Health and Senior Services is authorized to receive federal funds for health purposes. Federal grants and/or donated funds are used by the divisions if new grant funding is received during the fiscal year and inadequate appropriation authority exists. Additional authority is requested in subsequent budget periods to allow expenditures to occur in programmatic appropriations.</p>

<b>2. CORE DESCRIPTION</b>									
<p>SB 74 and 49 (2005) created the Department of Health and Senior Services Disaster Fund to ensure the department can accept special allocations made by the federal government in the event of a public health emergency. The legislation creating the new fund was modeled after Section 44.032, RSMo, which created the Missouri Disaster Fund. The State Emergency Management Agency has used the Missouri Disaster Fund successfully to aid disaster victims for many years. Use of the Department of Health and Senior Services' Disaster Fund ensures the department will be able to quickly secure needed funding in order to respond rapidly in times of a state or national emergency.</p>

2. CORE DESCRIPTION									
The Division of Community and Public Health (CPH) requests core funding to support its responsibilities to protect the health of Missourians. CPH works with communities, local public health agencies (LPHAs), schools, organizations, and the healthcare delivery system to support and strengthen Missouri's communities in wellness and health promotion, disease prevention and control, and primary healthcare needs. Local Public Health Services (LPHS) support Missouri's public health network consisting of 114 LPHAs that are locally governed and financially supported through local and state funds. Missouri's public health system is responsible for monitoring the patterns and trends of disease, death, and disability; health-related behaviors; and other factors that affect the population's health. Local public health agencies also identify and describe risks including personal behavior, social or economic conditions, communicable disease exposure, or the environment. The Office of Women's Health assists in the assessment of the health and senior services needs of women in the state through policy analysis; serves as a central location for information, resources, technical assistance, and consultation about women's health; and coordinates collaborative efforts among programs and services for women. This core includes all personal service and expense and equipment appropriations for CPH. Examples include maternal and child health services related to nutrition, school-aged children's health, genetics, lead poisoning, and children with special health care needs; reduction of illness, disability, premature deaths, and associated costs related to chronic diseases, cancer, injuries, and violence; promoting organ donations; the Missouri Vital Records System; collection, analysis, and distribution of health data/information; strengthening Missouri's healthcare infrastructure through student loans and loan repayment for healthcare professionals; improving community health through initiatives in rural health, oral healthcare, and other community health programs; communicable disease control and prevention (TB, measles, syphilis, HIV, etc.) through surveillance, contact tracing, immunizations, and education; food safety through sanitation inspections, public education, surveillance, and outbreak investigations; rabies and vector-borne disease control and prevention (West Nile); emerging infections detection and response (SARS, Monkeypox); health risk determinations from exposure to hazardous substances around hazardous waste sites; and emergency response (natural disasters and terrorism including bioterrorism, chemical, and radiological).

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 5802450	<b>DEPARTMENT:</b> Department of Health & Senior Services
<b>BUDGET UNIT NAME:</b> Division of Community & Public Health	<b>DIVISION:</b> Division of Community & Public Health

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

For FY 2007, the Division of Community and Public Health (DCPH) was granted 20 percent flexibility between personal services and expense and equipment appropriations for General Revenue and federal funds and 100 percent flexibility between Medicaid and non-Medicaid appropriations. DCPH requests that this level of flexibility be continued for FY 2008. This flexibility will help ensure the division can deal with situations involving leave payouts, overtime, statutory changes, or other unforeseen circumstances. Since the Medicaid and non-Medicaid appropriations are estimates and are impacted by a number of factors (how to appropriately split out Medicaid funding from other funding streams for staff that work on multiple-funded programs, uncertainty on Medicaid eligibility of clients served by programs, etc...), 100% flexibility would allow the department to move these funds to either Medicaid or regular appropriations if the estimates proved to be too low or too high, thereby helping to avoid the need for a supplemental appropriation.

### DEPARTMENT REQUEST

DHSS requests 20% flexibility between PS and E&E for General Revenue and federal funds and 100% flexibility between Medicaid and Non-Medicaid appropriations.

3. Was flexibility approved in the Prior Year Budget or the Current Year Budget? If so, how was the flexibility used during those years?	
PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
N/A	In FY 2007, 20 percent flexibility was appropriated between PS and E&E appropriations for General Revenue and federal funding and 100 percent flexibility was appropriated between Medicaid and non-Medicaid appropriations. This will allow the program to respond to changing situations to continue to provide the best possible, quality services to DHSS.

### 1. What does this program do?

The Division of Community and Public Health Administration provides leadership, oversight, and general supervision for the division staff and programs/initiatives in accordance with the mission, goals, and values of the department, including the following:

- Fiscal management;
- Policy development;
- Personnel and human resource management;
- Strategic planning and continuous quality improvement;
- Program evaluation;
- Compliance with state and federal laws and regulations;
- Assurance of effective and efficient programs;
- Customer/client satisfaction;
- Monitoring operations; and
- Staff and resource development.

Division Administration consists of one director, one deputy director, a division operations officer, and two support staff. Division Administration is responsible for final approval of all contracts, grant applications, personnel actions, and non-routine correspondence with contractors, consumers, and other external partners and stakeholders.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

See citations as noted on Division of Community and Public Health program pages.

### 3. Are there federal matching requirements? If yes, please explain.

No

### 4. Is this a federally mandated program? If yes, please explain.

No

### 1. What does this program do?

Statistical services of the Department of Health and Senior Services are assigned to teams in the Bureau of Health Informatics. These units collect, analyze, and distribute information, which promotes better understanding of problems and needs in Missouri as well as spotlighting progress achieved in the general health status of Missourians. Data generated by the bureau aid and guide the planning, development, and evaluation of programs and services of the department as well as the related activities of other agencies, institutions, and organizations. While the data collected by the bureau is primarily valuable to help solve Missouri problems, much of the activity is coordinated with the National Center for Health Statistics. This allows comparable data to be collected at the state level that can be added with data from other states to form a picture of the health status of the nation. The Health Informatics Resources Team develops statistics regarding Missouri resources in the areas of health manpower and health facilities as well as statistics on hospital revenues and outpatient procedure charges. These statistics are compiled from the information obtained on annual surveys submitted by the individual practitioners and facilities. This team also coordinates the preparation and publication of health data and statistics on the department's website. The Healthcare Data Analysis Team collects and analyzes patient abstract data (PAS) and nosocomial infection data submitted by hospitals and ambulatory surgical centers. This team has responsibility for analyzing data related to injuries in Missouri. Data sets that provide injury information include the PAS data, death certificate data, and motor vehicle crash records that are linked to the PAS data. The Program Data and Statistical Support Team provides statistical, epidemiological and analytic support to the following programs/projects: Missouri Heart Disease and Stroke, Comprehensive Cancer Control, Missouri Community Home Visiting, Missouri Pregnancy Related Assessment Survey, Missouri Fetal Alcohol Syndrome Rural Awareness, Asthma Prevention and Control, Arthritis, and Diabetes. Team activities include: conducting evaluations; designing surveys and data collection tools; performing data management and analysis of surveillance data; preparing fact sheets, statistical reports, and manuscripts; assisting with strategic planning; and monitoring of plan objectives. The Surveillance and Research Team manages major surveillance systems that capture data for populations in Missouri with chronic diseases and maternal and child health populations to analyze nutritional indicators that affect children's health and infant mortality and morbidity. It provides analytical expertise relating to obesity issues, youth and adult tobacco use, and the number of uninsured to assist in directing resources to provide for effective outcomes. The Missouri Information for Community Assessment (MICA) System was developed and is being maintained and expanded to make health data accessible at the local level, through an easy-to-use format. This is an interactive system that allows users to summarize data on health conditions, calculate rates, and prepare information in a graphic format for presentation. Users may generate ad hoc data tables by year of occurrence, age, gender, race, county, and zip code of residence and age-adjusted rates. The Office of Community Health Information provides support to programs in developing public information/education campaigns, increases the awareness of health issues by providing spokespersons and exhibit materials, and provides public information during emergency response and terrorism events. TEL-LINK is an information and referral telephone line for maternal and child health care. Callers are transferred to appropriate agency or treatment centers for health services for the maternal and child health (MCH) population.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Sections 188.052, 191.745, 192.020, 192.040, 192.067, 192.068, 192.323, 192.665 - 192.667, 192.735 - 192.739, 193.045, 260.395.7(5), RSMo; Note: Behavioral Risk Factor Surveillance System 42 USC Sec 301(a)317(k) and Missouri Cancer Registry (MCR) Cancer Information System: Sections 192.650 - 192.657, RSMo. PL 102-515 have been moved for SFY 07 projections to Office of Epidemiology.

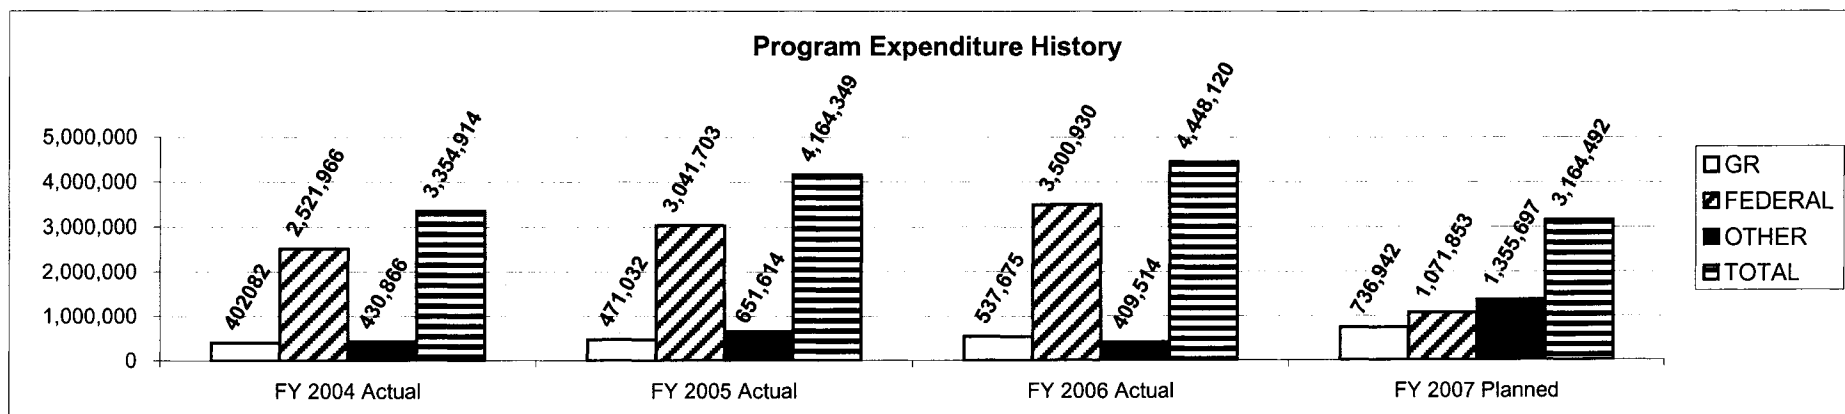

**3. Are there federal matching requirements? If yes, please explain.**

The National Program of Cancer Registries requires a \$1 non-federal/\$3 match and maintenance of effort.  
The TEL-LINK program is supported by MCH Block which requires a \$3 non-federal/\$4 federal match.

**4. Is this a federally mandated program? If yes, please explain.**

Yes, the TEL-LINK program is federally mandated based on the Omnibus Budget and Reconciliation Act (OBRA 89).

**5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.**

Note: In the Fall 2005, Health Statistics (CHIME) and Office of Surveillance, Evaluation, Planning, and Health Information (OSEPHI) were merged, which increased funding and expenditures for this program. In FY 2007, projections for one component and three categorical federal grants have been moved to the Office of Epidemiology, which reduced funds available for Health Information.

**6. What are the sources of the "Other" funds?**

Missouri Public Health Services Fund (0298); Department of Health and Senior Services Document Fund (0646); and Department of Health - Donated Fund (0658).

**1. What does this program do?**

The Office of Epidemiology (OOE) provides epidemiologic leadership and expertise for the division, the department, local public health agencies, and other stakeholders and partners to guide public health practices; monitor health status and health risk behaviors through effective use of public health surveillance; plan and evaluate public health programs; promote evidence-based public health interventions; test and research public health interventions; provide epidemiologic and medical consultation; and conduct epidemiologic teaching and training. The Grants Development (GD) section of Office of Epidemiology and Grants Development coordinates functions to assist in achieving better health outcomes through grant development and management of the Maternal and Child Health and Preventive Health and Health Services Block Grants and State Systems Development Initiative Grant. GD also assists in the design/support of continuous quality improvement teams to improve outcomes and reduce operational costs, leads evaluation of community health programs and multi-agency evaluations, performs statewide need/capacity assessments, and develops contracts/memorandums of understanding to support major surveillance systems managed by the department. PRAMS (Pregnancy Risk Assessment Monitoring System) is a CDC funded population-based surveillance system that collects state-specific data on maternal behaviors and experiences that occur before, during, and shortly after pregnancy. The Missouri Pregnancy Related Assessment and Monitoring System (MoPRA), a pilot PRAMS project started in April 2005, has been successfully implemented; and data collection is complete for 12 batches (one year). The Behavioral Risk Factor Surveillance System (BRFSS) is a state-based system of annual, cross-sectional telephone health surveys that generate information about health risk behaviors, clinical preventive practices, and health care access and use primarily related to chronic diseases and injury.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Behavioral Risk Factor Surveillance System 42 USC Sec 301(a)317(k);  
 Missouri Cancer Registry (MCR) Cancer Information System: Section 192.650-657 RSMo, PL102-515;

2. CORE DESCRIPTION									
<p>The requested core funding provides primary support for 114 local public health agencies throughout Missouri. These agencies are vital components of the state's public health system. The public health system (state and local working together) monitors disease incidence, responds to disease outbreaks and public health emergencies, assures safe food and water, identifies specific health needs within local communities, and mobilizes existing resources to address them. The enormous challenges for the public health system are increasing daily due to global travel that can bring new and unknown diseases to our doorstep. Newly emerging diseases, the resurgence of old ones (e.g., mumps outbreak in Missouri in FY 2006), and the potential for bioterrorist attacks place new demands on the public health system to assure that such diseases or agents are recognized early and measures are put into place to prevent their spread.</p> <p>Chronic diseases, such as diabetes and heart disease, and risk factors like obesity, smoking, and unhealthy eating also challenge the public health system. Planning and implementing policies to reduce the burden of these diseases and risk factors will improve the quality of life for thousands of Missourians and will decrease health care costs.</p>

### 1. What does this program do?

Local Public Health Services (LPHS) supports a minimal yet effective public health presence in every city and county in Missouri. LPHS administers contracts that supplement local health departments to provide essential public health services (core functions). Contract services include surveillance, investigation, and intervention in threats to health, whether caused by disease outbreaks, bioterrorism, emerging infections, food borne illnesses, or epidemics of chronic disease. The contract also supplements local capacity to inspect food and lodging facilities, enforce regulations, provide health education, assess community health and health resources, and identify leading problems in communities. LPHS works to strengthen Missouri's entire public health system by providing technical assistance to local agencies, working with external partners to assure training opportunities for public health workers, assessing capacity, and setting standards of excellence in public health practice. Funds are used as match for Maternal and Child Health (MCH) Block and other DHSS federal grants.

Maternal and Child Health (MCH) Program distributes federal Maternal and Child Health (MCH) Block Grant funds to local public health agencies through the MCH Services Contract. The contract purpose is to establish, within each local public health jurisdiction, a system of care that is capable of addressing targeted health issues for the MCH population of pregnant women, infants, children, and adolescents; women of child-bearing age; and children with special health care needs. The program focuses on professional development of local agency MCH workforce in order to increase the capacity of local systems of care.

Community Development Services (CDS), funded by the Public Health and Health Service (PHHS) Block Grant, partners with local communities to improve the health of their residents and their community. CDS provides technical assistance, consultation, and training with local communities to support their community health improvement efforts. CDS partners with other state agencies and public and private entities in providing community health improvement assistance.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

The focus of public health is primarily on disease prevention, health promotion, emergency preparedness, and environmental health (inspections and licensing of restaurants, lodging, water, day care, etc.). Public health professionals work to reduce disease rates by investigating trends and patterns of public health to identify causes and cures. Diseases such as tuberculosis, HIV/AIDS, mumps, and the seasonal flu are monitored for outbreaks and controlled through the efforts of public health.

<p>Public health agencies are also on the front lines to enhance the state's capacity to respond to emergencies including natural disasters and bioterrorism. They provide prevention and containment of major disease outbreaks and assistance to survivors of major disasters. Missouri's public health agencies continue to provide traditional public health functions, which include communicable disease prevention (surveillance, investigation, outreach, response), environmental public health services (water, sewage, food safety, lead, etc), and epidemiological investigations and clinical services (screenings, immunizations, well child visits). However, it has become exceedingly difficult to continue these services, much less keep up with the growing cost of providing and expanding the services. According to the Trust for America's Health study, "Shortchanging America's Health - 2006," Missouri ranks 44th in state spending for public health on a per capita basis. State funds were cut in FY 2003 and FY 2004 and currently remain at that level even though the Consumer Price Index has increased by 15 percent since 2001. Local agencies have responded by cutting back staff and reducing the frequency of performing critical activities.</p> <p>Local public health agencies (LPHAs) are also expected to react to new threats and trends emerging in Missouri. These include growth in the general population (the University of Missouri's Office of Social and Economic Data Analysis estimates a 7.3 percent increase from 2000 to 2010); increased elderly population (Missouri ranks 14th in the nation for percentage of people 65 and older), growing tourism (income from tourism has increased by approximately 14 percent in the past four years), and expanding numbers of retirees and immigrants (increased by approximately 28 percent since 2000). Threats to the public health include emerging health issues such as obesity, diabetes and other chronic diseases, new communicable diseases such as avian flu, and the increasing need to prepare for natural and man-made emergencies. Current funding is inadequate to provide both the traditional services and respond to the new threats.</p> <p>These complex issues require community collaboration. Providing leadership for this collaborative effort has become an increasingly important function of LPHAs as they work with numerous agencies in the community. This effort is hindered by the fact that despite the need for a stronger presence in addressing both traditional public health functions and new threats and trends, the local public health work force has decreased by nine percent from 2001 to 2005. Local personnel are the state's public health workforce. They are the ones who respond to emergencies, fight communicable diseases, educate the public, prevent future outbreaks, and coordinate local efforts. The Department of Health and Senior Services does not have the staff to perform these functions.</p>	
<p><b>4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)</b></p>	
<p>While the public health responsibilities of local public health agencies have increased significantly since September 11, 2001, state general revenue funding has not kept pace. In 2001, Core Public Health funding from state general revenue was \$9,662,092. Core cuts in FY 2003 and FY 2004 reduced funding to \$9,027,772, the current core public health funding level.</p>

Since 2001, the number of Missourians served by local health agencies and the cost of providing core public health services have both increased. The United States Census Bureau issues population estimates for each state every July 1st. The July 2001 Missouri population estimate was 5,643,326. Based on this population estimate, the 2001 General Revenue support for core public health was \$1.71 per capita (\$9,662,092 / 5,636,326). The July 2005 Missouri population estimate was 5,800,310, a growth of 2.78 percent since 2001. This equates to an annual growth rate of 0.69544 percent (2.78% / 4 year period). Assuming the population growth rate remains constant in 2006, Missouri's population in 2006 is estimated at 5,840,648\* (5,800,310 x 1.0069544).

According to the Bureau of Labor Statistics, the Consumer Price Index inflation rate was 15 percent from 2001 to 2006. If the state had adjusted core function funding to account for inflation, the General Revenue support for core public health would be \$1.97 per capita (\$1.71 x 1.15). Factoring in both population growth and the inflation rate from 2001 to 2006, core public health GR funding would need to be \$11,506,077 in order to provide the same level of service in 2006 as that provided in 2001 (\$1.97 per capita x 5,840,648 population). The department is requesting \$2,478,305 to cover the increased cost of providing statewide core public health services delivered by local public health agencies (\$11,506,077 - \$9,027,772).

\* The US Census Bureau July 2006 population estimate will not be available until August 2007.

**6c. Provide the number of clients/individuals served, if applicable.**

LPHAs inspect over 28,000 food service facilities and over 1,500 lodging facilities each year. They investigate over 2,200 complaints of unsafe and unlawful sewage disposal and follow up on over 15,000 communicable disease cases annually.

**7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:**

1. Distribute funds to local public health agencies through contractual agreements. Contracts will require a community assessment and planning process to identify and address local health issues of greatest need and the behavioral or environmental health risks that contribute to them. Local public health agencies have identified their needs. Funds would be used to strengthen the traditional public health functions and replace lost funds, increase prevention efforts through health education, expand collaboration (emergency planning, community health development, public health communications, integrated public health services, community assessment), and enhance emergency preparedness (supplies, equipment, education, training, assessment).
2. Provide state assistance to local public health agencies to improve health indicators through technical assistance, leadership training, staff development, training on health issues, and distribution of health information.

1. What does this program do?
 

The Health Promotion Program activities are designed to:

  - Reduce tobacco use and exposure to secondhand smoke leading to reduce tobacco-related illnesses and deaths through evidence-based interventions implemented in communities, schools, and worksites by staff and contractors;
  - Increase physical activity and healthy eating to reduce obesity and other chronic diseases through evidence-based interventions implemented in communities, schools, and worksites by staff and contractors;
  - Increase the effectiveness of implementation of evidence-based interventions to reduce chronic disease risk factors through professional development activities and technical support provided by staff to contractors; and
  - Increase healthy behaviors among Department of Health and Senior Services (DHSS) employees through worksite health promotion activities coordinated by staff.
  
2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)
 

Health Promotion 42 USC 293 Sec 746; Missouri Tobacco Use Prevention Program 42 USC Sec 301(a)317(k); 42 USC 1786, Child Nutrition Act of 1966 as amended through PL 108-269, July 2, 2004.
  
3. Are there federal matching requirements? If yes, please explain.
 

Yes, the Missouri Tobacco Use Prevention Program requires a 25 percent non-federal match.
  
4. Is this a federally mandated program? If yes, please explain.
 

No

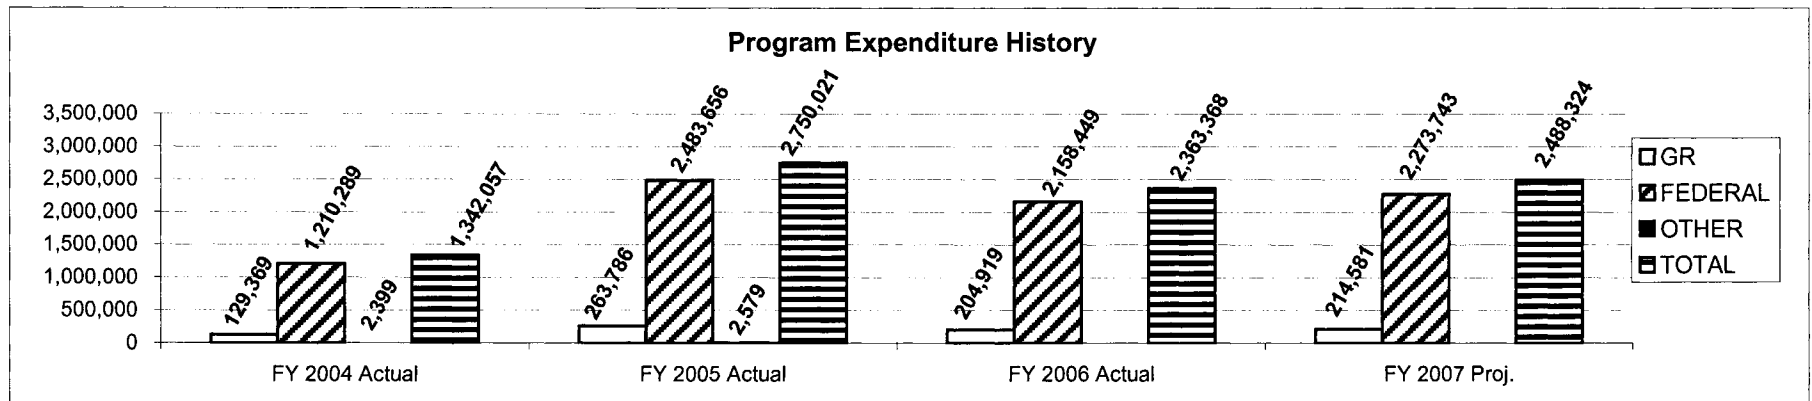

## PROGRAM DESCRIPTION

### Health and Senior Services

#### Health Promotion

Program is found in the following core budget(s): DCPH Program Operations; DCPH Programs

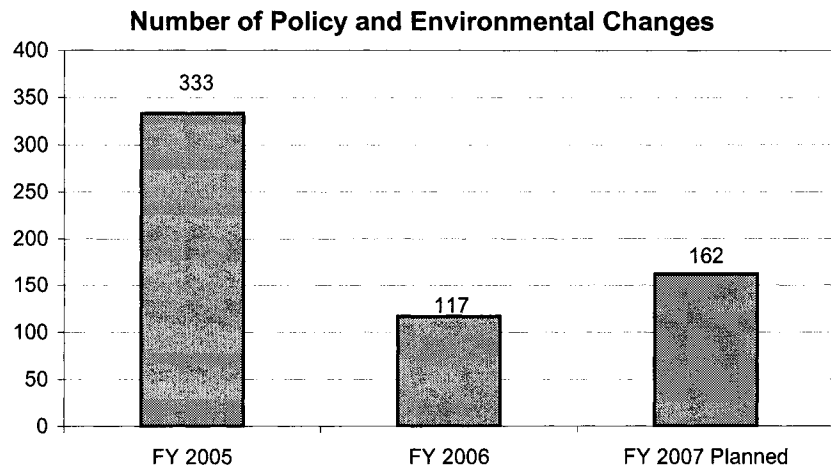

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other" funds?

N/A

7a. Provide an effectiveness measure.

#### FY 2006 examples of policy and environmental changes:

- 1 municipality adopted smoke-free ordinance.
- 49 hospitals, 3 schools, and 3 LPHAs adopted tobacco-free campus policies.
- 1 large employer adopted smoke-free policies impacting 1200-1500 employees.
- 20 restaurants, 10 hotels, and other public places adopted smoke-free policies.
- 10 communities increased access to safe places for physical activity.
- 17 communities conducted campaigns to increase physical activity.
- 3 communities worked to improve schools' eating environment.

Some policies may take several years of work before an outcome is achieved.

**1. What does this program do?**

Promotes physical fitness and health throughout the state by implementing programs, fostering communication and cooperation, and developing statewide support that will help the citizens of Missouri develop and maintain healthier lifestyles. The Governor's Council on Physical Fitness and Health (GCPFH) oversees two programs: Show-Me Body Walk and Shape-Up Missouri.

**Show-Me Body Walk:**

An interactive, walk-through exhibit for kindergarten through fourth grade students. Students visit ten stations (brain, mouth, stomach, intestines, heart, lungs, bones, muscles, skin, and pathways for life) where a volunteer presenter engages the students in a five-minute activity focused on healthy choices and prevention. Participating schools are provided with a school manual, classroom activities, and teacher resources for use throughout the school year.

**Shape-Up Missouri:**

A statewide fitness challenge between schools, businesses, communities, and individuals geared toward battling the obesity epidemic in Missouri. Shape-Up Missouri encourages participants to follow the Centers for Disease Control and Prevention recommended guidelines for physical activity to improve their health. The GCPFH maintains all data submitted by participants and utilizes the internet site to post participant information and ranking. Awards are presented to the school, business, and communities in the best shape.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

### 1. What does this program do?

This program works to prevent and control cancer and chronic disease in Missouri. Cancer, heart disease, stroke, and diabetes are the leading causes of death in Missouri and can be prevented or controlled through a combination of approaches including lowering risks (particularly good nutrition, physical activity, refraining from tobacco use), regular screening, early detection, and chronic care management once a diagnosis has been made. Chronic diseases contribute substantially to rising health care costs, lost productivity, and disability. The activities of cancer and chronic disease prevention and control programs include:

- Assessing the impact of heart disease, stroke, diabetes, arthritis, osteoporosis, asthma, and other chronic diseases;
- Increasing early detection of cancer and chronic diseases;
- Maintaining the Organ Donor Registry of Missouri residents to increase the number of people who receive life-saving transplants;
- Supporting evidenced-based, self-management programs and other programs for people with cancer and chronic diseases;
- Educating, screening, and supporting treatments to prevent blindness;
- Supporting chronic care management quality improvement initiatives in the health system;
- Providing professional education opportunities for physicians, nurses, and other allied health professionals;
- Establishing plans for statewide prevention and control efforts; and
- Conducting ongoing evaluation of programs with input from advisory boards, partners, stakeholders, and the public.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Missouri Arthritis and Osteoporosis Program: Sections 192.640-644 (Osteoporosis Prevention and Education), 192.700-725, RSMo, and 42 USC Sec 301(a)317(k) (Arthritis Advisory Board and Program Review Committee); Blindness Education, Screening, and Treatment Program: Sections 192.935 and 301.020, RSMo; Organ Donor Program: Sections 194.297-307, 301.020, 301.3.25, 302.171 and related statutes 194.210-290, RSMo; Asthma Prevention and Control Program and Heart Disease and Stroke Program: 42 USC Sec 301(a)317(k); Missouri Diabetes Prevention and Control Program: 42 USC 293 Sec. 746; Cancer Information Reporting System: Sections 192.650-657, RSMo, PL 102-515; Comprehensive Cancer Control: Section 192.050, 376.1250, RSMo and 42 USC 293 Sec 746; Breast and Cervical Cancer Control Project: Section 208.151, RSMo, PL 101.354; Breast Cancer Offer of Coverage: 376.1200-1209, RSMo; Colorectal Screening Program Sections 317(k)2 of the Public Health Service Act, [42 U.S.C. section 247b(k)(2)] as amended; WISEWOMAN PA 03022, U58/CCU722795-04.

### 3. Are there federal matching requirements? If yes, please explain.

Yes, Systems-Based Diabetes Prevention and Control Program requires a \$1 non-federal/\$4 federal match; State Cardiovascular Health Program requires a \$1 non-federal/\$5 federal match. Breast and Cervical Cancer Control and National Program of Cancer Registries require a \$1 non-federal/\$3 federal match and maintenance of effort. TOTAL	6,944,524								6,944,524	

Note: \$1,790,965 federal funds from the State Public Health Lab's (SPHL) core budget also directly supports this program.

#### 1. What does this program do?

The goal of the various communicable disease prevention programs is to prevent people from becoming ill and dying from the approximately 80 reportable communicable (or infectious) diseases and conditions of public health significance in Missouri as well as any new and emerging infections (such as Severe Acute Respiratory Syndrome (SARS), Monkeypox, and Avian Influenza). There are currently specific federally-funded prevention programs in place specifically for Human Immunodeficiency Virus (HIV), sexually transmitted diseases (STDs), Tuberculosis (TB), and West Nile Virus, in addition to the general communicable disease control program. These programs investigate the cause, origin, and method of transmission of communicable diseases in order to identify and implement appropriate disease control and prevention measures, such as contact identification, testing, and treatment. The programs provide training and technical assistance to local health officials to prevent communicable diseases in their communities and rapidly respond to outbreaks of infectious disease when cases are identified, coordinating with government at all levels, community organizations, hospitals, health care providers, and the media to implement control measures and educate the public during statewide, national, and worldwide outbreaks of communicable diseases. Statewide and regional staff also routinely provide consultation, education, and recommendations about communicable disease control to the public, physicians, and others.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Note: \$143,862 federal funds from the State Public Health Lab's (SPHL) core budget also directly supports this program.

### 1. What does this program do?

- Produces quantitative and qualitative health-based risk assessments on hazardous waste sites and emergencies involving hazardous chemicals through the application of scientifically valid toxicology studies and theories;
- Determines clean-up levels for hazardous substances;
- Samples residential drinking water wells around hazardous waste sites;
- Conducts environmental epidemiology studies;
- Evaluates exposure to radon in schools and day care centers;
- Provides consultation on indoor air quality;
- Advises the public on fish consumption safety;
- Educates communities on how to reduce or prevent exposures to hazardous substances;
- Assures that children are tested for lead poisoning and receive appropriate environmental and medical follow-up;
- Provides lead health education to parents, medical providers, etc., on the importance of blood lead testing and reporting;
- Issues lead abatement grants; and
- Participates in the ongoing collection, integration, and analysis of data about environmental hazards, exposure to environmental hazards, and health effects potentially related to exposure to those hazards.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

FEDERAL	298,668									298,668
OTHER	276,750									276,750
TOTAL	649,729									649,729

#### 1. What does this program do?

This program screens all newborns in Missouri for 27 disorders (phenylketonuria [PKU], galactosemia, congenital hypothyroidism [CH], congenital adrenal hyperplasia, 3 hemoglobinopathies, 6 amino acid disorders, 8 fatty acid oxidation disorders, 6 organic acid disorders), and checks newborns' hearing. In addition, screening for cystic fibrosis is expected to be implemented by July 2007. Those infants who have abnormal screening results are tracked to ensure that either a repeat newborn screen or a confirmatory test has been done. Those infants who are confirmed positive are entered into a comprehensive system of healthcare. For hearing, the program seeks to ensure that all babies born in Missouri have their hearing screened before being discharged from the hospital. Parents of children found to have hearing loss are encouraged to utilize appropriate intervention services by six months of age.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Sections 191.331, 191.332, and 191.925 - 191.937, RSMo.

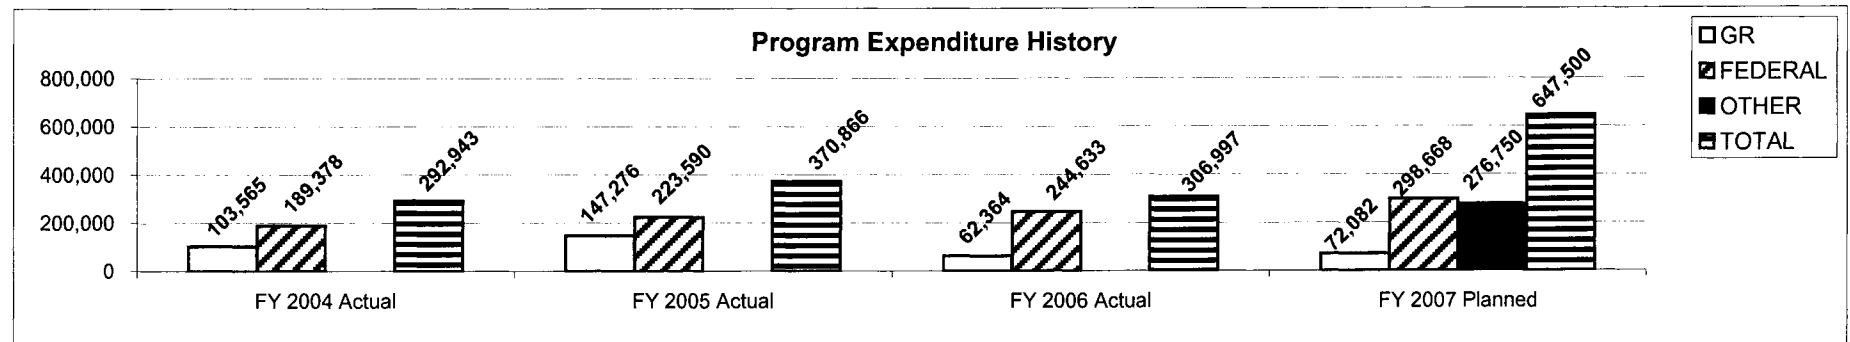

#### 3. Are there federal matching requirements? If yes, please explain.

Yes, the Maternal and Child Health Services Title V Block Grant supports this program and requires a \$3 non-federal/\$4 federal match and maintenance of effort.

#### 4. Is this a federally mandated program? If yes, please explain.

#### 1. What does this program do?

This program promotes healthy birth outcomes and healthy infants by: 1) increasing awareness through educational activities and materials; use of messages and activities to promote the importance of early entry into prenatal care; use of folic acid to prevent birth defects; avoidance of smoking, alcohol, and other drugs; breastfeeding; placing babies on their backs to sleep; preventive health screenings; and other healthy behaviors; 2) providing in-home visits for prenatal and post-partum women and their infants through age two identified to be at risk for poor pregnancy and infant health outcomes; helping women alter their health-related behaviors; helping parents provide more responsible care for their children; and improving the family's economic self-sufficiency by helping parents develop a vision for their own future; 3) researching the cause of fetal/infant and maternal deaths and developing interventions to ameliorate causes through the Fetal and Infant Mortality Review and Pregnancy Associated Mortality Review projects; 4) increasing the number of women who initiate and continue to breastfeed their infants through the first year of life; and 5) reducing the risk of pregnancies exposed to alcohol, tobacco, and other drugs through the Alcohol, Tobacco, and Other Drug (ATOD) Prevention and Awareness Program. This program promotes early identification, intervention, and referral of at-risk women and their children by health care providers. The program also includes the Missouri Fetal Alcohol Syndrome Rural Awareness and Prevention Project (MOFASRAPP). MOFASRAPP strategies include community and individual level interventions to reduce alcohol-exposed pregnancies in at-risk women, educating health care providers on Fetal Alcohol Syndrome (FAS), establishing FAS centers to provide diagnostic, referral, and follow-up services for individuals suspected of having an alcohol-related condition and their families, and enhancing existing surveillance systems to monitor the prevalence of alcohol consumption and contraceptive use in women of childbearing age and the incidence of FAS.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

#### 1. What does this program do?

This program assures that school children have access to school nursing services by providing contracts to public school districts and health agencies to establish or expand health services for school children. The program focuses on increasing access to a regular source of medical care and addressing the unique needs of children with special health care needs, such as asthma, diabetes, epilepsy, and Attention Deficit - Hyperactivity Disorder (ADHD) that may interfere with student success, by developing health plans in collaboration with the students, parents, and health care professionals. School health services programs are planned and approved by local school health advisory councils comprised of parents, teachers, students, and local community stakeholders. The program is a collaborative effort of the State Departments of Health and Senior Services, Social Services, and Elementary and Secondary Education.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 167.603, RSMo.

OTHER	852,400									852,400
TOTAL	2,674,535									2,674,535

#### 1. What does this program do?

This program assists Missouri residents age 21 and over who have survived a traumatic brain injury (TBI) in coordinating and purchasing rehabilitative services. The goal of the Adult Head Injury Program is to enable TBI survivors to return to a productive lifestyle in their local community following a significant head injury. The Adult Head Injury Program provides service coordination and rehabilitation services, ensures statewide access to evaluation and rehabilitative services, develops and monitors the participant's individualized goal-directed plan of service, and builds natural support systems that result in successful re-integration into the community. The program also provides staff support to the Missouri Head Injury Advisory Council, which is charged with the responsibility to develop, recommend, and coordinate policies to prevent traumatic head injuries and to restore independent and productive lifestyles after traumatic head injury.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Sections 192.735-192.745, 199.003-199.051, and 304.028, RSMo; Title XIX of Social Security Act.

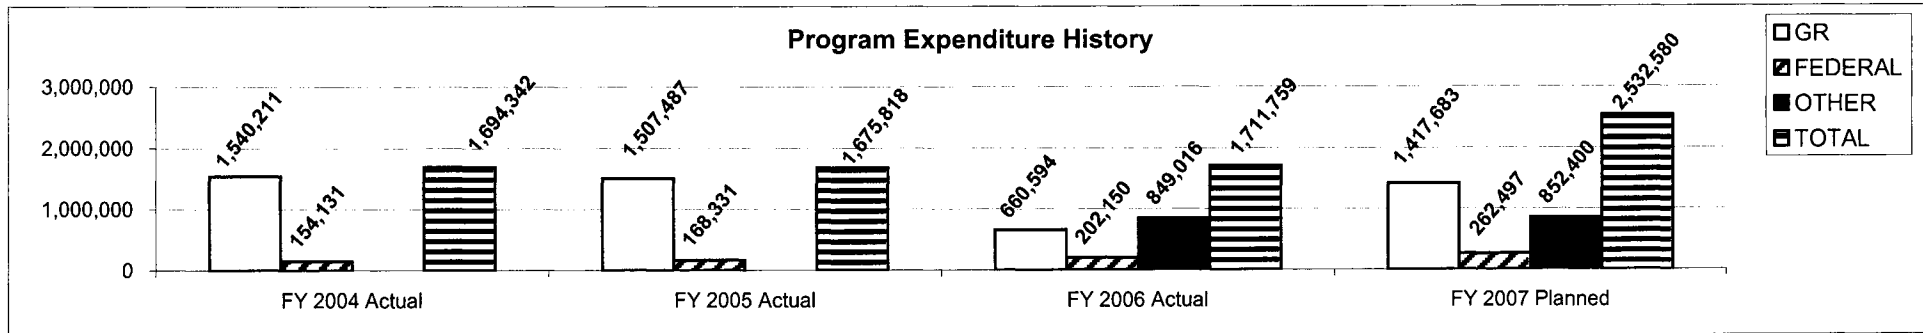

#### 3. Are there federal matching requirements? If yes, please explain.

Yes, Medicaid funds support a portion of this program with a 50 percent general revenue/50 percent federal match.

#### 4. Is this a federally mandated program? If yes, please explain.

No, however, an advisory council must be in existence in order to receive certain head injury federal grants.

#### 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Average number of days participants are on waiting list prior to receiving services		85	272	462	245****	245****

\* Occupational Therapy, Speech Therapy, and Physical Therapy were eliminated as services provided by the program effective October 1, 2005.

\*\*The increase in participants shown for FY07 and FY08 is due to an additional \$765,000 approved by the General Assembly in the FY07 budget. Current funding allows the program to cover approximately 178 to 181 clients at any point in time. This figure is calculated by dividing the total funding available for rehabilitative services by the average yearly amount projected for each client (based on historical data of average costs per year per participant plus the average cost per participant projected to cover the increased provider reimbursement rates). The service cost for some clients will be less than this as some clients leave the program for a variety of reasons (transitioning off the program, moving out of the state, death, etc.). As clients leave the program, clients on the waiting list are added to the active caseload.

\*\*\* Based on elimination of services and new requirements for continued provider enrollment, a decline in the number of providers is anticipated. The projected numbers were reduced by 9% each year, as there was a 9% decline in the number of providers from FY05 to FY06.

\*\*\*\* The number of days each participant is on the waiting list is calculated from the date of placement to the date authorized for services. The average is obtained by dividing the total number of days all participants were on the waiting list and removed for services during the fiscal year divided by the total number of participants removed for services. The projected decrease in waiting time is due to the ability to move persons off the waiting list because of the additional funding received in FY07. As a result of the increased funding, all clients on the waiting list as of July 1, 2006 are now receiving services. Since new participants are continually added to the waiting list, the number of days on the waiting list is not projected to decrease in FY08.

#### 1. What does this program do?

The Injury and Violence Prevention Program (IVPP) coordinates prevention interventions, works with other agencies addressing injury causes, and supports the collection and analysis of injury data. IVPP contracts with nine local SAFE KIDS coalitions to conduct primary injury prevention interventions in communities, the University of Missouri to conduct the Think First Missouri Educational Program that provides primary prevention activities addressing the prevention of head and spinal cord injury, and community-based rape and abuse agencies that provide sexual assault prevention activities and/or crisis counseling and other services to rape and sexual assault victims. IVPP also funds forensic examinations for suspected victims of rape, sexual assault, and sexual abuse; training to health care providers who provide medical examinations for children who are suspected victims of child maltreatment; educational initiatives promoting screening for interpersonal violence by health care providers; and coordinates the development of the Violence Against Women State Prevention Plan.

### 1. What does this program do?

This program works to ensure the availability and accessibility of medical, dental, and mental health care services for all Missouri citizens. The initiatives under this program include:

- The Primary Care Office monitors and evaluates access to health care services, including designation of health professional shortage areas; represents the National Health Service Corps in this state; and works collaboratively with state and national partners on the development and expansion of safety-net health care delivery sites;
- The Oral Health Program focuses on monitoring and reducing oral disease in Missouri citizens. Preventive efforts include the Fluoride Mouth Rinse Program that helps to reduce cavities in school-age children; the Public Water Fluoridation Program that monitors and supports fluoridation of public drinking water systems; and the Missouri Oral Health Preventive Services Program that provides oral health screening, preventive services, and referrals to children attending Early Head Start and Head Start, as well as school children in participating communities. Clinical service efforts include the Elks Mobile Dental Program, which provides dental services to children with special health care needs throughout the state, and the Missouri Donated Dental Services Program, which utilizes volunteer dentists and participating laboratories to provide services at no charge to the eligible patients in need of oral health care. Educational and outreach services include the Portable Dental Equipment Program, which provides the equipment to be used by hygienists and/or dentists conducting community outreach and education activities; the provision of a variety of oral health educational resources/materials for local oral health education/promotion programs; and the Oral Health Surveillance System, which monitors the state of oral health in children in Missouri;
- The Office of Rural Health supports and implements programs from the federal Office of Rural Health Policy directed on improving all aspects of health in rural communities. Programs and support services for rural hospitals include the Medicare Rural Hospital Flexibility Program (FLEX), which provides resources to certified critical access hospitals to improve the quality of services provided; the management of the facilities and the expansion of emergency medical services; the Small Rural Hospital Improvement Program (SHIP), which provides funds directly to qualifying hospitals to support quality improvement programs; and implementation of the Health Insurance Portability and Protection Act and the Prospective Payment System. Emergency medical systems support has been provided through the Rural Access to Emergency Devices, which provides automatic external defibrillators (AED) and training to rural first responders to improve health outcomes in rural emergency medical systems.

<b>Fluoride Varnish</b>	\$ -	\$ -	\$ -	\$ 1.15

Note: The charge for a dental office visit for diagnostic and preventive services can exceed \$100 per visit. The cost of the fluoride program is less than 2 percent of the cost for a dental office visit. The cost of an office visit was calculated by information provided by the Missouri Primary Care Association. Program costs increased for fluoride mouth rinse due to conversion to pre-mix from powder. Pre-mix makes program operations easier in participating schools and increases program satisfaction. Fluoride varnish treatments are being piloted in select elementary schools, and the majority of head start and early head start programs in SFY 2007. Schools will be encouraged to transition from mouth rinse to varnish by SFY 2008.

#### 7d. Provide a customer satisfaction measure, if available.

An estimated 9,607 Missourians die from tobacco-related diseases each year, making tobacco use the single most preventable risk factor for death and disability. An additional estimated 1,150 individuals in Missouri die each year from illnesses due to exposure to second-hand smoke. Annually, tobacco-related illnesses cost the state approximately \$2.13 billion in direct healthcare (in 2004 dollars), \$2.42 billion for lost productivity annually during 2000-2004, \$512 million for Medicaid expenditures (2005), and \$10.1 million for neonatal care due to smoking during pregnancy (1997). The Missouri adult smoking rate in 2005 was 23.4 percent, which was higher than the national average of 20.6 percent. Smoking prevalence among Missouri high school students was 23.7 percent in 2005. Among those that smoke, 60.3 percent of high school students and 49.5 percent of adults tried to quit at least one time in the past 12 months. However, among adults who tried to quit, only 14.3 percent used nicotine replacement therapy or medications and 2.8 percent used other assistance such as classes or counseling for the last quit attempt. This funding will allow Missouri to target additional funds toward current tobacco use prevention and cessation efforts. Requested funding will be used to contract with community organizations to support proven community and school youth prevention interventions, expand statewide cessation services, and begin a media campaign targeted to preventing youth from starting to smoke, promote quitting of tobacco use by adults, and decreasing exposure to second-hand smoke.

In 1999, the Centers for Disease Control and Prevention (CDC) issued "Best Practices for Comprehensive Tobacco Control Programs" to provide guidance to states in allocating resources based on experiences in states, such as California and Massachusetts, that had successfully reduced tobacco use among youth and adults. CDC recommends that Missouri fund a comprehensive tobacco control program at a minimum of \$32,767,000 to a maximum of \$91,359,000. To begin expansion of tobacco prevention and control, the following program components representing best practices will be implemented in FY 2008:

**Local/regional contracts: community, school, and worksite programs - \$350,000** in competitive contracts averaging \$50,000 to implement proven interventions to prevent youth from starting to smoke, promote quitting tobacco use, and decrease exposure to second-hand smoke in workplaces and public places.

**Cessation counseling - \$200,000** to expand the telephone cessation quit line contract currently funded by a cooperative agreement with the CDC to provide up to four counseling sessions per caller. An estimated 800 additional adult tobacco users would be expected to access the services as a result of promotional efforts.

**Media/counter marketing - One competitive contract, \$50,000,** to develop a marketing plan to assure effective outreach to target populations and **\$400,000** to deliver messages to youth and adults to prevent initiation, encourage quitting, and to promote the state quit line and available Medicaid coverage for cessation services.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

AIDS Drug Assistance Program (ADAP) is a statewide program that provides life-sustaining medications to low income Missourians living with HIV disease who do not have access to private insurance, Medicaid, Medicare, or other sources to pay for these medications. The ADAP sustains or improves the health status of HIV positive Missourians and increases their ability to continue to work and contribute to their communities. With the success of potent medications, people are living longer without progressing to an AIDS diagnosis, preventing deaths and AIDS-related disability determinations that would make them Medicaid and/or Medicare eligible. Also, HIV patients on these medications have lower viral loads, making them less infectious to others, thereby providing an important disease control measure for public health. Missouri's state and local programs are successfully reaching out to persons not receiving timely care and treatment for their disease and linking them to healthcare services. Though Missouri's annual rate of newly diagnosed HIV disease cases (including AIDS) remains lower than the US rate for all states with named HIV reporting, the need for access to medications will continue to grow well into the future.

<b>Health and Senior Services</b>	<b>Budget Unit</b> 58445C
<b>Community and Public Health</b>	
<b>ADAP Medications</b>	<b>DI# 1580001</b>

Based on program experience over the past three years, the number of individuals needing assistance grew at an average of 167 new clients per year. Additional funding is needed to keep pace with this growth. A growing caseload has impacted the ability of the program to meet the needs of HIV patients. With this increased funding, approximately 2,783 HIV clients will have access to needed medication through ADAP.

The department works closely with community partners on strategies for managing the ADAP budget. Strategies used to manage increasing costs include: 1) maximizing program income through rebate claims; 2) removing drugs from the program formulary; 3) cutting other clients' services funded by the grant to shift dollars to medications; 4) negotiating with other Ryan White grantees (primarily Kansas City and St. Louis) for contributions from their grants to cover medications; and 5) transitioning clients to Medicaid and Medicare Part D. Even with these aggressive actions, the need for additional state dollars is critical.

The treatment costs for an HIV client are significantly less than the treatment costs for an AIDS client (\$16,500/year vs. \$29,500/year). If additional state funding is not secured for FY 2008, implementation of a waiting list for ADAP would be necessary for new clients. Clients on a waiting list would not have access to life-sustaining medications. Their health would deteriorate, and they would become more infectious to others. Many would develop AIDS and would become eligible for Medicaid or Medicare late in the disease process, decreasing the likelihood of work re-entry. Access to these life-saving medications for HIV patients is essential for their health and their life.

The federal authority for this program is Public Law 101-381 (Ryan White CARE Act).

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

**167 New Caseload**  
**X \$6,505 Est. Cost/Client**  
**\$1,086,335**

\* Includes non-appropriated federal funds that St. Louis City (\$890,000) and Kansas City (\$615,000) receive directly and are used for medication purchases. Also includes \$2,740,602 in rebates which are used to purchase additional medication.

\*\* Estimated costs are rounded to the nearest dollar. ADAP estimated costs per client are lower than annual costs for treatment because ADAP may only serve clients for a portion of the year until they become eligible for Medicaid, Medicare, or obtain commercial insurance coverage by returning to work.

**6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with and without additional funding.)**

**6a. Provide an effectiveness measure.**

	Maintain the proportion of ADAP clients accessing anti-retroviral medications at 80%		Maintain the proportion of ADAP clients that access prescribed combination of three or more anti-retroviral treatment regimens at 90%	
	Projected	Actual	Projected	Actual
FY 2003	80.0%	79.0%	90.0%	87.3%
FY 2004	80.0%	78.9%	90.0%	88.1%
FY 2005	80.0%	79.7%	90.0%	89.9%
FY 2006	80.0%	79.3%	90.0%	89.6%
FY 2007	80.0%		90.0%	
FY 2008	80.0%		90.0%	

The 80 percent and 90 percent targets are identified goals/objectives included in the DHSS federal Ryan White Grant. Some clients may not be medically ready for anti-retroviral therapy but may access antibiotics or antifungals only. Therefore, the 80 percent and 90 percent goals for anti-retrovirals are realistic, achievable goals as accepted by the federal funding agency (HRSA) for Ryan White grantees.

**7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:**

1. Maintain the proportion of ADAP clients accessing anti-retroviral treatments at 80 percent.
  - Pay for anti-retrovirals on behalf of clients to maintain adherence to therapy.
  - Monitor utilization data on monthly/quarterly/yearly basis.
  - Work with the Midwest AIDS Training and Education Center (MATEC), a federally funded center that provides AIDS and HIV training, to ensure appropriate prescriber education and training.
  - Provide appropriate client education materials to HIV case managers to maintain adherence by clients.
  
2. Maintain the proportion of ADAP clients that access the prescribed combination of three or more anti-retroviral treatment regimens at 90 percent.
  - Pay for anti-retrovirals on behalf of clients to maintain access to therapy.
  - Monitor utilization data on monthly/quarterly/yearly basis.
  - Provide appropriate adherence education materials to HIV case managers to maintain medication adherence by clients.

## 2. CORE DESCRIPTION

Funding is requested for the following programs: 1) Child and Adult Care Food Program (CACFP), which reimburses child and adult care facilities for nutritious meals served to children and adults and for meals served to children in after-school enrichment programs and emergency homeless shelters; 2) the Women, Infant, and Children (WIC) Supplemental Nutrition Program, including benefits for health screening and risk assessment, nutrition counseling, breastfeeding promotion, and support and referrals that assure access to quality healthcare services and supplemental prescribed foods; and 3) the Summer Food Service Program (SFSP), which improves the nutrient intake of low-income children age 18 and under when school is not in session, reducing their risk for nutritionally-related health problems and enhancing their learning capabilities when they return to school. The SFSP also improves the quality of the summer programs offered in low-income areas and provides summer employment opportunities for local communities, helping to achieve financial security for families.

**1. What does this program do?**

The Nutrition Initiatives Program decreases preventable nutrition-related illness and deaths using a variety of methods. These methods include health screening and risk assessment, nutrition counseling, breastfeeding promotion and support, referrals to health and social services, checks to purchase specific food items needed for good health, reimbursement for meals that meet federally prescribed guidelines, and provision of commodity food packages. In addition, the Nutrition Initiatives Program collaborates with the Centers for Disease Control and Prevention (CDC) to collect, analyze, and monitor data on the nutritional health status and dietary practices of WIC participants and school-aged children through the Pediatric and Pregnancy Surveillance Systems. Specific programs include the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC); the Child and Adult Care Food Program (CACFP); the Summer Food Service Program (SFSP); and the Commodity Supplemental Food Program (CSFP). The WIC Farmers' Market Nutrition Program is designed to increase the consumption of fresh fruits and vegetables by WIC-eligible clients through purchases at participating farmers' markets. The Seniors' Farmers' Market Program is, likewise, designed to increase the consumption of fresh fruits and vegetables by senior citizens through purchases at participating farmers' markets. Funding will only be used for Farmers' Market programs if DHSS is successful in securing federal funding for these programs.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

WIC, WIC Farmers' Market Nutrition Program, and Seniors' Farmers' Market Nutrition Program: 42 USC 1786, Child Nutrition Act of 1966 as amended through PL 108-269, July 2, 2004, 7CFR 246.  
CACFP: Section 210.251, RSMo; 42 USC 1766, National School Lunch Act, Section 17.  
SFSP: Section 191.810, RSMo; 42 USC 1761, Section 13  
CSFP: Section 208.603 RSMo; 7 USC 612c Farm Security and Rural Investment Act of 2002

**3. Are there federal matching requirements? If yes, please explain.**

Yes, the WIC Farmers' Market Nutrition Program requires a 30 percent non-federal match.

**4. Is this a federally mandated program? If yes, please explain.**

No

#### 1. What does this program do?

The Alternatives to Abortion Program provides services for women at or below 200 percent of the federal poverty level to encourage them to maintain their pregnancy. The program consists of services or counseling offered to a pregnant woman, continuing for one year thereafter; to assist her in carrying her unborn child to term instead of having an abortion; and to assist her in caring for her dependent child or placing her child up for adoption. Services include, but are not limited to the following: prenatal care; medical and mental health care; parenting skills; drug and alcohol testing and treatment; child care; newborn or infant care; housing; utilities; educational services; food, clothing, and supplies related to pregnancy, newborn care, and parenting; adoption assistance; job training and placement; establishing and promoting responsible paternity; ultrasound services; case management; domestic abuse protection; and transportation. Actual provisions and delivery of these services are dependent on client needs and not, otherwise, prioritized by the department. Services are available only during pregnancy and continuing one year thereafter and exclude any family planning services. No program funds are used to perform or induce, assist the performing of or inducing of, or referral of abortions. None of the funds are granted to organizations or affiliates of organizations that perform or induce, assist in the performing or inducing of, or referral of abortions.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

In FY 2007, funds were allocated from the Social Services Block Grant for the Alternatives to Abortion Program. Previously, this funding had been used by the Division of Senior and Disability Services to fund services to persons who were 60 years of age or older and to persons with disabilities age 18 to 59. The authorization of in-home services supported an individual's ability to remain at home or in a community setting. Services authorized included personal care, advanced personal care, authorized nurse visits, homemaker services, chore services, adult day health care, respite care, and counseling. Providing funding to the Alternatives to Abortion Program through general revenue would permit restoration of Social Services Block Grant funding for authorized services to persons 60 years of age and older and to persons with disabilities age 18 to 59 through the Division of Senior and Disability Services. This request will replace \$760,000 federal funds with general revenue and add \$200,000 in funding for the program. An estimated 83 women per month could be served with an additional \$200,000.

#### 7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:

1. Expand Alternatives to Abortion Program services and outreach to more rural areas of Missouri and increase the level of services provided to women in need.
2. Maintain the level of services currently provided. In 2005 and 2006, although contractors involved with the Alternatives to Abortion Program bid to provide services statewide, services were provided in 50 of Missouri's 115 counties. Additional funding for client services, program marketing, and an additional contractor with subcontractor sites will be provided in FY 2007.

### 2. CORE DESCRIPTION

Access to essential primary health care services for all Missouri citizens to improve overall health and to reduce health care expenditures is the goal of the Primary Care Resource Initiative for Missouri (PRIMO), the Missouri Professional and Practical Nursing Student Loan, and the Health Professional Student Loan Repayment Programs. These programs address the infrastructure needs of the health care delivery systems in rural and urban underserved Missouri communities. PRIMO provides resources to community-based organizations to provide new or expanded health care services to communities through clinical site development. In addition to the clinical capacity provided by PRIMO, there is a continuing need for health professionals to staff these new service delivery sites. PRIMO also recruits students pursuing degrees in medicine, dentistry, and dental hygiene from rural and underserved areas and provides financial aid, clinical training, and other support services in return for a service obligation. The Missouri Professional and Practical Nursing Student Loan Program also provides student loans with a service obligation to increase the availability of essential nursing professionals in the communities and facilities in need. Additional clinical providers are recruited through the Health Professional Student Loan Repayment Programs. The programs provide assistance in the repayment of educational loans in exchange for medical, dental, or nursing services in underserved communities and facilities.

1. **What does this program do?**

These programs increase access to essential, primary health care services for all Missouri citizens to improve overall health and to reduce health care expenditures. The Primary Care Resource Initiative for Missouri (PRIMO) provides financial resources to community-based organizations to create new or to expand existing primary medical, dental, and mental health services in underserved communities. PRIMO also provides health professional student loans, with a service obligation or forgiveness clause, for students pursuing careers as primary care physicians, dentists, nurse practitioners, or dental hygienists. The Missouri Professional and Practical Nursing Student Loan provides forgivable student loans in exchange for service in underserved communities and facilities in the state. Also, the Health Professional Student Loan Repayment Programs recruit clinicians through the Health Professional Student Loan Repayment Programs. The loan repayment programs provide financial assistance to repay educational loans in exchange for medical, dental, or nursing services in qualifying communities and facilities.
  
2. **What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Sections: 191.411, RSMo (PRIMO); 191.500, RSMo (Student Loans); 191.600, RSMo (Loan Repayment Program); 335.212, RSMo (Nurse Loan Program); and 335.245, RSMo (Nurse Loan Repayment Program).
  
3. **Are there federal matching requirements? If yes, please explain.**

Yes, the State Loan Repayment Program Grant requires a \$1 state to \$1 federal match. The match for the State Office of Rural Health, \$3 state to \$1 federal, is provided through PRIMO contracts in rural Missouri communities.
  
4. **Is this a federally mandated program? If yes, please explain.**

No

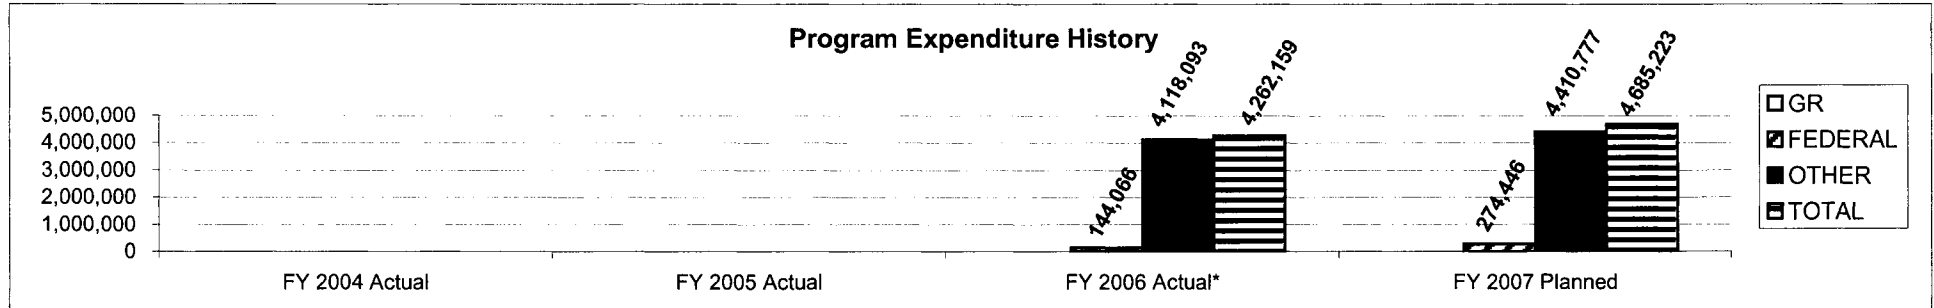

## PROGRAM DESCRIPTION

### Health and Senior Services

#### Health Professional and PRIMO Programs

Program is found in the following core budget(s): DCPH Program Operations; DCPH Programs; PRIMO/Loan and Loan Repayment

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

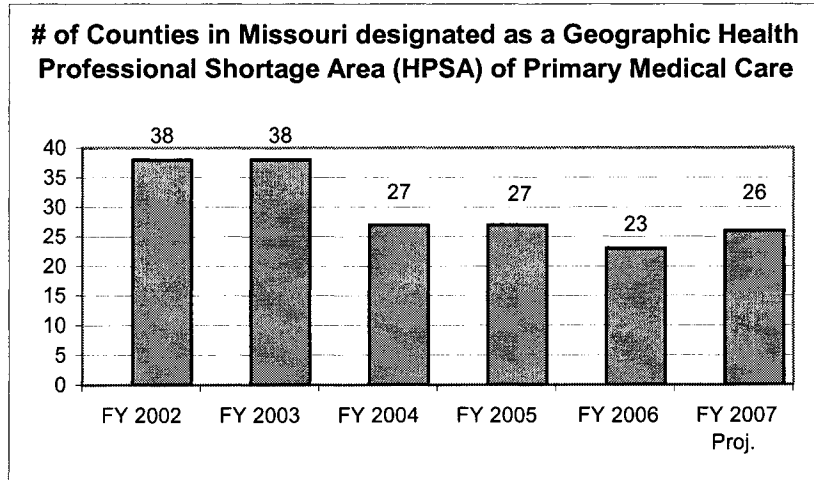

\*The Health Professional and PRIMO Program was previously part of the Health Care Access Program.

6. What are the sources of the "Other" funds?

Health Access Incentive Fund (0276); Professional and Practical Nursing Student Loan and Nurse Loan Repayment Fund (0565); Department of Health -Donated Fund (0658); and Health Professional Student Loan Repayment Program Fund (0598).

7a. Provide an effectiveness measure.

Note: Health Professional Shortage Designations are valid for a three-year period and reviewed annually by DHSS staff.

7b. Provide an efficiency measure.

A baseline will be established in FY07 to measure the time required for processing the number of new and existing student loan applications through all steps of the loan process (receipt of application, screening, scoring, final selection and payment). The benchmark will be how many participants receive a loan payment within 30 days of receipt of the student-signed contract.

<b>2. CORE DESCRIPTION</b>									
<p>Core funding will allow the Office of Minority Health to develop public health interventions and provide technical assistance to decrease the rate of health disparities in minority communities. The office provides technical support for the design of culturally appropriate health messages and educational outreach; convenes specific minority focus groups; and surveys, conducts, and assists with program implementation for "hard-to-reach" minority populations. The office supports six regional minority health alliances that serve as a voice of advocacy and advice for the community in identifying and improving the health status of minorities. The office co-sponsors workshops and symposiums to gather and distribute knowledge to the community regarding emerging minority health issues with an emphasis on chronic disease and HIV/AIDS prevention.</p> <p>The Office of Minority Health, through a contract, also supports the Paula J. Carter Center on Minority Health and Aging. The primary function of this contract is to conduct research, initiate evidence-based programming, and furnish a repository of information in relation to reducing minority health disparities.</p>

### FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 5802050	<b>DEPARTMENT:</b> Department of Health & Senior Services
<b>BUDGET UNIT NAME:</b> Office of Minority Health (OMH)	<b>DIVISION:</b> Division of Community & Public Health (DCPH)

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

For FY 2007, the Office of Minority Health was granted 20 percent flexibility between personal services and expense and equipment appropriations for general revenue and federal funding. The Division of Community and Public Health, Office of Minority Health requests that this level of flexibility be continued for FY 2008. This flexibility will help ensure the division can deal with situations involving leave payouts, overtime, statutory changes, or other unforeseen circumstances.

#### DEPARTMENT REQUEST

DHSS requests 20% flexibility between PS and E&E for general revenue and federal funds.

## PROGRAM DESCRIPTION

### Health and Senior Services

### Office of Minority Health

Program is found in the following core budget(s): Minority Health

	DCPH									TOTAL
GR	1,116,959									1,116,959
FEDERAL	774,720									774,720
OTHER	0									0
TOTAL	1,891,679									1,891,679

#### 1. What does this program do?

The Office of Minority Health develops public health interventions and provides technical support to assist in decreasing the rate of health disparity in minority communities. The office provides technical support for the design of culturally appropriate health messages and educational outreach, convenes specific minority focus groups and surveys, and conducts and assists with program implementation for "hard-to-reach" minority populations. The office supports five Regional Minority Health Alliances (RMHA) that serve as an advocacy venue and engages the community in identifying and improving the health status of minorities. The office currently has three major health initiatives: obesity prevention, infant mortality reduction, and the emergency plan for HIV/AIDS in the African American community. Other key activities include co-sponsoring workshops, professional symposiums, and community health promotion events.

The Office of Minority Health, through a contract, also supports the Paula J. Carter Center on Minority Health and Aging. The primary function of this contract is to conduct research, initiate evidence-based programming, and furnish a repository of information in relation to reducing minority health disparities.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 192.083, RSMo.

#### 3. Are there federal matching requirements? If yes, please explain.

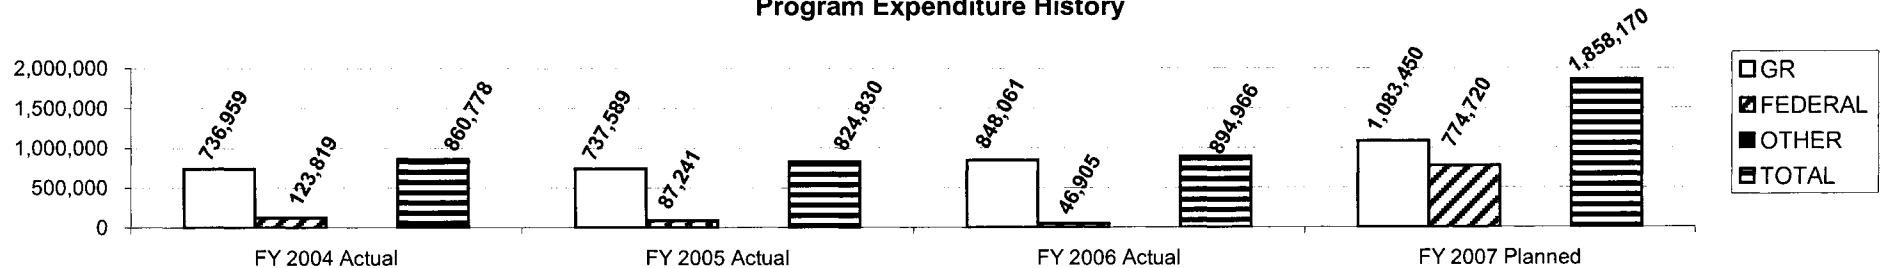

No

#### 4. Is this a federally mandated program? If yes, please explain.

No

#### 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

**Program Expenditure History**

## PROGRAM DESCRIPTION

### Health and Senior Services

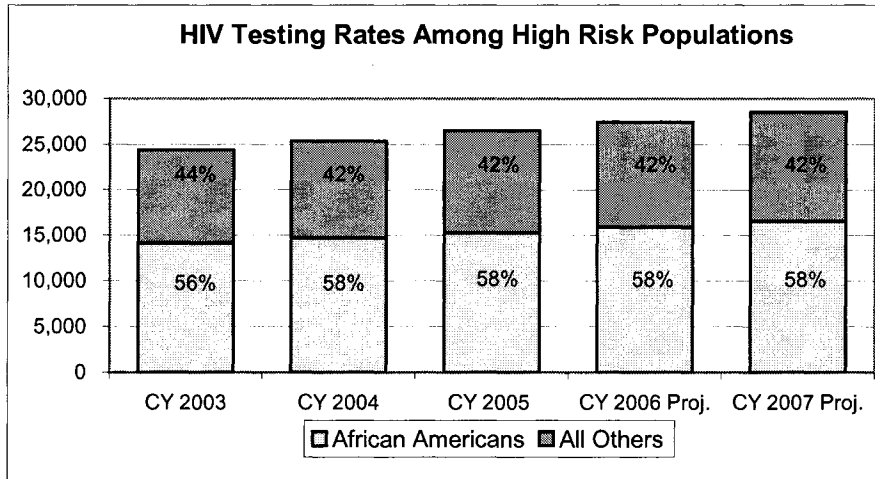

### Office of Minority Health

Program is found in the following core budget(s): Minority Health

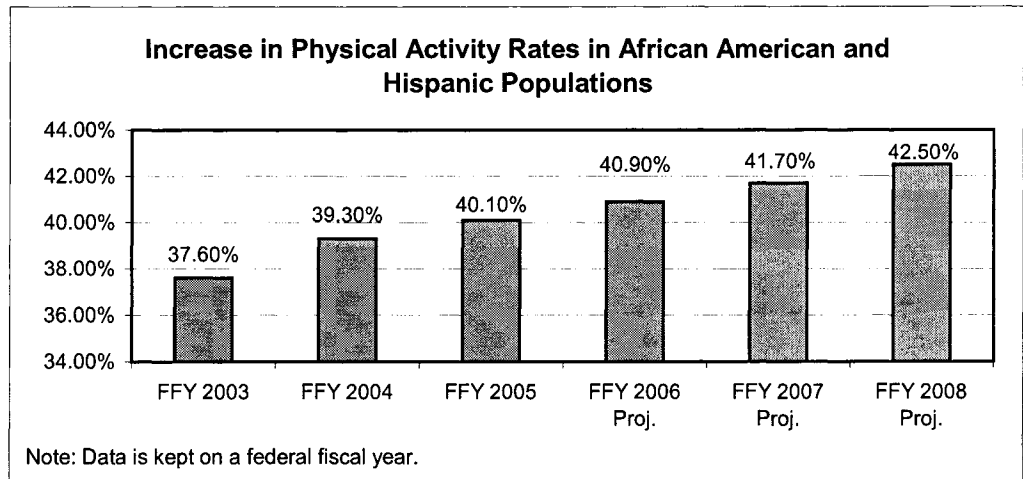

#### 6. What are the sources of the "Other" funds?

N/A

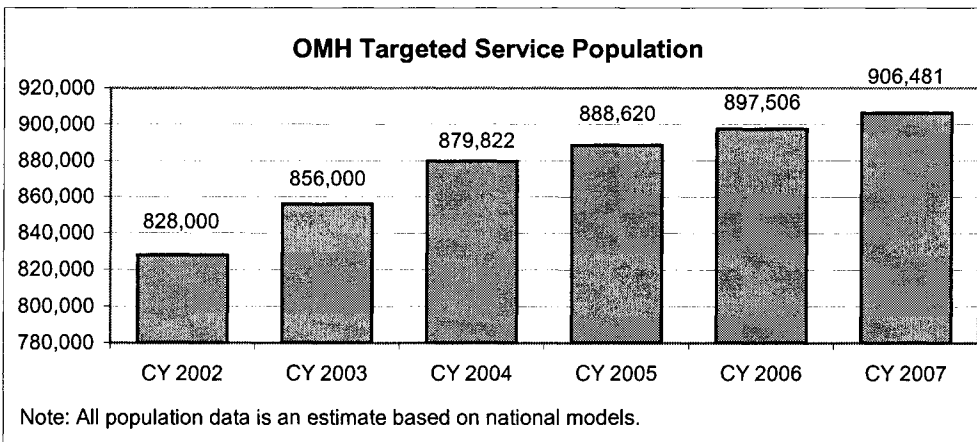

#### 7a. Provide an effectiveness measure.

#### 7b. Provide an efficiency measure.

#### 7c. Provide the number of clients/individuals served, if applicable.

#### 7d. Provide a customer satisfaction measure, if available.

During FY07, OMH will conduct a customer satisfaction survey of all participants receiving Disparities Elimination Training. The survey will assess participants' overall evaluation of the training, skills gained, and whether the training will help them create new programming or expand existing programs in their communities.

**PLEASE NOTE: UNLESS OTHERWISE INDICATED, FY 2008 AND FY 2009 PERFORMANCE MEASURES ARE BASED ON FY 2007 CORE FUNDING LEVELS.**

2. CORE DESCRIPTION									
<p>This core provides funding to support operations of the Division of Senior and Disability Services (DSDS). DSDS is composed of the division director and deputy director and financial support staff (Administration); four bureaus (Bureau of Senior Programs, Bureau of Home and Community Services, Bureau of Quality Assurance, and the Bureau of Program Integrity); and the Central Registry Unit (Customer Service Center and Elder Abuse Hotline). DSDS plays a crucial role as the state unit on aging and the primary regulatory agency that monitors and assures the health and safety of the senior and adult disabled population. DSDS investigates allegations of elder abuse, neglect, and financial exploitation; informs individuals considering long term care about their care options; authorizes in-home and consumer directed services; provides care plan management for in-home service recipients (both Medicaid recipients and other eligible adults); monitors in-home service providers; provides customer service to seniors and disabled adults; and oversees programs and services provided by the Area Agencies on Aging.</p> <p>Funding is utilized to support adult protective service activities, complaint investigation, and care plan management as mandated under Chapter 198, RSMo (Mandated Reporter Section); Chapter 565, RSMo (Offenses Against Persons); Section 570.145, RSMo (Financial Exploitation of the Elderly); Chapter 660, RSMo (Protective Services for Elderly); and participation in the Medicaid State Plan, Centers for Medicare and Medicaid Services, Older Americans Act and Medicaid State Plan, the Aged and Disabled Waiver, and the Independent Living Waiver (1915 c).</p>

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 5802800	<b>DEPARTMENT:</b> Department of Health & Senior Services
<b>BUDGET UNIT NAME:</b> Division of Senior & Disability Services (DSDS)	<b>DIVISION:</b> Division of Senior & Disability Services (DSDS)

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

For FY 2007, the Division of Senior and Disability Services was granted 20 percent flexibility between personal services and expense and equipment appropriations for General Revenue and federal funding and 100 percent flexibility between Medicaid and non-Medicaid appropriations. The Division of Senior and Disability Services requests that this level of flexibility be continued for FY 2008. This flexibility will help ensure the division can deal with situations involving leave payouts, overtime, statutory changes, or other unforeseen circumstances. Since the Medicaid and non-Medicaid appropriations are estimates and are impacted by a number of factors (how to appropriately split out Medicaid funding from other funding streams for staff that work on multiple-funded programs, uncertainty on Medicaid eligibility of clients served by programs, etc...), 100% flexibility would allow the department to move these funds to either Medicaid or regular appropriations if the estimates proved to be too low or too high, thereby helping to avoid the need for a supplemental appropriation.

### DEPARTMENT REQUEST

3. Was flexibility approved in the Prior Year Budget or the Current Year Budget? If so, how was the flexibility used during those years?	
PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
In FY 2006, DSDS flexed \$360,000 from PS to E&E for various equipment needs.	In FY 2007, 20 percent flexibility was appropriated between PS and E&E appropriations for General Revenue and federal funding and 100 percent flexibility was appropriated between Medicaid and non-Medicaid appropriations. This will allow the program to respond to changing situations to continue to provide the best possible, quality services to DHSS.

### 1. What does this program do?

The Division of Senior and Disability Services (DSDS) is the designated state unit on aging and takes the lead to plan, coordinate, improve, and administer programs for Missouri's seniors and adults with disabilities age 18-59. Examples of the division's activities include investigation of hotline calls that allege abuse, neglect, or financial exploitation of seniors and adults with disabilities; provide education and information about home and community based options for long term care; authorize and monitor in-home services for seniors and persons with disabilities; monitor Area Agencies on Aging programs for compliance with the Older Americans Act; and provide customer service, information, and referral services to seniors and adults with disabilities. The Division Director's Office provides management, oversight, and direction for the division programs and ensures programs are addressing the needs of Missouri's senior citizens; reviews legislation impacting the division; ensures compliance with federal and state rules and regulations; develops the division budget and tracks expenditures and staffing to assure spending within appropriate grants/appropriations; coordinates policy responses to ensure consistency with division/department policy; and administers a workforce of approximately 480 employees. The Division Director's Office includes the division director, deputy director, the financial support unit, and related support staff.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapters 192, 197, 198; Sections 210.481-210.511, 210.900-210.936, and 660.050-660.321 RSMo; Federal Statutory or Regulatory Citation: Federal Authority for specific activities is included on division program description pages.

### 3. Are there federal matching requirements? If yes, please explain.

Federal matching requirements for specific activities are included on division program description pages.

### 4. Is this a federally mandated program? If yes, please explain.

The federal mandate for specific activities is included on division program description pages.

**1. What does this program do?**

The Central Registry Unit (CRU), in operation since 1980, serves as the main customer service center for the Division of Senior and Disability Services (DSDS) and the Division of Regulation and Licensure (DRL). CRU is the point of entry for registering allegations of abuse, neglect, or exploitation of Missouri's elderly or disabled adults and for regulatory violations of nursing and residential care facility licensure standards. CRU takes calls seven days a week and processes reports that are referred to other entities such as the Department of Mental Health (DMH), Home Health, Hospital Licensing, Veterans Administration, and Program Integrity/Provider Monitoring for their appropriate intervention or review. The CRU is also the intake point for all DSDS requests for home and community based services. Referrals are then forwarded to DSDS Area Offices for assessment to determine if services could prevent premature nursing facility placement. The CRU also provides general information and referral guidance to individuals who may not be eligible for DSDS services or who request information about other aging network resources. CRU serves as the information and registration entry point for the Shared Care Program and tax credit.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Sections 198.032, 198.070, 660.255, 660.263, and 660.300, RSMo.

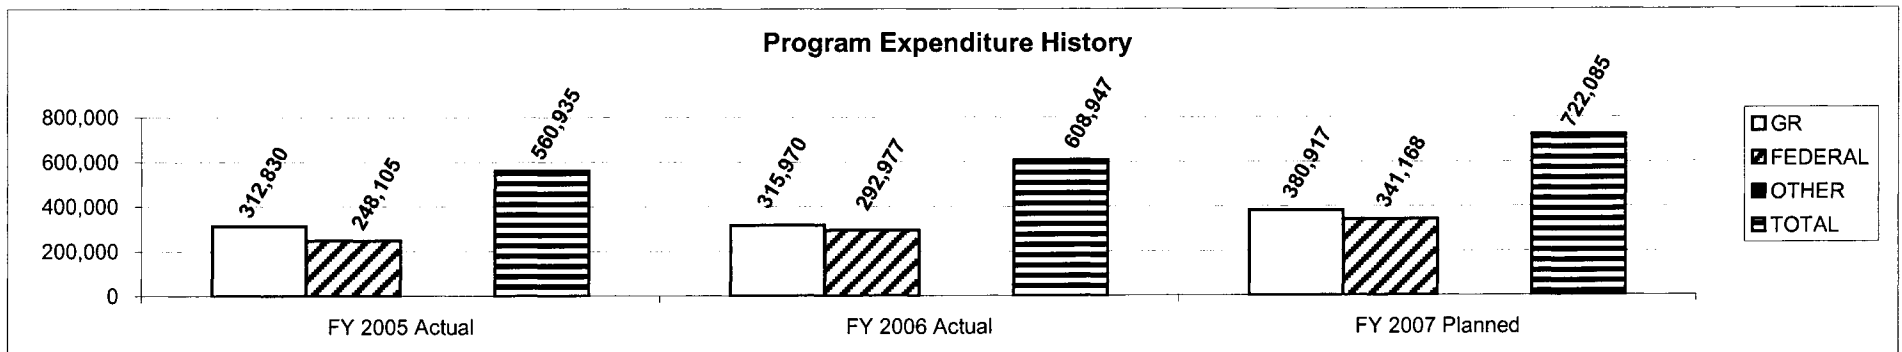

**3. Are there federal matching requirements? If yes, please explain.**

Some of the activities of the Central Registry Unit are eligible for Medicaid funding; the matching requirement is 50 percent.

**4. Is this a federally mandated program? If yes, please explain.**

No

**5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.**

<b>2. CORE DESCRIPTION</b>									
<p>This core provides general revenue and federal Social Service Block Grant (SSBG) funds to furnish an array of home and community based services to Missouri's seniors and adults with disabilities who choose not to enter a nursing facility but cannot afford to pay for help necessary to remain healthy and safe in the least restrictive environment. Many individuals receiving services through this program are Medicaid eligible, but may not be eligible at the time of service or eligible for Medicaid funding for needed services. This funding is used to pay for direct services to ensure continuity of care by guaranteeing payment for services performed by providers.</p> <p>Additionally, this core provides general revenue program dollars for the Non-Medicaid Eligible Consumer Directed Services Program, transferred by Executive Order 05-10 (2005) and modified by SB 74 and 49 (2005). This program allows consumers who are not eligible for Medicaid services to access state funding to direct their own care to meet personal care needs.</p>

### 1. What does this program do?

This program funds staff that investigate allegations of elder abuse, respond to calls about individuals considering long term care, and determine eligibility and preference for home and community based services as an alternative to facility placement; authorize in-home services and consumer directed services for both Medicaid recipients and other eligible adults; provide care plan management services to in-home service recipients (Medicaid and state funded); and conduct quality assurance reviews of providers of in-home care to ensure care is being delivered in compliance with state and federal rules/regulations and department participation agreements.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Sections 208.900 to 208.930, 660.050, 660.250 to 660.321, 565.180 to 565.188, and 570.145, RSMo.

Federal Statutory or Regulatory Citation: Title XIX and Title XX of the Social Security Act and PL 89-73 Older Americans Act.

### 3. Are there federal matching requirements? If yes, please explain.

Yes, within this program lies responsibility for oversight of the Medicaid State Plan Personal Care Program, the Aged and Disabled Waiver, and the Independent Living Waiver. State funds receive a 50 percent federal match when activities deal with home and community based care for vulnerable adults or the health and safety of Medicaid or potentially Medicaid eligible seniors or adults with disabilities.

### 4. Is this a federally mandated program? If yes, please explain.

Yes, state oversight of federal funding is required through Title XIX and Title XX of the Social Security Act and PL 89-73 Older Americans Act.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

The nation is in the midst of a growing shortage of direct-care workers - home health aides, certified nursing assistants and personal care attendants. In today's economy, many less-skilled, entry-level jobs pay better than positions in long-term care. Nationwide, the average nurse aide wage in a home health setting is \$9.08 per hour which would result in a full-time annual income of less than \$19,000. The work is often part-time, yielding an income of \$10,000 or less, offers few benefits and no opportunities for advancement. Many caregivers leave direct care for other better paying, less-demanding jobs. A 2002 American Health Care Association survey found that the turnover rate among certified nurse assistants in nursing homes was about 71 percent nationwide. The high turnover rate disrupts continuity of care as clients are forced to adapt to new caregivers, re-explain their individual needs, and adjust to a new pattern of caregiving.

<b>DI# 1580010</b>	
<p>The number of potential direct care workers is shrinking, while the number of people who require their services is growing. The "Baby-Boom" generation has begun turning 60, and the number of Missourians age 60 and over will continue to increase at a high rate over the coming years. Medical advancements enable premature babies to survive and individuals who experienced catastrophic illnesses or accidents to live longer lives, though many will be determined disabled and require some assistance to live independent lives in their communities.</p> <p>If Missouri's elderly and disabled population is to have a statewide long-term care delivery system that is capable of providing the services they require, the shortcomings of the labor package available to the industry's direct care workers needs to be addressed. The Compensation and Reimbursement Committee of the Caregiver's Workforce Task Force recommended in its final report that additional funds be allocated to increase direct care workers wages. Previous new decision items have provided increases of \$0.64 (FY 2006) and \$1.00 (FY 2007) per hour. Funds requested in this decision item provide for a \$0.50 per hour rate increase for direct care workers of in-home services in an effort to support a responsive service delivery system capable of providing quality, prompt, complete and professional services to consumers to help ensure the safety and welfare of Missouri's senior and adults with disabilities.</p> <p>The Federal Authority is Social Security Act 1894, 1905(a)(7), 1905(a)(24), 1915(c), and 1934; 42 CFR 440.170(f), 440.130, 440.180, 440.210 and 460. **7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:**

- Work with the In-Home Services and Consumer-Directed Services provider community to ensure the safety of some of Missouri's most vulnerable populations.
- Continue to empower Missouri's elderly and disabled populations to live safe, independent lives in their communities by providing supportive services through the In-Home Services and Consumer-Directed Services programs.
- Proactively address issues and trends affecting the senior and disabled populations with the addition of the Baby Boom generation.
- Continue to work with the Department of Social Services in conjunction with community groups, local medical providers, healthcare associations, schools, etc., regarding access to necessary services to empower the elderly and disabled citizens of Missouri to live independent lives.

<b>2. CORE DESCRIPTION</b>									
<p>This core provides funding for reimbursement to providers on behalf of Medicaid residents receiving Home and Community Based Services. The Home and Community Based Services Program provides payments for personal care, nurse visits, adult day care, the Aged and Disabled Waiver (homemaker chore, respite, telephone reassurance, and home delivered meals), AIDS Waiver, Physical Disability Waiver, and the Independent Living Waiver (which includes personal care, counseling, and adaptive equipment). The Consumer Directed Services Program allows individuals with disabilities to direct their own care to meet personal care needs.</p> <p>These programs enable Medicaid recipients to remain in their homes as an alternative to institutional care, allowing them to remain healthy and safe in a less restrictive environment.</p>

### 1. What does this program do?

This program funds Home and Community Based Services, including in-home services and consumer directed services for both Medicaid recipients and other eligible adults and the provision of care plan management services to in-home service recipients (Medicaid and state funded). Services within this program are available to seniors and adults with disabilities who are victims of abuse, neglect, or exploitation; considering long term care; need help to stay at home or in the community; and/or need assistance in accessing care or services necessary to maintain independence and dignity. Services are available to all Medicaid beneficiaries that need and choose personal care services as an alternative to facility placement and to seniors and adults with disabilities who are unable to independently access services or perform activities of daily living.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Sections 208.900 to 208.930, 660.050, 660.250 to 660.321, 565.180 to 565.188, and 570.145, RSMo.

Federal Statutory or Regulatory Citation: Title XIX and Title XX of the Social Security Act and PL 89-73 Older Americans Act.

### 3. Are there federal matching requirements? If yes, please explain.

Yes, within this program lies responsibility for oversight of the Medicaid State Plan Personal Care Program, the Aged and Disabled Waiver, and the Independent Living Waiver. State funds receive a 50 percent federal match when activities deal with home and community based care for vulnerable adults or the health, safety, and welfare of Medicaid or potentially Medicaid eligible seniors or adults with disabilities.

### 4. Is this a federally mandated program? If yes, please explain.

Yes, state oversight of federal funding is required through Title XIX and Title XX of the Social Security Act and PL 89-73 Older Americans Act.

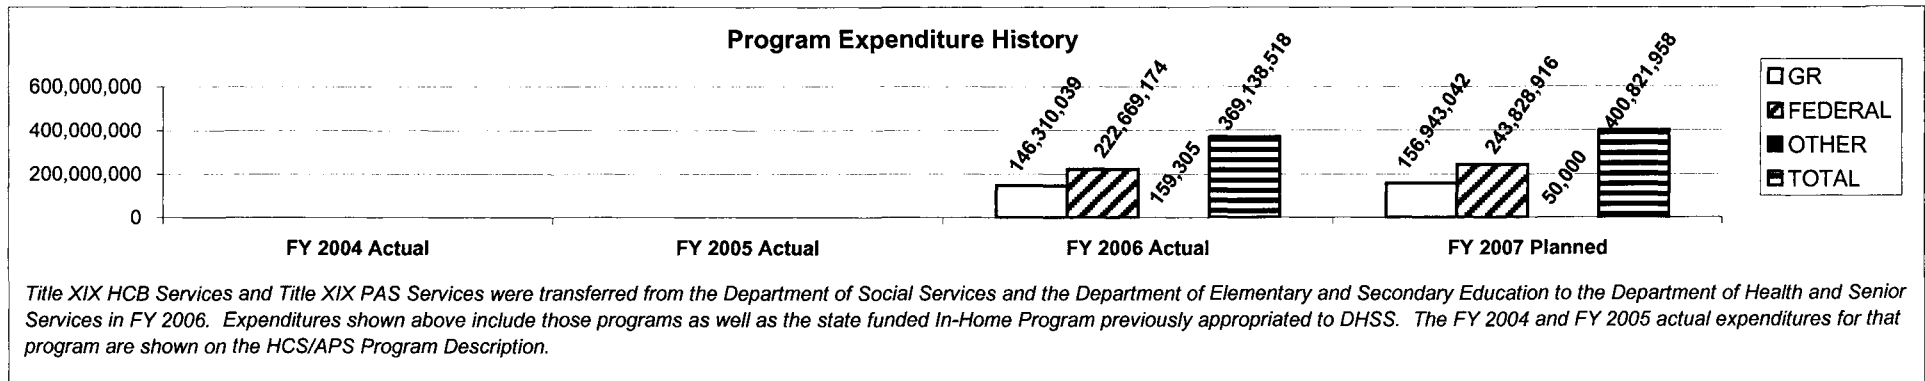

## PROGRAM DESCRIPTION

### Health and Senior Services

### Home and Community Based Services

Program is found in the following core budget(s):

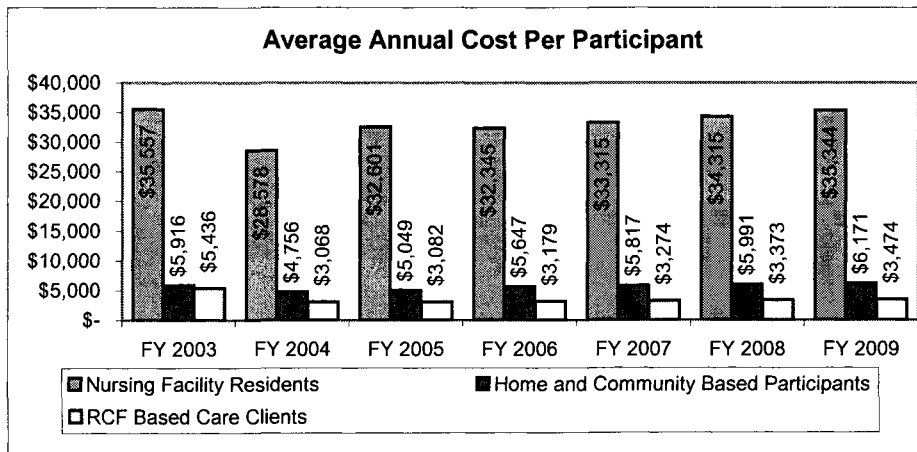

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

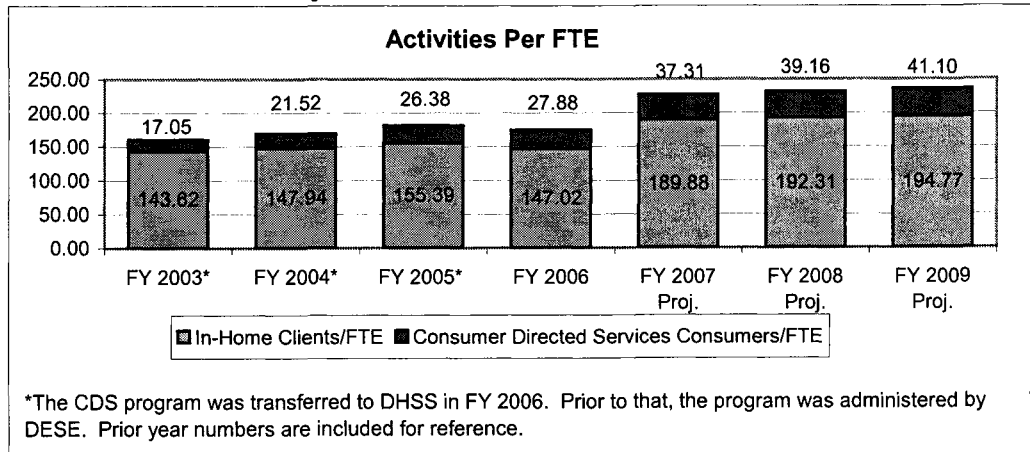

6. What are the sources of the "Other" funds?

Donations; the In-Home Program for seniors and adults with disabilities has a provision that allows donations to expand the program.

7a. Provide an effectiveness measure.

7b. Provide an efficiency measure.

## PROGRAM DESCRIPTION

\* Client numbers based upon number of clients receiving services during fiscal year. Clients for the CDS and NME programs for FY 2004 and FY 2005 are shown for reference. However, these clients were the responsibility of Department of Elementary and Secondary Education-Division of Vocational Rehabilitation (DESE-DVR) prior to FY 2006.

\*\* Client numbers based upon end of year enrollment. NME numbers were frozen by SB 539 at a maximum of 119. SSBG/GR numbers decreased in FY 2005 due to freeze placed upon spending. Increase in FY 2006 due to changes in Medicaid Eligibility (100% to 85% Federal Poverty Limit) and the removal of the Medical Assistance for Workers with Disabilities (MAWD) program. Clients for the CDS and NME programs for FY 2004 and FY 2005 are shown for reference. However, these clients were the responsibility of DESE-DVR prior to FY 2006.

\*\*\* Decrease FY 2004-2006 due to increased contract oversight intended to improve quality of care.

**7d. Provide a customer satisfaction measure, if available.**

In conjunction with the University of Missouri, a consumer satisfaction survey of a cross section of the population served by DSDS is under development for administration in FY 2007 as part of the Quality Assurance/Quality Improvement Grant. Baseline information will be available in FY 2008.

**PLEASE NOTE: UNLESS OTHERWISE INDICATED, FY 2008 AND FY 2009 PERFORMANCE MEASURES ARE BASED ON FY 2007 CORE FUNDING.**

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

Funding is needed to address the change in the Federal Medical Assistance Percentage (FMAP), which will go from 61.68 percent in FY 2007 to 62.22 percent in FY 2008. Each year the Centers for Medicare and Medicaid Services (CMS) revises the percentage of Medicaid costs that the federal government will reimburse to each state. Effective October 1, 2008, the regular FMAP rate will change from 61.60 percent to 62.42 percent. As a result, funds are needed to continue program core funding at current levels by compensating for this change in federal funding levels. The increased cost of this decision item has an equal offset in the affected program core as a core reduction. The Federal Authority is Social Security Act 1905(b).

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

Since the federal fiscal year (FFY) doesn't begin until the second quarter of the state fiscal year (SFY), a SFY blended rate is applied to the SFY core funding. This blended rate is derived by adding the old FFY rate (61.60 percent) for three months (July thru September) and the new FFY rate (62.42 percent) for nine months (October thru June) and dividing by 12 months, resulting in a SFY blended rate of 62.22 percent. In order to continue current core funding, these blended rates are applied to the SFY 07 core funding resulting in a revised mix of funding sources while maintaining the same total.

The SFY 07 core funding for Title XIX Home and Community Based Services was adjusted by a core reduction removing the SFY 07 funding appropriated for the Medical Assistance for Employed Disabled individuals, resulting in a core of \$150,669,304 GR and \$241,021,888 FF for a total of \$391,691,192. With a blended rate of 37.78 percent state and 62.22 percent federal, the state component should be \$147,980,932 ( $\$391,691,192 \times .3778$ ) and the federal component should be \$243,710,260 ( $\$391,691,192 \times .6222$ ). The additional federal funds and the correlating core reduction in general revenue funds for the Title XIX Home and Community Based Services would be \$2,688,372 ( $\$147,980,932 \text{ GR} - \$150,669,304 \text{ GR}$  and  $\$243,710,260 \text{ FF} - \$241,021,888 \text{ FF}$ ).

The SFY 07 core funding for Title XIX Home Delivered Meals is \$3,133,394 GR and \$5,041,626 FF for a total of \$8,175,020. With a blended rate of 37.78 percent state and 62.22 percent federal, the state component should be \$3,088,523 ( $\$8,175,020 \times .3778$ ) and the federal component should be \$5,086,497 ( $\$8,175,020 \times .6222$ ). The additional federal funds and the correlating core reduction in general revenue funds for the Title XIX Home Delivered Meals would be \$44,871 ( $\$3,088,523 \text{ GR} - \$3,133,394 \text{ GR}$  and  $\$5,086,497 \text{ FF} - \$5,041,626 \text{ FF}$ ).

This funding is needed to provide for anticipated caseload increases in the existing Medicaid program for home and community based services, personal assistance services program, and home-delivered meals program. Services include consumer directed and provider based personal care, AIDS waiver, Independent Living Waiver, Physical Disabilities Waiver, Aged and Disabled Waiver, and in-home services for children with special needs.

This funding is requested to provide for estimated caseload changes of existing Medicaid programs. This does not include any changes in any eligibility guidelines or new/additional services. The federal authority is Social Security Act 1894, 1905(a)(7), 1905(a)(24), 1915(c), and 1934; 42 CFR 440.170(f), 440.130, 440.180, 440.210 and 460. The state authority is contained in Sections 208.152, 208.168, and 660.661-687 RSMo.

While many people with disabilities fall within the current income levels for Medicaid coverage, more persons with disabilities may increase their earnings or consider returning to work if they had access to Medicaid benefits. Persons with disabilities usually have high medical expenses, and often use long-term support to remain independent and employed. Many of the needed support services are available under Medicaid. Often these individuals do not have access to private health insurance coverage or Medicaid and generally cannot afford to pay for their medical care. Under this circumstance, their only alternative may be to stop working, or reduce their work effort to reduce their income to the point at which they become eligible for Medicaid. This results in an overall decrease in the available workforce, and an increase in Medicaid expenditures while simultaneously decreasing state general revenue (due to loss of taxable income). Programs such as the former Medical Assistance for the Working Disabled (MAWD) and the Ticket to Work program allow individuals with disabilities within specified income guidelines to receive Medicaid services without decreasing their earning potential.

Costs for this new decision item are based upon calculations provided by the Department of Social Services (DSS) in their fiscal note response 5088-08N for HB 1742 (2006). The Department of Health and Senior Service's portion of the total fiscal note is based upon utilization rates calculated by DSS through data in the Medicaid Management Information Systems (MMIS) annual report for FY 2006. This results in a net cost for FY 2008 (based upon assumptions in HB 1742) of \$1,945,156 (all funds) for DHSS Medicaid Home and Community Services care. Using the State FY 2008 blended federal matching rate of 62.22 percent results in a cost breakdown of \$734,880 in General Revenue and \$1,210,276 Federal Funds.

<b>2. CORE DESCRIPTION</b>									
According to the Family Caregiver Alliance, Alzheimer's Disease is the ninth leading cause of death in the United States. An estimated 4 million people nationwide have been diagnosed with Alzheimer's Disease. The incidence of dementia increases rapidly beyond age 65. Although Alzheimer's Disease is most common in individuals over age 65, it can affect people much younger. This core decision item provides funding for Alzheimer's-related services. It includes money currently granted to the Alzheimer's Association, which provides services to individuals with Alzheimer's Disease and their caregivers. These services include grants for caregiver respite, peer-to-peer counseling for individuals diagnosed with Alzheimer's, and funds to help prevent wandering. A new decision item funded in FY 2007 provided additional funding, which will be allocated for Alzheimer's-related programs or used as matching funds for federal grants.

## PROGRAM DESCRIPTION

### Health and Senior Services

#### Alzheimer's Service

Program is found in the following core budget(s):

	DSDS Alzheimer's Services	HCS Grants							TOTAL	
GR	265,670	273,894							539,564	
FEDERAL	265,670	0							265,670	
OTHER	0	0							0	
TOTAL	531,340	273,894							805,234	

#### 1. What does this program do?

Services provided through the Alzheimer's Service Program are administered by the state in partnership with the Alzheimer's Association and are available to affected persons statewide. The projects, which serve to facilitate access to care options in an effort to decrease premature institutionalization of Alzheimer's victims and to decrease caregiver stress, include peer to peer counseling, caregiver respite grants, and projects to prevent wandering of Alzheimer's victims. It is estimated that 110,000 of the approximately 750,000 Missouri citizens over the age of 65 suffer from Alzheimer's Disease (AD).

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Sections 660.067 - 660.070, RSMo.

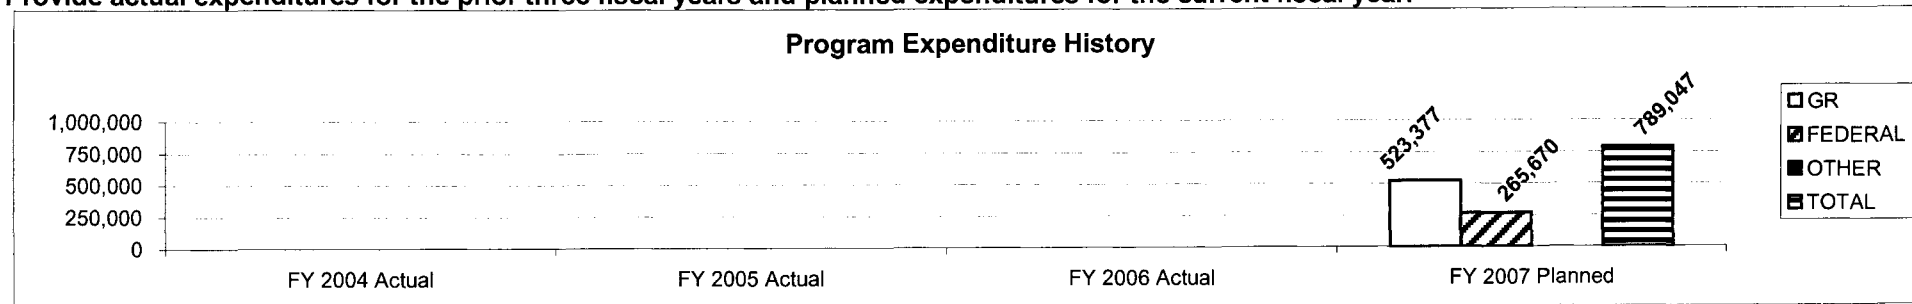

#### 3. Are there federal matching requirements? If yes, please explain.

During the three-year grant cycle, which expires in 2007, general revenue was required as a match for the Administration on Aging (AoA) Federal Grants. With the grant ending, it is anticipated that no federal funding will be available for this project in FY 2008.

#### 4. Is this a federally mandated program? If yes, please explain.

No

#### 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Note: Funding for Alzheimer's Services was awarded in FY 2007. The FY 2004, FY 2005, and FY 2006 actual expenditures for Home and Community Based Services Grant funding that is distributed to the Alzheimer's Association are shown on the Older Americans Act program description.

## PROGRAM DESCRIPTION

### Health and Senior Services

#### Alzheimer's Service

Program is found in the following core budget(s):

#### 6. What are the sources of the "Other" funds?

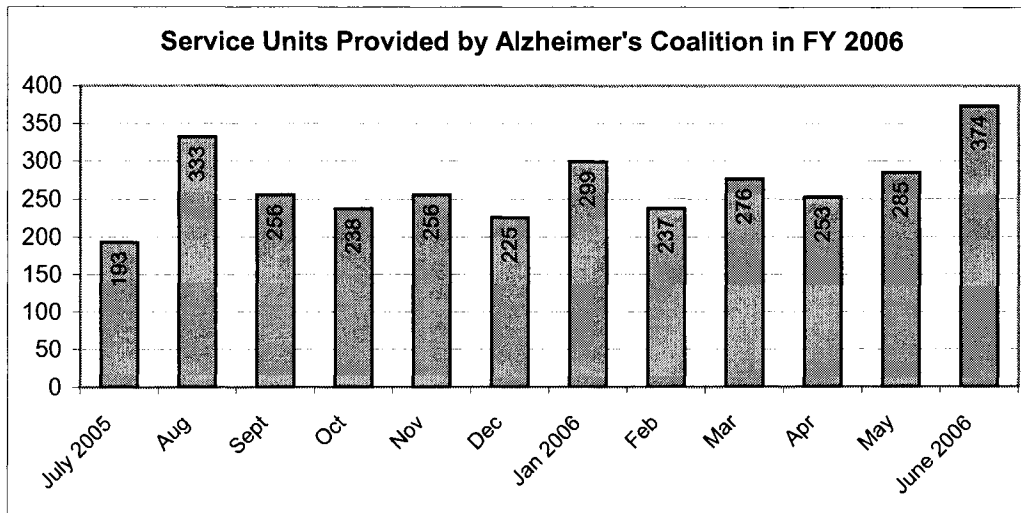

N/A

#### 7a. Provide an effectiveness measure.

Estimated number of Missouri citizens with Alzheimer Disease	110,000
Number served by the Alzheimer's Association*	51,629
Number served through Administration on Aging/GR Grant*	1,083

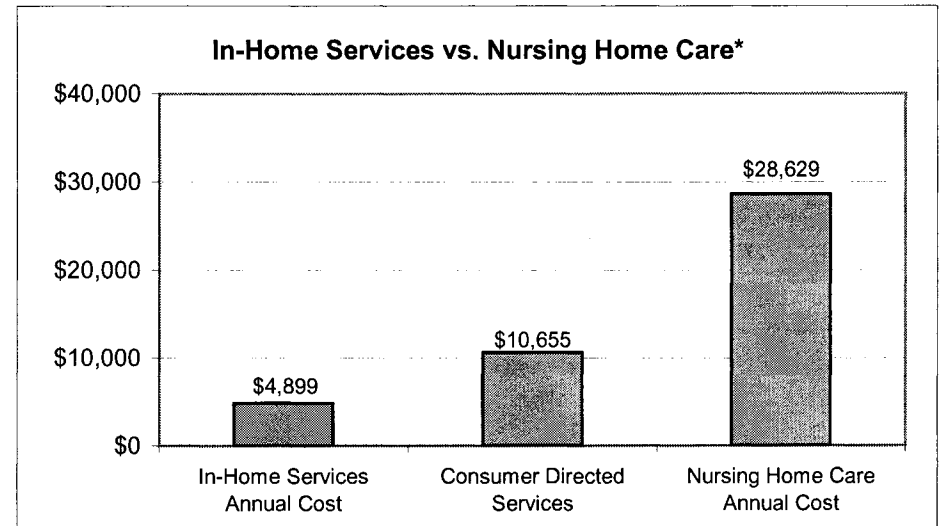

\*Based upon FY 2005 data

#### 7c. Provide the number of clients/individuals served, if applicable.

A total of 3,223 service units were provided during Fiscal Year 2006.

#### 7b. Provide an efficiency measure.

\*Based on SFY 2005 Medicaid reimbursement rates.

The primary goal of the Alzheimer's Service Program is to enable AD victims to remain in their homes and avoid institutionalization. As indicated above, in-home services provide significant cost savings when compared with nursing home care.

## 2. CORE DESCRIPTION

This core decision item is composed of the Home and Community Services Grants (HCS Grants) and Area Agencies on Aging (AAA) Grants. HCS Grants provide the ongoing funds for Older Americans Act (OAA) programs that fund home and community based services for older Missourians and adults with disabilities, help to prevent unnecessary or premature long term care placement, general revenue match required for Medicaid funded home-delivered meals, and federal appropriation authority for the Older Americans Act funds and the Elderly Home-Delivered Meals Trust funds. AAA Grants provide funds to maintain service levels for seniors in planning and service areas that have lost resources based on allocation formula due to population shifts (i.e., hold harmless) and funds for long term care ombudsman advocacy services.

## PROGRAM DESCRIPTION

### Health and Senior Services

#### Older Americans Act Programs

Program is found in the following core budget(s):

	Senior Programs HCS Grants	Senior Programs AAA Grants	Senior Centers						TOTAL	
GR	11,299,296	1,592,221	379,000						13,270,517	
FEDERAL	36,577,853	0	0						36,577,853	
OTHER	430,000	0	0						430,000	
TOTAL	48,307,149	1,592,221	379,000						50,278,370	

#### 1. What does this program do?

Services provided through the Older Americans Act Programs are administered by the ten Area Agencies on Aging and available to seniors statewide. Primary program funding is received from the federal government pursuant to the Older Americans Act (OAA). Funding is used to provide supportive services (including transportation), nutrition services, family caregiver support (including respite and counseling services), ombudsman services, Older Workers Employment Programs, and legal services. General Revenue funds are used as the required federal match for OAA distribution. Additionally, the match is provided to fund Medicaid home-delivered meals. Funding includes distributions from the Elderly Home-Delivered Meals Trust Fund and Social Services Block Grant. Finally, the 2007 funding includes one-time funds to acquire or expand senior centers in Worth County, Bethany, Puxico, and Hannibal.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Sections 660.050, 660.057, and 660.250, RSMo.

Federal Statutory or Regulatory Citation: Title XIX and Title XX of the Social Security Act and PL 89-73 Older Americans Act.

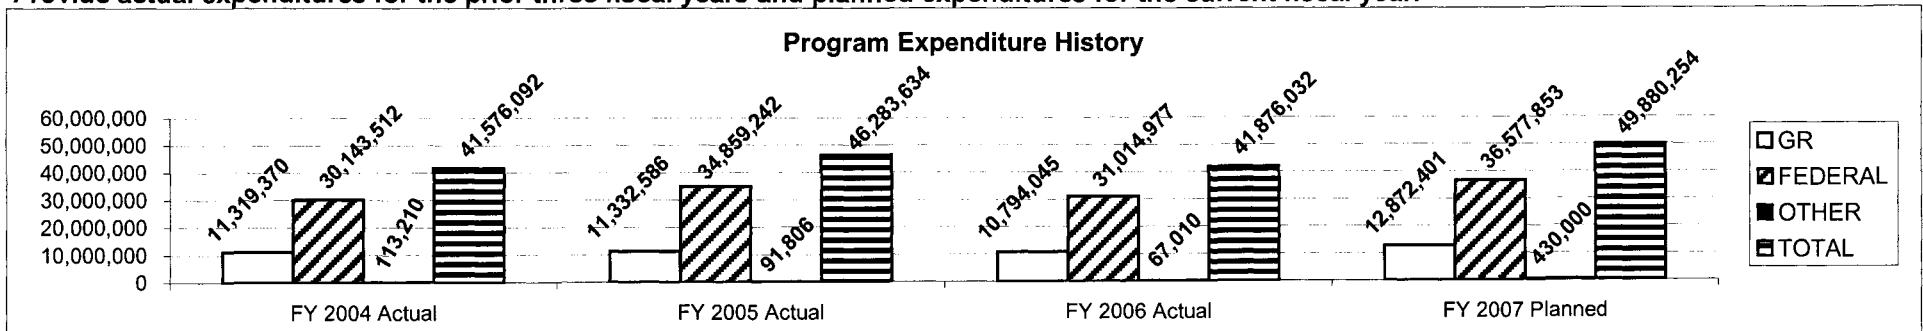

#### 3. Are there federal matching requirements? If yes, please explain.

Yes, services funded through the Older Americans Act require federal matching funds. Title III administration costs require a 25 percent match; some program service costs require a 15 percent match of which 5 percent must be state match and some service costs require no match; Title V requires a 10 percent match. Medicaid funded home-delivered meals must be matched utilizing the approved participation rate for Medicaid payments.

#### 4. Is this a federally mandated program? If yes, please explain.

Activities of the state are required for distribution of the Older Americans Act funding. Oversight of the Aged and Disabled Waiver (which includes home-delivered meals) is required by the Centers for Medicare and Medicaid for states that are granted a Home and Community Based Waiver.

#### 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

2. CORE DESCRIPTION									
Core funding is requested to support operations of the Division of Regulation and Licensure (DRL). DRL is composed of the Director's Office (Administration), Section for Long Term Care, Section for Health Standards and Licensure, Section for Child Care Regulation, Family Care Safety Registry, Board of Nursing Home Administrators, and the Long Term Care Ombudsman.									
The Division of Regulation and Licensure coordinates the health care and child care licensing programs within the department. These licensing (and certification for Medicare and Medicaid) programs include long term care facilities (residential care facilities, assisted living facilities, intermediate care facilities, and skilled nursing facilities), hospitals, ambulatory surgery centers, clinical laboratory services, mammography services, end stage renal dialysis centers, home health agencies, hospices, outpatient therapy agencies, comprehensive outpatient rehabilitation facilities, emergency medical technicians (basic and paramedic), air and ground ambulance services, trauma centers, and child care facilities. Further, the division registers persons and businesses that manufacture, distribute, prescribe, or dispense controlled substances. In addition, the Family Care Safety Registry conducts background checks of employees in the child care and elder care industries; the Board of Nursing Home Administrators tests and licenses nursing home administrators; the State Long Term Care Ombudsman advocates for the rights of residents of long term care facilities; the Hearings Unit conducts hearings related to disqualification of persons for employment in the elder care industry, discharge of residents of long term care facilities, emergency medical services and child care licenses, and informal dispute resolution of statements of deficiencies at long term care facilities.									
Division staff support complaint investigation, licensure, and survey/inspection activities required under chapters 190, 192, 195, 197, 198, 210, 260, 344, and 660 RSMo; various sections of 42 CFR; Social Security Act (Medicare and Medicaid) and conditions of participation in the Medicare 1864 agreement with the Centers for Medicare and Medicaid Services, Older Americans Act, Administration on Aging (Department of Health and Human Services), and 40 CFR parts 31 and 35.

### FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 5802850	<b>DEPARTMENT:</b> Department of Health & Senior Services
<b>BUDGET UNIT NAME:</b> Division of Regulation & Licensure (DRL)	<b>DIVISION:</b> Division of Regulation & Licensure (DRL)

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

For FY 2007, the Division of Regulation and Licensure was granted 20 percent flexibility between personal services and expense and equipment appropriations for General Revenue, federal funds, Nursing Facility Quality of Care, and Missouri Public Health Services Fund; also, 100 percent flexibility was granted between Medicaid and non-Medicaid appropriations. The Division of Regulation and Licensure requests that this level of flexibility be continued for FY 2008. This flexibility will help ensure the division can deal with situations involving leave payouts, overtime, statutory changes, or other unforeseen circumstances. Since the Medicaid and non-Medicaid appropriations are estimates and are impacted by a number of factors (how to appropriately split out Medicaid funding from other funding streams for staff that work on multiple-funded programs, uncertainty on Medicaid eligibility of clients served by programs, etc...), 100% flexibility would allow the department to move these funds to either Medicaid or regular appropriations if the estimates proved to be too low or too high, thereby helping to avoid the need for a supplemental appropriation.

#### DEPARTMENT REQUEST

DHSS requests 20% flexibility between PS and E&E for General Revenue, federal funds, Nursing Facility Quality of Care, and Missouri Public Health Services Fund; and 100% flexibility between Medicaid and Non-Medicaid appropriations.

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
N/A	In FY 2007, 20 percent flexibility was appropriated between PS and E&E appropriations for General Revenue, federal funding, Nursing Facility Quality of Care, and Missouri Public Health Services Fund; and 100 percent flexibility was appropriated between Medicaid and non-Medicaid appropriations. This will allow the program to respond to changing situations to continue to provide the best possible, quality services to DHSS.

### 1. What does this program do?

The Division of Regulation and Licensure coordinates the health care and child care licensing programs within the department. These licensing (and certification for Medicare and Medicaid) programs include long term care facilities (residential care facilities, assisted living facilities, intermediate care facilities, and skilled nursing facilities), hospitals, ambulatory surgery centers, clinical laboratory services, mammography services, end stage renal dialysis centers, home health agencies, hospices, outpatient therapy agencies, comprehensive outpatient rehabilitation facilities, emergency medical technicians (basic and paramedic), air and ground ambulance services, trauma centers, and child care facilities. Further, the division registers persons and businesses that manufacture, distribute, prescribe, or dispense controlled substances. In addition, the Family Care Safety Registry conducts background checks of employees in the child care and elder care industries; the Board of Nursing Home Administrators tests and licenses nursing home administrators; the State Long Term Care Ombudsman advocates for the rights of residents of long term care facilities; the Hearings Unit conducts hearings related to disqualification of persons for employment in the elder care industry, related to discharge of residents of long term care facilities, related to emergency medical services and child care licenses, and related to informal dispute resolution of statements of deficiencies at long term care facilities. The Division Director's Office provides leadership and management to ensure that the various programs are following their state and federal statutory and regulatory requirements, reviews legislative proposals and prepares fiscal notes and bill reviews of the impact of new legislation, develops the division's budget in coordination with the department and coordinates the execution of the budget, and administers a workforce of over 540 employees. The Division Director's Office includes the division director, deputy, and support staff including the Financial Support Services Unit and the Hearings Unit.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapters 192, 197, 198, RSMo; Sections 210.481-210.511, 210.900-210.936, 660.050-660.321, RSMo; Federal Statutory: Federal Authority for specific activities is included on division program description pages.

### 3. Are there federal matching requirements? If yes, please explain.

Federal matching requirements for specific activities are included on division program description pages.

### 4. Is this a federally mandated program? If yes, please explain.

The federal mandate for specific activities is included on division program description pages.

#### 1. What does this program do?

The Bureau of Home Care and Rehabilitative Standards (HCRS) maintains an inspection process that assures state/federal requirements are met, patient rights are protected/promoted, and quality care is provided. HCRS is included in a federal contract with the Centers for Medicare and Medicaid Services (CMS) to certify home health agencies, hospices, comprehensive outpatient rehabilitation facilities (CORF), and providers of outpatient physical therapy (OPT). A federally mandated toll-free "hotline" is maintained for the purpose of receiving questions about agencies or for patients to lodge complaints concerning their provider agency or quality of care issues. HCRS investigates all allegations of inappropriate care and other patient concerns. In addition to regulatory oversight, HCRS staff make presentations to councils, agencies, and boards.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 197.400 - 197.477, RSMo (Home Health); Section 197.250 - 197.280, RSMo (Hospice); 42 CFR 484.1 - 484.260 (Home Health); 42 CFR 418.1 - 418.405 (Hospice); 42 CFR 485.701 - 485.729 (Outpatient Physical Therapy); 42 CFR 485.50 - 485.74 (Comprehensive Outpatient Rehabilitation Facility).

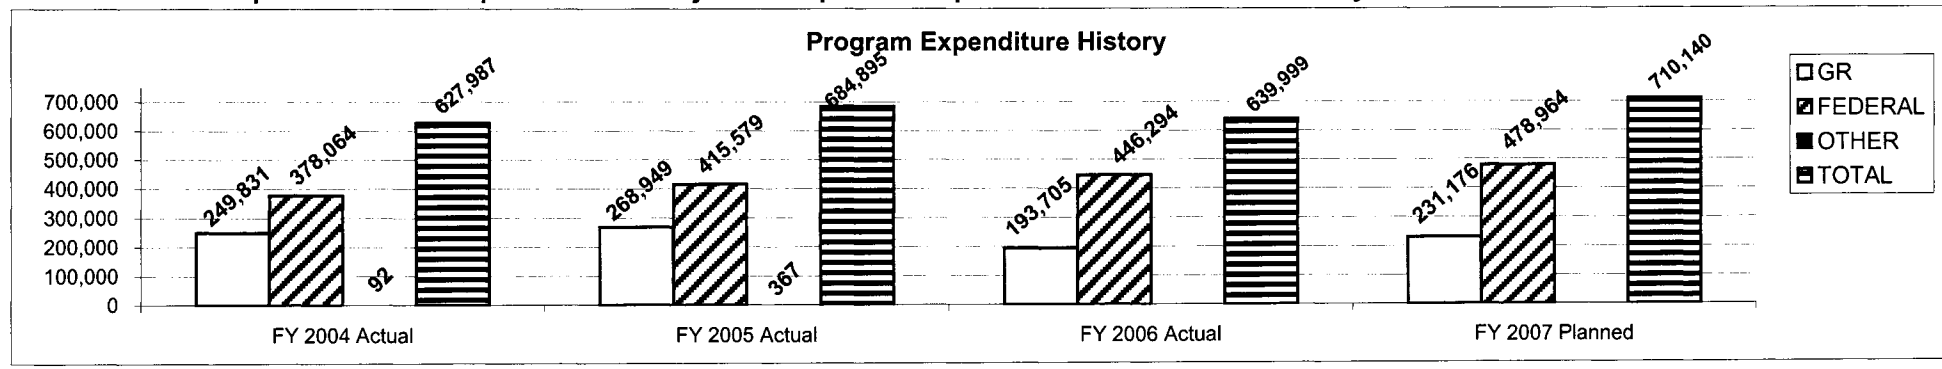

#### 3. Are there federal matching requirements? If yes, please explain.

No

#### 4. Is this a federally mandated program? If yes, please explain.

Yes, the federal government has guidelines as to the frequency of surveys performed to assure compliance. Home health surveys range from 12-36 months depending on their compliance history and hospices; OPTs and CORFs are surveyed according to the CMS Survey Mission and Priority Document, at least every six years.

#### 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

### 1. What does this program do?

The Bureau of Health Services Regulation is responsible for the regulation and/or licensing of certain health care facilities in Missouri, including hospitals, ambulatory surgical centers, birthing centers, one abortion clinic, rural health clinics, clinical laboratories, and end stage renal disease (dialysis) centers. It also monitors medical and industrial radiation equipment usage and procedures. Health Services Regulation conducts both routine and non-routine inspections of health facilities as directed by state or federal statute. The bureau also conducts investigations of complaints against health care facilities in order to assure minimal standards and requirements for patient safety and care are met.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 197.010-197.120, RSMo (Defines hospitals, requires licensing, outlines licensing and inspection programs); Section 197.200-197.240, RSMo (Defines ambulatory surgical centers, requires licensing, outlines licensing and inspection programs); Section 197.285-197.297, RSMo (Establishes standards for the operation and management of licensed hospitals and ambulatory surgical centers); Section 197.700-197.705, RSMo (Further defines medical staffing requirements for licensed facilities); Section 192.400-192.510, RSMo (Establishes and outlines radiation control authorization and duties); Section 192.760-192.766, RSMo (Establishes and outlines state mammography authorization and duties); Section 197.150-197.165, RSMo (Defines procedures for monitoring and enforcing compliance with infection control regulations and standards, defines infection control officer); Section 197.293-197.294, RSMo (Establishes provisions for the enforcement of infection control regulations and standards).

Federal Regulatory Citation:

21 CFR 900.1 – 900.25; 42 CFR 488.1 – 488.456; 42 CFR 493.1 – 493.2001.

### 3. Are there federal matching requirements? If yes, please explain.

Yes, the program is required to match Medicaid (Title XIX) with 25 percent state funds.

### 4. Is this a federally mandated program? If yes, please explain.

Yes, the program is mandated and under federal contract for its services.

#### 1. What does this program do?

The Board of Nursing Home Administrators consists of ten individuals appointed by the director of the Department of Health and Senior Services. The Board is responsible for promulgating regulations that establish qualifications for licensure, testing standards, and license renewal requirements of individuals who serve as a nursing home administrator in a skilled, intermediate care, or residential care II facility. In addition, the Board conducts hearings affording due process of law, upon charges calling for discipline of a licensee. State staff assigned to the Board evaluate the applicant's qualifications for licensure; maintain and administer the state licensure exam; issue licenses; approve, issue, and extend temporary emergency licenses; monitor continuing education programs; audit license renewal applications; renew the license of qualified licensees; maintain accurate records and minutes of all meetings of the full Board or a committee thereof; and maintain a database of all persons holding a nursing home administrators license.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 344, RSMo.

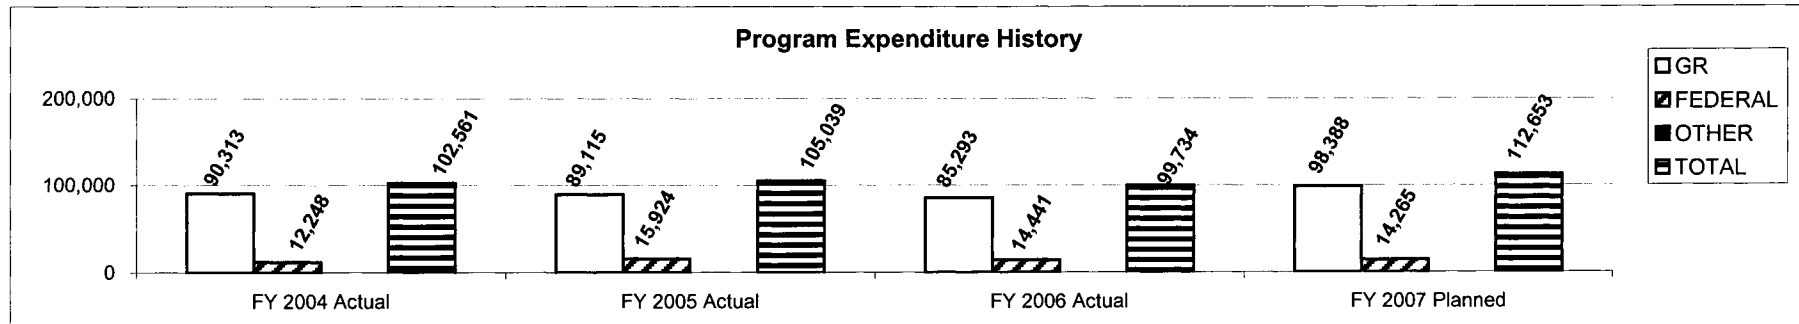

#### 3. Are there federal matching requirements? If yes, please explain.

#### 1. What does this program do?

The Long Term Care Ombudsman Program (LTCOP) advocates for the rights of residents of licensed long term care (LTC) facilities. The LTCOP receives, investigates, and resolves complaints made by or on behalf of LTC residents. The program maintains a separate toll-free number that residents and family members may call to access ombudsman services. There are four state employees in the ombudsman program, 19 regional paid ombudsman (who work for or are contracted by the Area Agencies on Aging), and 300 ombudsman volunteers in the program. Staff provide educational materials to the public and give presentations on many topics involving LTC residents (i.e. choosing a nursing home, preventing abuse and neglect, starting a resident or family council, etc.). State staff monitor the eight regional programs, which are part of the Area Agencies on Aging network of services. LTCOP recruits and trains ombudsman volunteers to resolve issues in facilities. The program resolves an average of 5,000 complaints each year.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Older Americans Act, Administration on Aging (Department of Health and Human Services) 42 USC Sec. 305.8g; Section 660.600 - 608, RSMo.

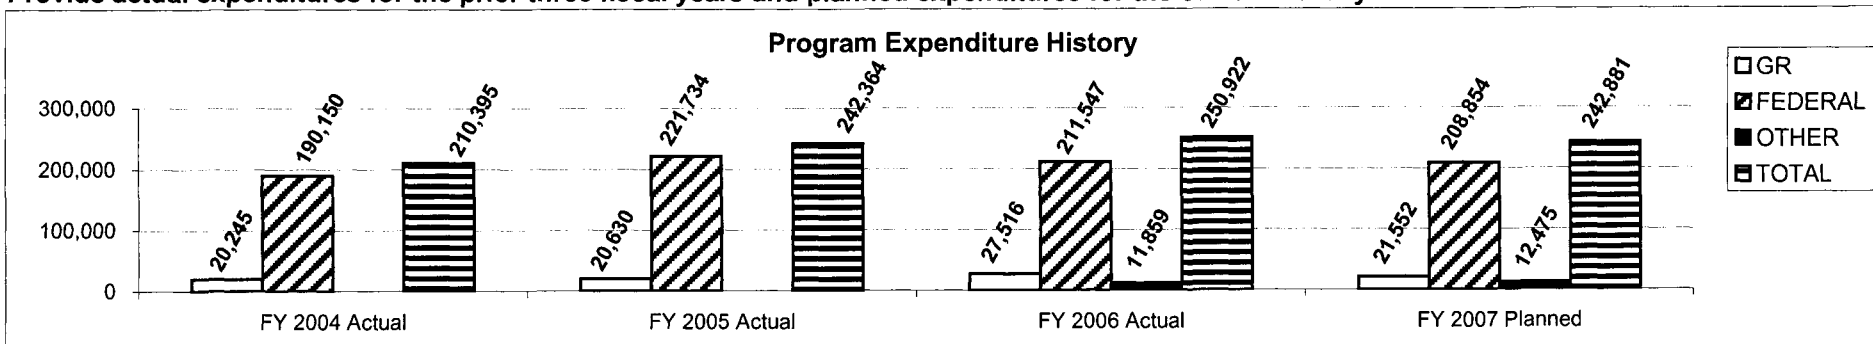

#### 3. Are there federal matching requirements? If yes, please explain.

Yes, Title XIX Medicaid requires a state match of 50 percent.

#### 4. Is this a federally mandated program? If yes, please explain.

Yes, the Older Americans Act mandates that all states have a state long term care ombudsman and a statewide program.

The Unit of Emergency Medical Services (EMS) inspects and licenses ambulance services and emergency medical response agencies, inspects and accredits training entities, examines and licenses emergency medical technicians and paramedics, reviews and designates trauma centers, collects head and spinal cord/trauma data, collects Missouri ambulance reporting form data, emergency medical services for children, and establishes standards for emergency medical technician (EMT) curriculum development. Pursuant to Senate Bill 177 (2005), proposed rules implementing licensure fees were published in the July 3, 2006, edition of the *Missouri Register*. The Joint Committee on Administrative Rules held a hearing on the proposed rules, August 28, 2006. As a result of the committee hearing, the licensure fee rules will not be implemented and licensure fees will not be collected.

The mission of the Bureau of Narcotics and Dangerous Drugs is to identify the diversion and misuse of controlled substances without prohibiting their appropriate and effective use. This is accomplished through regulation of the distribution and use of these substances; enforcement of relevant laws; and education of health professionals, other regulatory and law enforcement agencies, and the public. Registrants consist of physicians, dentists, veterinarians, pharmacies, researchers, hospitals, ambulatory surgical centers, and other services and providers. Each registrant pays a \$90 registration fee every three years. Collected fees go to general revenue.

### 1. What does this program do?

The Family Care Safety Registry (FCSR) provides background screenings to families and other employers who want to hire a caregiver for a child, the elderly, or a disabled individual. Caregivers for children, the elderly, and disabled persons are required to register within 15 days of hire. After registration, a background screening is performed using a computer interface to obtain criminal history, Sex Offender Registry, child abuse and neglect information, employee disqualification lists for aging and mental health and foster parent license denials, revocations, and involuntary suspensions. Caregivers are required to register only once. FCSR staff respond to requests for background screening received by using a toll-free telephone number (required by section 210.918, RSMo), internet service, facsimile, or mail. Background screening information is provided at no cost to the employer or family. The caregiver is required to pay a one-time registration fee, currently \$5, which is directly deposited into the Missouri State Highway Patrol's Criminal Record Repository Fund.

Senate Bill 616, 93rd General Assembly Second Regular Session, repealed Sections 198.006, 198.073, and 198.087, RSMo, and enacted in lieu thereof Sections 198.005, 198.006, 198.073, 198.087, and 1, RSMo. This legislation changes the current facility classification of Residential Care Facility I to Residential Care Facility and the current facility classification of Residential Care Facility II (RCF II) to Assisted Living Facility (ALF). Those facilities licensed prior to August 28, 2006, as a RCF II will be licensed as an ALF but have the option of continuing to meet state laws and regulations in effect on August 27, 2006, for RCF IIs (for a period of time) or meeting the additional legislative requirements related to ALFs. The legislation's additional requirements for ALFs include:

The legislation also requires the DHSS to approve a resident assessment tool designed for community-based services.</p> <p>Due to the increased requirements for the new licensure level of ALF, additional staff time will be required at each inspection in order to assess the facility's compliance with the additional requirements. Inspection staff will also need additional training in order to appropriately assess each facility's compliance. Staff must be able to assess compliance with three different regulatory standards: the new standards for ALFs, the existing RCF I standards that will apply to RCFs, and the existing RCF II standards that will apply to ALFs that elect to continue to meet the RCF II requirements for a period of time.</p> <p>The legislation also requires the DHSS, Division of Senior and Disability Services, to work together with the Department of Social Services (DSS) and ALF provider groups to develop and implement a new Medicaid payment system for ALFs. DSS is required to submit all applications required to implement a new system to the federal Department of Health and Human Services by July 1, 2007.</p>

#### **Division of Regulation and Licensure**

The requirements in SB 616 and the proposed rules to implement this legislation will result in more detailed and more time-consuming inspections. A comparison was done between the time demands for a current inspection of an RCF II and what is expected for an inspection of the new licensure level for assisted living facilities. This analysis yielded an estimated 50 percent more time being required by an inspector in order to adequately assess the criteria required. These new criteria include more time spent on care plans and more time spent on assessments, individual service plans, contracts, and evacuation plans (if applicable). Assessments will require a shift in focus to determine whether the facility is providing services that are consistent with a social model of care, thus requiring more focused time and attention from the inspector. The determination of minimal assistance will require more analysis and evaluation than the current requirement of pathway to safety and will, in many cases, require a one-on-one evaluation. The DHSS, Division of Regulation and Licensure, estimates that ten additional Facility Inspector positions will be needed to implement the provisions of SB 616 (see Section 3 above for the new requirements in SB 616). The number of staff needed was calculated in the following manner:

#### **Full Inspections**

There are currently 365 RCF II facilities. DHSS is required to conduct one full inspection in each RCF II every fiscal year. On average, it takes approximately 28 hours for each of two staff to complete an inspection in an RCF II (8 hours to complete the inspection, 16 hours write up time, 4 hours revisit time) for a total of 56 hours per facility. Because of the new requirements in SB 616, DHSS estimates a 50 percent increase (an additional 28 hours) in the time to complete each inspection. This equals an additional 10,220 work hours (28 hours x 365 facilities) or 5 additional FTE (10,220 work hours/2,080 work hours per year for 1 FTE = 5).

#### **The additional requirements and the estimated additional time needed are as follows:**

*Social Model of Care – (1 hour)* – Social model of care is services based on the needs and desires of each individual resident. This will require an evaluation of residents' needs and desires to see if the facility is providing a social model of care specific to the needs and desires of each individual.

*Written Contract – (30 minutes)* – The inspectors will have to review this contract to ensure it meets the criteria outlined in statute. This contract will be specific to each resident, so the inspectors will review multiple contracts at each inspection.

*Staffing – (2 hours)* – The facility must provide staffing in appropriate numbers and with appropriate skills to provide services based on each resident's needs and desires. The inspectors will need to evaluate the care requirements for many residents to determine appropriate staffing levels.

*Written Disaster Plan – (30 minutes)* – The inspectors need to review the written plan which must contain several elements, including keeping residents in place, evacuating residents to an area of refuge, evacuating residents from the building or methods of protection based on the disaster, and the individual building design. This plan is much more specific than the current requirement for a disaster plan, therefore will take additional time to review.

This is a new requirement, which will take additional time to evaluate.</p> <p><i>Community Based Assessment – (4 hours)</i> – Assessments must be completed for each resident. The inspectors will need to review a sample of the assessments to determine if the assessments meet the statutory requirements and accurately reflects the current needs/abilities/desires of the resident. The assessment must encompass the areas of activities of daily living, instrumental activities of daily living, vision/hearing, nutrition, social participation and support, and cognitive functioning.</p> <p><i>Appropriately Trained and Qualified Individual – (30 minutes)</i> - The assessment referenced above must be completed by an appropriately trained and qualified individual. The inspectors will need to evaluate a sample of these service plans to ensure the facility is providing the appropriate care and services. The minimal assistance requirement will require a one-on-one evaluation which will require additional time to evaluate.</p> <p><i>Individualized Evacuation Plan – (2 hours)</i> – Each resident requiring more than minimal assistance must have an individualized evacuation plan as part of the individualized service plan. Staff must be trained on the evacuation plan. The inspectors will need to evaluate these plans and ensure staff are trained on their implementation. This is a new requirement.</p> <p><i>Sprinkler System – (30 minutes)</i> – Facilities caring for residents requiring more than minimal assistance must have a sprinkler system. The inspectors will need to evaluate the sprinkler system to ensure it is the appropriate type and is functioning properly.</p> <p><i>Additional Write Up Time – (5 hours)</i> – Because of the additional requirements, DHSS expects additional time required to prepare deficiency statements.</p>	
<b><u>Second Inspections</u></b>	
<p>DHSS is required to conduct second inspections in most RCF IIs every fiscal year. A few facilities are exempt from this requirement so the number of current RCF IIs (365) was reduced by 75 for purposes of this calculation to 290 facilities. DHSS estimates it takes approximately 14 hours for each of two staff to complete a second inspection in an RCF II (4 hours to complete the inspection, 8 hours write up time, 2 hours revisit time) for a total of 28 hours per facility. Because of the new requirements in SB 616, DHSS estimates a 50 percent increase (an additional 14 hours) in the time to complete each second inspection. This equals an additional 4,060 work hours (14 hours x 290 facilities) or 2 additional FTE (4,060 work hours/2,080 work hours per year for 1 FTE = 2 FTE).</p>

**The additional requirements and the estimated additional time needed are as follows:**

*Social Model of Care – (30 minutes)*  
*Written Contract – (15 minutes)*  
*Staffing – (1 hour)*  
*Written Disaster Plan – (15 minutes)*  
*Pre Move in Screening – (30 minutes)*

*Individualized Evacuation Plan – (1 hour)*  
*Sprinkler System – (15 minutes)*  
*Additional Write Up Time – (2.5 hours)*

**Complaint Investigations**

DHSS is required to conduct complaint investigations in RCF IIs. DHSS estimates approximately 750 complaints related to RCF IIs are received each fiscal year. DHSS estimates it takes approximately 15 hours for one staff person to conduct a complaint investigation. Because of the new requirements in SB 616, DHSS estimates a 50 percent increase (approximately 8 additional hours) in the time to complete each complaint investigation. Due to the unknown nature of potential complaint investigations, DHSS used the same estimate for additional time as for inspections and second inspections. Complaints can range from affecting one resident to potentially affecting all, can vary in severity of the allegations and can vary in the number of allegations contained on one complaint report. This equals an additional 6,000 work hours (8 hours X 750 complaints) or 3 additional FTE (6,000 work hours/2,080 work hours per year for 1 FTE = 3 FTE).

The request includes salaries for ten Facility Inspector positions at Range 19, Step G. This is two steps above the minimum for the range. It also includes ongoing and one-time expense and equipment costs related to the ten FTE. Ongoing costs for each FTE include in-state travel, supplies, telecommunications, network, and software. One-time costs for each FTE include telecommunications, computer, chair, side chair, and lateral file cabinet. The file cabinets are needed for storage of documents related to inspections and complaint investigations, some of which could be of a confidential nature. In the DHSS fiscal note response for SB 616 (2006), the Division of Regulation and Licensure indicated that the cost to implement the legislation was unknown, in excess of \$100,000.

**Division of Senior and Disability Services**

The DHSS, Division of Senior and Disability Services (DSDS), will need one additional Aging Program Specialist II to coordinate with the Department of Social Services, Division of Medical Services, and the ALF providers to develop and implement a new assisted living Medicaid waiver as required by Section 1 of SB 616. The division will also be requesting funding for this position and for the one-time expense and equipment costs related to this position in a FY 2007 supplemental request. Therefore, this NDI for FY 2008 includes only the continuing salary and on-going expenses (in-state travel, supplies, telecommunications, network, and software) for this position. The salary for the position is estimated at Range 25, Step Q, due to the fact that the position needs to be filled with an individual who has Medicaid program expertise. DSDS requested in its fiscal note for SB 616 (2006) PS and EE funds related to 1.00 FTE necessary to pursue an assisted living waiver.

The steps required to pursue a waiver of this type are extremely lengthy and require an individual well versed in Medicaid waiver applications. Additionally, it is not a project that can be split among several staff, as it is necessary to maintain a cohesive approach to the development of the new waiver at a department, state, and federal level. Required steps include:

1. Establishing a task force consisting of state employees and provider groups to discuss a new rate system. This will also involve checking with other states and the Centers for Medicare and Medicaid Services (CMS) on currently existing programs and allowable payment methods. Consideration must be given to current waivers, state plan amendments, and the Deficit Reduction Act (DRA-2005).
2. Finalizing a document to be presented to DHSS and DSS management for approval.
3. Developing the actual waiver application to be submitted to CMS through DSS-DMS. The actual waiver is over 100 pages, with 300 pages of instructions/technical guides. This involves a great deal of coordination with DHSS and DSS staff, in addition to contact with CMS.
4. Submitting the application to CMS, including further discussion with CMS post-submission, as well as rewrites to portions of the waiver as necessary (may take up to a year or longer).
5. Simultaneous with the submission to CMS, the staff person must begin the process of regulation development and/or changes to inter-agency agreements if applicable; develop or augment information technology procedures within Medicaid and DHSS to handle statistical requirements of CMS; make changes to billing procedures for reimbursement; modify state requirements to ensure the health and welfare of clients; create amendments to provider contracts; develop new policies or procedures for DHSS/DSS and provider staff, including training; and coordinate with DSS regarding the process of enrolling new Medicaid providers.
6. Once the new waiver is in effect, it will be necessary to maintain ongoing monitoring of the program, including making necessary amendments to policy, regulations, and databases; answering of participant and provider inquiries related to the new waiver; tracking and submission of relevant information to CMS; and handling of ongoing quality assurance issues.

2. CORE DESCRIPTION									
<p>Core funding is requested for early childhood care and education services for families and child care providers. The funds support the Missouri Child Care Resource and Referral Network. The network provides families assistance in finding child care along with information and educational materials. The network also works with families and child care providers to coordinate services for children with special needs. Child care providers are provided training information and opportunities through the network training coordinators and their newsletters and websites.</p> <p>The availability of quality child care affects workplace productivity and the economy and is linked to a child's success in school and in life. Missouri is currently experiencing an increased demand and potential shortage of high quality child care that is accessible and affordable for working families throughout the state. According to a 2004 report to a Congressional Ways and Means Committee, 64 percent of mothers with children under six years of age work and 60 percent of mothers with children under two are working. With the growth in population in Missouri, this means that more parents will enter the workforce and need child care. The potential exists that current child care capacity cannot meet the increased demand; thus, vulnerable children may be kept in inadequate child care settings or be left home alone where there is no assurance that health and safety standards are in place. Missouri's child care providers and parents often lack the resources and expert knowledge to assure that the care children receive is healthy, health promoting, and prepares children to enter school ready to learn. Lack of high quality child care is one of the many factors that contribute to poor outcomes for children, especially for infants and children with special needs.</p>

	DRL	Child Care Improvement							TOTAL
GR	2,037,731								2,037,731
FEDERAL	1,543,779	1,403,675							2,947,454

TOTAL	3,833,986	2,132,415							5,966,401

#### 1. What does this program do?

The Section for Child Care Regulation (SCCR) is responsible for the regulation and licensing of child care facilities. The section is also responsible for the annual safety, health, and sanitation inspections of child care facilities operated by religious organizations. The sanitation inspections are conducted in coordination with the Bureau of Environmental Regulation and Licensure in the Division of Community and Public Health and through a contract with the local health agencies. The section is also responsible for a variety of child care quality initiatives, including training for child care providers and resource and referral assistance for families. The Inclusion Program supports families with special needs children with their child care needs. Health consultation and technical assistance for providers is provided by local community health nurses through a contract with the counties.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Sections 210.199 to 210.275, RSMo; Personal Responsibility and Work Opportunity Act of 1996 (Governing the Child Care Development Fund).

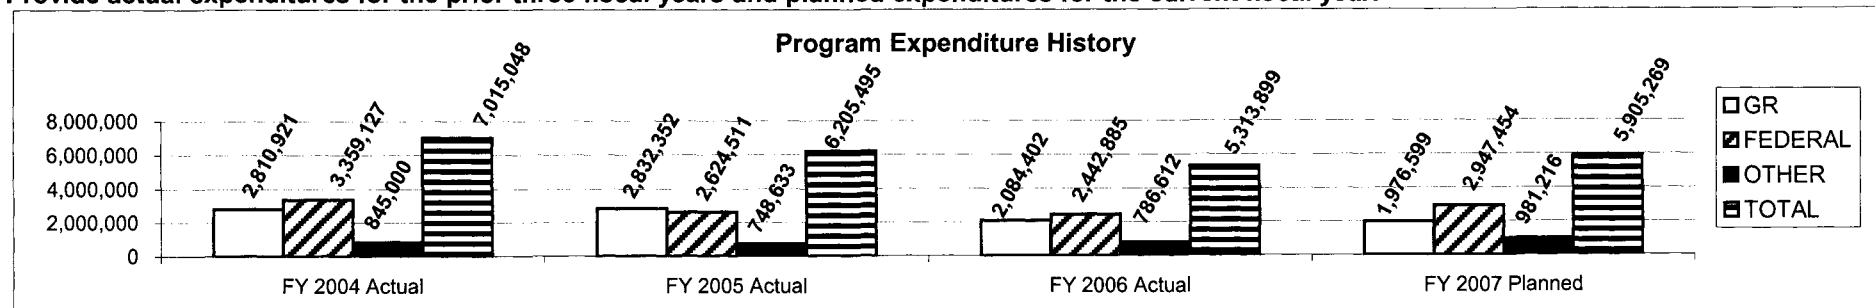

#### 3. Are there federal matching requirements? If yes, please explain.

Yes, funding for this program is provided through the Maternal and Child Health (MCH) Block Grant, which is matched at the departmental level.

#### 4. Is this a federally mandated program? If yes, please explain.

Yes, the SCCR receives federal Child Care Development Fund (CCDF) monies from the Department of Social Services through a memorandum of understanding in order to improve the quality and availability of safe and healthy child care. The Department of Social Services is the lead agency in Missouri for CCDF funding from the federal government. The CCDF funds received by the state are partially mandatory funding and a minimum of four percent of CCDF funding must be used to improve the quality of child care and offer additional services to parents.

#### 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Note: Nine environmental public health specialist positions were transferred to the Bureau of Environmental Regulation and Licensure in mid-FY 2006.

## PROGRAM DESCRIPTION

### Health and Senior Services

### Child Care

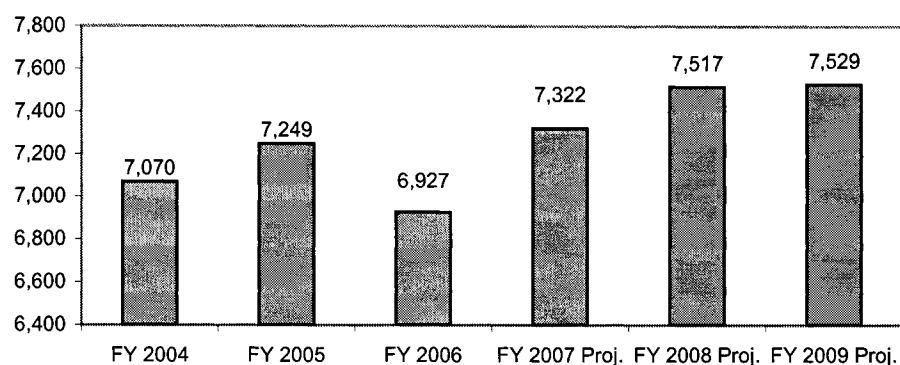

Program is found in the following core budget(s): Regulation and Licensure Program Operations; Child Care Improvement Program

#### 6. What are the sources of the "Other" funds?

Early Childhood Development, Education, and Care Fund (0859).

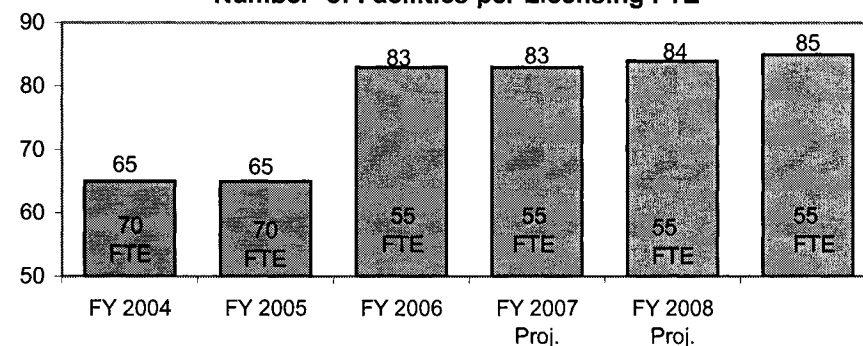

#### 7a. Provide an effectiveness measure.

**Inspections of Licensed Child Care Facilities**

#### 7b. Provide an efficiency measure.

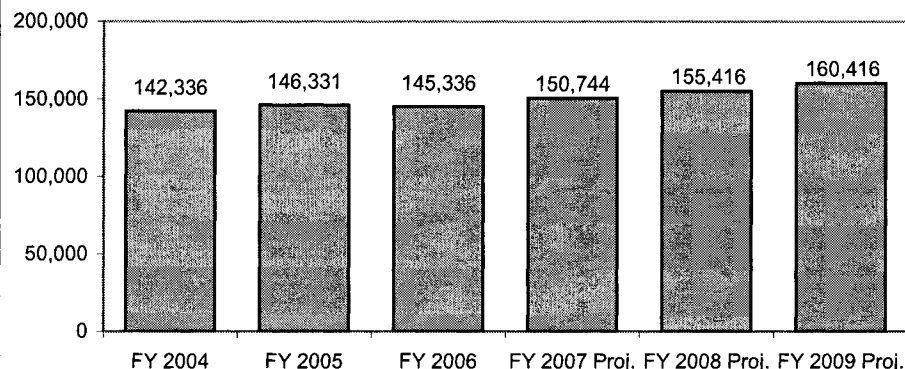

**Number of Facilities per Licensing FTE**

Each licensed child care program receives a minimum of four inspections every two years. In addition, staff investigate complaints as received.

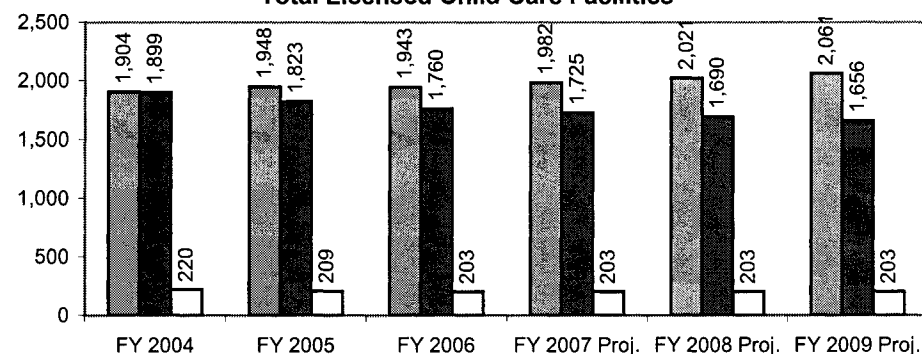

#### 7c. Provide the number of clients/individuals served, if applicable.

**Total Child Capacity of Licensed Child Care Facilities**

Note: The numbers above do not include children served by license-exempt facilities. In FY 2006, 30,539 children were served in license-exempt facilities.

**Total Licensed Child Care Facilities**

The current trend demonstrates an increase in the number of child care centers and a decrease in the number of family child care homes. This change has resulted in an overall increase in capacity for children served. This also results in a greater complexity of licensing issues related to the size of facilities

7c. Provide the number of clients/individuals served, if applicable (continued).

7d. Provide a customer satisfaction measure, if available.

The Section for Child Care Regulation will be implementing a new web portal for parents and other consumers that will display the licensing inspection and final complaint investigations for all facilities. This portal could allow us to survey users, including parents about their satisfaction with the web, with our inspection reports and complaint investigations.

This core provides funding, staff, and expenses to support the work of the Missouri Health Facilities Review Committee. The Committee administers the Certificate of Need (CON) Program whose mission is to achieve the highest level of health for Missourians through:									
1) Cost containment;									
2) Reasonable access; and									
3) Public accountability.									
This is accomplished through:									
1) Reviewing proposed health care services;									
2) Addressing community needs;									
3) Managing health costs;									
4) Promoting economic value;									
5) Negotiating competing interests;									
6) Preventing unnecessary duplication; and									
7) Disseminating health-related information to interested and affected persons.

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 580220	<b>DEPARTMENT:</b> Department of Health & Senior Services
<b>BUDGET UNIT NAME:</b> MO Health Facilities Review Committee (MHFRC)	<b>DIVISION:</b> Division of Regulation & Licensure (DRL)

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

For FY 2007, the Missouri Health Facilities Review Committee (MHFRC) was granted 20 percent flexibility between personal services and expense and equipment appropriations for General Revenue. The Division of Regulation & Licensure, MHFRC requests that the 20 percent level of flexibility be continued for FY 2008. This flexibility will help ensure the division can deal with situations involving leave payouts, overtime, statutory changes, or other unforeseen circumstances.

1. What does this program do?
 

The Missouri Health Facilities Review Committee (Committee) and the Certificate of Need (CON) Program had their origin in Federal Public Law 93-641 (1974), which was later repealed by Public Law 99-660 (1986). The CON statute, sections 197.300 - 197.366, RSMo, became effective September 1979. The statute is intended to address issues of community need, accessibility, financing, and other community health service factors plus continuing concerns about high health care costs.

The Committee's mission is to achieve the highest level of health for Missourians through cost containment, reasonable access, and public accountability. This is accomplished through:

  - 1) Reviewing proposed health care services,
  - 2) Addressing community need,
  - 3) Managing health costs,
  - 4) Promoting economic value,
  - 5) Negotiating competing interests,
  - 6) Preventing unnecessary duplication, and
  - 7) Disseminating health-related information to interested and affected persons.
  
2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)
 

Sections 197.300 - 197.366, RSMo.
  
3. Are there federal matching requirements? If yes, please explain.
 

No
  
4. Is this a federally mandated program? If yes, please explain.
 

No

\*FY 2004 include only face-to face sessions. Beginning in FY 2005, all face-to-face, telephone, and e-mail contacts were included.

7b. Provide an efficiency measure.

Health service capital expenditures, which were prevented through Certificate of Need regulation, are 153 times greater than the funds appropriated to administer the program. The investment made to cover expenditures is small when compared to the large amount of capital saved. Agency expenditures are more than recovered by application fees.

7c. Provide the number of clients/individuals served, if applicable.

Types of clients served in FY 2006:	
Potential/actual applicants:	2,380
Information dissemination:	460
Public meetings/hearings:	600
<b>TOTAL CLIENTS:</b>	<b>3,440</b>

7d. Provide a customer satisfaction measure, if available

A customer satisfaction survey was added to the Certificate of Need website in January 2007. It is designed to measure the adequacy of staff assistance, helpfulness of the website, clarity of rulebook information, timeliness of agency responses, and impartiality of meetings and hearings. Due to the short time the survey has been on the website, statistical data is not yet available. Statistical information from the survey will be included in the FY09 budget request.

**PLEASE NOTE; UNLESS OTHERWISE INDICATED, FY08 AND FY09 PERFORMANCE MEASURES ARE BASED ON FY07 CORE FUNDING LEVELS.**

<b>2. WHY IS THIS SUPPLEMENTAL FUNDING NEEDED? INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.</b>									
<p>The Missouri State Public Health Laboratory (SPHL), authorized under Section 192.050 RSMo, provides a wide range of diagnostic and analytical services to promote, protect, and assure the health of Missouri citizens. These services include, pursuant to Section 701.322, 191.331, and 191.322 RSMo, laboratory testing for infectious diseases, genetic disorders, and environmental concerns, both in support of public health programs and as a reference laboratory performing confirmatory or specialized procedures. Additional spending authority is being requested in FY 2007 to cover appropriation shortfalls due to inflationary costs of sexually transmitted diseases (STD) and newborn screening reagents, as well as recent reductions to federal grants. Additional authority is also needed to begin Cystic Fibrosis screening and continue expanded newborn screening testing.</p>									

### SUPPLEMENTAL NEW DECISION ITEM

Health and Senior Services		Budget Unit <u>58065C</u>
State Public Health Laboratory		
Missouri Public Health Services Authority	DI# 2580002	Original FY 07 House Bill Section, if applicable <u>10.605</u>

**3. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT.** (How did you determine that the requested number of FTE were appropriate? How many positions do the requested FTE equal and for how many months do you need the supplemental funding? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why.)

**Inflation - \$87,499**

Costs for reagents used to perform laboratory tests increase annually, yet the SPHL has not received an inflationary increase to cover these costs for several years. Both the STD testing and Newborn Screening programs use significant amounts of reagents to perform laboratory tests. The inflation rate for reagents used for these two programs is approximately 3 percent per year. This request will provide **\$87,499** (\$28,062 for STD Reagents + \$59,437 for Newborn Screening) of additional authority to cover these increased costs. This item is also being requested as a cost to continue in an FY 2008 decision item.

Fiscal Year	STD Reagents Cost	Increase from Prior Year
2006	\$935,397	
2007 Proj.	\$963,459	\$28,062

Fiscal Year	Newborn Screening Reagent	Increase from Prior Year
2006	\$1,981,225	
2007 Proj.	\$2,040,662	\$59,437

**Newborn Screening - \$432,438**

Section 191.332, RSMo, expands the newborn screening requirements in section 191.331. In Fiscal Years 2005 and 2006, the SPHL received funding from the Maternal and Child Health (MCH) Block Grant to provide start-up funding to implement the expanded newborn screening program. Effective July 1, 2006, the newborn screening test fee was increased to \$50 for each test performed (approximately 100,000 tests/year) in order to cover the additional costs associated with expanded newborn screening. All test fee revenue is deposited in the Missouri Public Health Services Fund (MoPHS) and is used to cover the costs of expanded newborn screening. While the program was implemented statewide in August 2005, MoPHS appropriation authority was not increased to cover the increased testing costs. With no federal funding left to operate the expanded newborn screening program, the SPHL needs additional MoPHS appropriation authority to allow it to spend the fee revenue generated by the expanded newborn screening program. This request would provide **\$432,438 EE** to maintain the level of testing initially provided by the MCH Block Grant. This item is also being requested as a cost to continue in an FY 2008 decision item.

Health and Senior Services		Budget Unit	58065C
State Public Health Laboratory			
Missouri Public Health Services Authority	DI# 2580002	Original FY 07 House Bill Section, if applicable	10.605

#### 3. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (CONT.)

##### Cystic Fibrosis Screening - \$240,000

The department requests spending authority to enable the State Public Health Laboratory to implement Cystic Fibrosis (CF) testing. Cystic Fibrosis is a fatal genetic disorder with an incidence of disease at 1:2,500-3,000 births. Recent advances in early detection as well as improved therapy and disease management have helped to increase the life expectancy of persons with CF from 14 years in 1969 to 30 years currently. In early calendar year 2007, the SPHL will pilot CF testing and move into full implementation prior to July 1. Cystic Fibrosis is part of the panel of expanded newborn screening required by Section 191.332 RSMo. Working closely with partners within the department and at the request of the Missouri Genetic Advisory Committee, the SPHL did not proceed with testing for this condition until a service network was in place to assist the families of those children whose screening indicate a high risk for this disease and are later confirmed. In November 2006, the State Public Health Laboratory will begin the rule change process to increase the newborn screening fee effective July 1, 2007, to support this testing. There is currently cash available in the MoPHS fund to support initial testing; however, the department does not have adequate appropriation authority to spend these funds: **\$240,000 EE**, including testing reagents (100 IRT kits x \$1,533.64 = \$153,364); and laboratory supplies (\$86,636). Supplies will be needed to begin CF testing in the last half of the fiscal year. This item is also being requested as a full year cost to continue decision item in the FY 2008 budget request.

##### Federal Funding Reductions - \$208,807

Over the past two years, federal funding used to support STD and Tuberculosis surveillance has been reduced. Increased MoPHS authority is requested to maintain the level of service previously supported by these federal dollars. Comprehensive STD: St. Louis City has been selected as a National Syphilis Elimination site due to an extremely high rate of syphilis in the city. It is critical to continue syphilis testing in order to bring this epidemic under control. Additionally, St. Louis City ranks number one in the nation for rate of gonorrhea cases for cities >200,000 population, and chlamydia morbidity has steadily increased since 1999. SPHL estimates that failure to receive appropriation authority would result in the reduction of 15,914 tests, further acerbating a critical public health problem **(\$183,804)**. Tuberculosis (TB): TB surveillance is well below adequate levels to detect and control outbreaks in time to prevent additional exposure and cases. An outbreak of drug resistant TB in a homeless shelter in St. Louis started in 2005 but was not recognized until early 2006. A costly multi-state investigation by federal and state officials was needed for contact tracking and treatment monitoring. Secondary spread to other homeless shelters was also documented. This authority is needed to maintain essential laboratory-based surveillance **(\$25,003)**. This item is also being requested as a cost to continue in an FY 2008 decision item.

##### Reductions in STD and TB Expense and Equipment Budgets

	FY 06 Actual	FY 07 Budgets	Decrease	
Comprehensive STD	\$858,713	\$674,909	(\$183,804)	-21.40%
Tuberculosis prevention and laboratory capacity	\$70,276	\$45,273	(\$25,003)	-35.58%

## 5. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with and without additional funding.)

### 5a. Provide an effectiveness measure.

Newer technologies have been very effective in identifying more persons infected with chlamydia, who will now be treated earlier with reduced risk to others.

### 5b. Provide an efficiency measure.

One hundred percent of high risk (abnormal) newborn screening laboratory results are reported to healthcare providers within 12 hours of laboratory detection.

## 6. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:

1. Continue providing critical laboratory services to promote, protect, and assure the health of Missouri citizens.
2. Begin pilot for cystic fibrosis screening and roll out full implementation by the end of FY 2007. Report abnormal results when indicated and work with the program as they follow up with physicians and families on care of the child and education regarding the disease.

<p><b>Purchase of antiviral agents</b></p> <p>Antiviral agents could play a significant role in protecting our population during a pandemic. When used within 48 hours of illness onset, these agents decrease the possibility of transmission and reduce the duration of influenza symptoms by approximately one day. Studies have shown a significant reduction in influenza-related pneumonia and bronchitis associated with antibiotic use and a significant reduction in hospitalizations. The recommended duration of treatment (referred to as a course of treatment) is five days. Current estimates are that 20 to 40 percent of the population will become ill in the event of an influenza pandemic. This proposal seeks funding to treat 40 percent of those at high risk of developing severe complications after influenza virus infection (elderly people with heart, lung, and other chronic diseases; HIV-positive persons; asthmatics; and children between the ages of 12-23 months). Infants less than one year of age are also at high risk; however, neither Tamiflu nor Relenza (the two viral agents likely to be used to treat the sick) are approved for infant use. The proposal also seeks funding for certain strategic groups (such as healthcare workers) during a pandemic.</p>

Supplies (\$8,720,728) - The CDC has established contracts with manufacturers to offer reduced prices for the antiviral agents that will be needed to treat those affected by a pandemic influenza outbreak. Each state is allocated a maximum amount at the subsidized price, beyond which the states will need to pay the full price. Missouri has been allocated 600,477 courses (five-day supply of medication) of two antiviral drugs (Tamiflu and Relenza) at the subsidized price. The department will be requesting its allotment at the ratio of 95 percent Tamiflu to 5 percent Relenza. The subsidized price for Tamiflu is \$14.43, while the subsidized price for Relenza is \$16.29. This results in a cost of \$8,231,637 for Tamiflu (570,453 x \$14.43) and \$489,091 for Relenza (30,024 x \$16.29), for a total cost of \$8,720,728. Both drugs have a shelf life of five years.

Building Lease Payments (\$13,344) - Space will be needed to store the drugs. Each pallet of medication holds 4,320 courses, equating to approximately 139 pallets needed. Approximately 16 square feet of floor space is needed per pallet. Thus, 2,224 square feet (139 x 16) is needed for storage. Average statewide storage costs are approximately \$6 per square foot, resulting in \$13,344 needed for storage (2,224 x \$6).

**2. WHY IS THIS SUPPLEMENTAL FUNDING NEEDED? INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

The DHSS State Only In-Home Services program, funded through General Revenue (GR) and Social Services Block Grant (SSBG) is designed to pay for home care on behalf of individuals who are over the age of 18 and nursing facility eligible (point count of at least 21), who are not Medicaid eligible at home – but would be potentially eligible for Medicaid funded institutional-based care. These funds are also used to ensure continuity of care plan delivery by paying for care delivered on behalf of individuals who have a Medicaid application pending, or who must meet a monthly spend-down amount. Funds are also used to pay for adult protective services and, in some cases, for optional Medicaid services to clients who are Medicaid eligible, but who do not qualify for that service, generally due to age restrictions.

Payments to contractors are guaranteed by dual-authorizing (i.e. authorized for both Medicaid and non-Medicaid services) recipients during times of Medicaid ineligibility to ensure care plans are maintained regardless of Medicaid eligibility status. Enrollment of new non-Medicaid recipients has been frozen since 2002. Dual-authorization has been frozen at various times since the program began, and is currently in a freeze status (effective September, 2006). The current appropriation is

**2. WHY IS THIS SUPPLEMENTAL FUNDING NEEDED? (CONT.)**

The FY-06 authority for this program was \$14.7 million GR and \$1.67 million federal funding (Social Services Block Grant – SSBG). Of this amount, \$7.2 million of the GR funding was available for expenditures, with the remainder placed in reserve. At the time the funds were placed in reserve, it was believed that the program could be sustained under current enrollment restrictions. Early in 2005, the legislature passed SB 539. Various provisions in the bill (Medicaid eligibility requirements, elimination of the Medical Assistance for Workers with Disabilities (MAWD), and changes in Medicaid income eligibility levels from 100% of the Federal Poverty Level (FPL) to 85%) had a significant impact on the non-Medicaid In-Home program. These changes resulted in a significant number of clients moving from straight Medicaid to spend-down Medicaid, with all clients experiencing an increase in monthly spend-down amounts. Due to the difficulty of determining the impact of the changes in Medicaid on this program, estimates of the number of clients who would maintain Medicaid eligibility by moving to spend-down status were underestimated. Many of these clients remained intermittently eligible and were dual-authorized for care reimbursement, resulting in a sudden and significant increase (roughly double) in spending for this group of participants. During the last half of FY-06, approximately \$3 million of the appropriation that was in reserve was released to maintain service levels.

The FY-07 budget reduced core GR funding for the State Only In-Home program to \$7.46 million. A new decision item was approved to cover a \$1.00/hour rate increase for in-home service providers (\$665,435), resulting in a total GR budget of \$8,127,087. In addition, only \$870,000 in federal SSBG funding is available to cover program costs in FY-07. Total available funding for FY 2007 is approximately \$8.99 million. With current expenditures projected at approximately \$10.94 million, this results in a shortfall of \$1,944,789 for FY-07.

**3. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? How many positions do the requested FTE equal and for how many months do you need the supplemental funding? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why.)**

DSDS receives monthly expenditure reports, service authorizations and service delivery rates for each of its five regions. This information is used to calculate current expenditures, and is used as a basis for determining anticipated fiscal year total expenditures. Through five months, \$5,062,702 has been expended. With the current freeze, and based upon data collected during previous freeze periods, it is anticipated that paid units will decrease at a rate of 2% monthly for state-only clients, and 3.5% monthly for dual-authorized clients. Projecting forward through the end of FY-07 results in total expenditures of \$10,938,904. Currently, \$8,127,087 GR (including Governor's Reserve) and \$867,028 FED (the original \$1,667,028 in available SSBG funding, minus \$300,000 in empty authority and \$500,000 transferred for the Alternatives to Abortion program) is available to be spent, or \$8,994,115. Projected expenditures subtracted from the projected available funding yields a shortfall of \$1,994,789 (\$10,938,904 - \$8,994,115). Given the unavailability of additional SSBG funding, all new funds for this appropriation must be General Revenue.

**2. WHY IS THIS SUPPLEMENTAL FUNDING NEEDED? INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

**MAHEC**

The Missouri Area Health Education Centers' (MAHEC) mission is to enhance access to quality healthcare services through the growth and support of Missouri's health care system. MAHEC accomplishes this by connecting high school students to health care careers, health professional students to clinical experiences, health care professionals to communities and communities to better health through partnerships, extensive linkages and networks. Typical network partners include academic health centers, state and local agencies, health care practitioners and clinical care settings. The MAHEC system supports many students, clinical settings, and communities in addressing healthcare workforce needs, especially those in underserved and rural communities. However, the financial support for these functions has not been consistent statewide, resulting in regions unable to address the needs of their respective communities and health professionals, which further increases the gaps between the adequately and under-served communities statewide.

**PRIMO**  
 The Office of Primary Care and Rural Health works to ensure the availability and accessibility of medical, dental and mental health care services for all Missouri citizens. This supplemental funding is needed for the following initiatives:

- 1) \$1,100,000 for 110 additional health professional student loans. In order to qualify for loan forgiveness, applicants must be willing to work in a public health facility, federally qualified health center or community mental health center in an area of defined need for medical, dental or mental health services.
- 2) \$1,300,000 to build clinical capacity by contracting with 13 communities each year--\$100,000 each--to develop new clinical access sites for primary medical, dental and mental health services.

Authorization for these programs: MAHEC - Section 191.980, RSMo; PRIMO - Section 191.411, RSMo; Student Loans - Section 191.500, RSMo; Loan Repayment Program - Section 191.600, RSMo; Nurse Loan Program - Section 335.212, RSMo.

**MAHEC**  
 Costs are estimated to provide each of the MAHEC regions and program offices (medical schools) the ability to better address the core area health education center functions, including student recruitment, health professional education and support, and clinical training opportunity development and support. DHSS will use the funding for the following: \$180,000 to provide programmatic support at the three sponsoring medical schools (\$60,000 each) to assure continuity of services and federal funding; \$700,000 to support each of the seven regional AHECs, to assure provision of core services (\$100,000 each); and \$120,000 to provide system wide services including the participant tracking database and the maintenance and expansion of the MAHEC digital library.

**PRIMO**  
 1) Additional student loans are based on current standards for undergraduate, graduate and postgraduate loans provided by PRIMO.  
 2) The cost per community intervention is based on current PRIMO investment initiatives.

**6. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:**

DHSS will use the funding for MAHEC to provide programmatic support at the three sponsoring medical schools to assure continuity of services and federal funding; to support each of the seven regional AHECs, to assure provision of core services; and to provide system wide services including the participant tracking database and the maintenance and expansion of the MAHEC digital library.

PRIMO contracts with academic institutions, health systems consultants, local public health agencies, state and regional organizations, community coalitions, health care delivery sites, health care practitioners and health professional students.
